After some discussion it was unanimously decided to give the returning boys a welcome and the following gentlemen were appointed a committee to form a permanent reception committee : H. S. MUSICAL INSTRUMENTS

We are often asked why we sell the high grade Pianos for one-third less than the regular price. The reason because of buying them of the manufacturers in large quantities at their lowest prices, and selling so many of them, giving terms to suit, and goods to please.

We have just added to our already complete stock a car load of Pianos and Organs.

You can be nowhere so well served as at the new music stores.

While our prices are special the qualities are regular-identically the same that have won popularity, and will continue to win it, because they are absolutely and uniformly the best.

Goods sold for cash or on payments.

Pianos for \$200 and upward, Organs for \$50 and upward.

We have special bargains in Pianos having been rented. They are good as new and will be sold at one-fourth their value.

Call and be convinced.

of force and deep thought. His remarks upon certain doings in society and in business should be remembered by all. The Dr. always draws a large audience when he preaches in Bellefonte as well as elsewhere.

-George Gross on Monday landed an 18 inch trout at the Bush House. Tuesday morning Son Miller had one about the same size. These large trout are all of the salmon or California species and now are about the same size, this stream having been stocked several years ago. It is claimed that they are killing all the young brook trout in the stream as very few have been caught this season, Nothing can come up to the native brook trout for beauty and fine flavor.

-Rev. John Harpster, many years a has returned to this country and was in attendance at General Synod held in DeMoines, Iowa, and which adjourned last week. This is Mr. Harpster's second visit to his native land since his labors began in India. He is an able and sincere worker in the mission field of the Lutheran church. He is a native of Centre Hall, and will no doubt soon be among some of his old friends and acquaintances in this county.

-The reception at the Bellefonte Academy, Friday evening, was well attended by the leading citizens of the community. During the evening several hundred guests assembed to pay their respects to the faculty and the members of the class that completed its course of study. The reception rooms were tastefully decorated and Prof. Smith's orchestra was on hand to liven the evening with some of their choice selections. This completes the forty-ninth year for Prof. Hughes in the same institution, which is an unusual record in this line of work. The Prof. bids fair for many years more of usefulness in that capacity.

-A number of the clerks about town have asked the writer to say a word in behalf of the movement to have the stores in town close at 6 p. m. during the heated term of July and August, except on days that are designated as pay days at some of the large works. The arguments on both sides of this question that deserve attention and consideration, and no doubt some people are inconvenienced by this early closing, but on the whole there is a great deal of relief afforded to many, a bit of leisure at a time when it is most appreciated. Nearly every merchant in the town has signed the petition and we believe that it will be adopted. Give the clerks the benefit of the evenings during the warm weather.
