KILBOURNE SURE TO WIN

Will Be Ohio's Next Democratio Candidate For Governor.

RESULT WILL BE KNOWN TO DAY.

Large Attendance at Convention Due To Reunion of the Old-time "Gold" Democrats, Who Have Not Been Together Since 1894.

Columbus, July 10 .- The McLean-Kilbourne element at the district meetings yesterday secured control of all the committees and will acordingly have everything their way at the Democratic state convention today. They were so strongly in the majority that there was no friction. Therefore it looks as if Colonel James Kilbourne will be Ohio's next Democratic candidate for Governor.

An unusually large attendance was at the convention yesterday, due mostly to the reunion of Democrats who have not been together in Ohio since 1896. Those who have been called "gold standard Democrats" were largely represented, and many of them had not attended their conventions in Ohio for years. Nearly all the old leaders of this class are here now, and they are given places of prominence on committees and organization generally.

Colonel Kilbourne, the probable nominee belongs to an old pioneer family of Ohio, being the grandson of Colonel James Kilbourne, who was one of the earliest settlers in the state. He served in the Union army throughout the civil war reaching me rank of colonel of volunteers. In 1868 he was admitted to the Columbus bar. He founded the Kilbourne & Jacobs Manufacturing company, as president and general manager of which he has extended the business to all parts of the world. He has also been interested in many other enterprises, being a bank and railroad director. Always a Democrat in politics, he served as a delegate to the Democratic National convention of 1892, where he supported the nomination of Mr. Cleveland. Colonel Kilbourne is a member of the Grand Army of the Republic and of other Union soldier organizations.

With Colonel Kilbourne as the Democratic candidate for governor, and the "new issues" brought fairly to the front, Governor George K. Nash, who has been renominated by the Republicans, will be given a hard fight. The Democrats have not elected a governor in Ohio since 1889, when they carried the state by 10,872 plurality.

EASY FOR CONSTITUTION.

In Second Race, the New Yacht Is Again Victorious.

Bateman's Point, Newport, R. I., July 9.—The race yesterday between the Herreshoff yachts, Constitution and Columbia, and the Crowinshield yacht Independence was won handily by the Constitution, which finished at 4.54, beating the Columbia over three miles and the Independence nine and one-half mile.

Of all the conquests in the history of the renowned races for the America's cup that of yesterday is the most remarkable. The Constitution proved herself the best light weather craft of this generation. Volunteer, Vigilant, Defender and Columbia have in the past achieved wonderful and glorious things in the cause of defending the cup, but the new Bristol sloop's work yesterday capped the climax and established her as a record breaker in light airs. She has accomplished what yachtsmen considered impossible in so summarily beating the Columbia, while her performance has put the Independence entirely out of the running in conditions like those of yesterday. What her showing may be in heavy weather is still a matter of conjecture, as it is with the Independence, but the experts are now almost ready to accept any achievement of the Constitution without surprise.

Mention should be made of the valiant efforts the old ship Columbia made to escape from the hoodoo of greater merit on the part of the Constitution. The brave and determined efforts of F. D. Morgan, the plucky amateur Barr, the able skipper and a crew whose like can never be surpassed, who kept up the great fight to the finish and in the smart handling of the sails never lost a point, were all recognized by appreciative spectators. That she lost was owing to the same reason that Defender lost the contest. She was outclassed as a vessel,

Must Be Het in Kansas.

Topeka, Kan, July 10.-The hot weather in Kansas continues with no immediate prospect of relief. Corn is fast shriveling up, the oats crop is worse than a failure, and hay is scarcer than for years. In western Kansas the conditions are better than in the eastern part, this being directly opposite to the usual state of affairs. Some of the central Kansas farmers are shipping their stock to western Kansas, so as to take advantage of the superior hay crop. It is estimated that Kansas will suffer crop losses. from the protracted heat spell to the extent of \$10,000,000.

Glassblowers Will Demand Increase. Atlantic City, July 10 .- The convention of Green Glass Bottle Blowers did no work yesterday further than what was done in committee rooms. The most important report expected at an early date is the one fixing a scale of wages. A ten per cent, increase, it is said, will be demanded from the manu-

A HUSTLING SOCIETY.

What a Nebraska Improvement Club

Is Doing For Its Town. Every citizen of a community has it in his power to help and encourage its growth and prosperity if he will but take the trouble to do so. Whatever conduces to the betterment of his town incidentally helps him in the enhanced value of his property, the greater opportunity for investment, the increased educational facilities and the greater S. Rodgers, the famous locomotive comfort of living which come to pros-

perous and up to date towns. If every town in the country would pattern after Wausa, Neb., there would be a general revival of business. For that little city is building itself into a great city by the only sure and quick way of growth-co-operation of the business men in every public enter-

This work of building up the town and of drawing new business to it is done by the Wausa Improvement club. Henry L. Wilson, American minister Other towns have improvement clubs which meet and talk over improvements, but this club goes out and gets

The Wausa Improvement club was organized last spring and has about 75 members. Its object is to promote any and all legitimate enterprises that will help the town.

Thus, if a stranger gets off the train and goes to a hotel he is given the glad hand if he evinces any desire to remain in Wausa and enter business. As an illustration: The place has been without a dentist until recently. Then one stopped off for a few hours, told In the House of Commons yesterday in tow by the club and given the honhis profession and was at once taken ors of the town. He located there, of

Then the men took it into their heads that they wanted a cigar factory and pledged themselves not to handle any cigars except those made by their own factory. With such a spirit the new ers were appointed for Pennsylvania cigar factory is bound to make money.

The same tactics were used with a jewelry establishment, and a Michigan jeweler two months ago started in business in Wausa.

As every one knows, a mill is a necessity in a live farming town. By a strong pull together the Improvement club landed one worth \$13,500, and an elevator also is being built. The coming of the owner to Wausa also means a residence. Not a sack of any kind of flour except Wausa flour is sold in the Wausa stores. The people of that town believe in patronizing home industries.

Another enterprise which the club now has on hand is the erection of a town hall, 36 by 80, with pressed brick front, stage, scenery, etc., to cost \$6,-000. When it is completed, regular weekly entertainments will be given to draw the people together.

The club also takes a whirl at the country roads. Every now and then they get hold of a scraper, go out into the country, enlist the farmers and put

SCENERY DEFACERS.

Billboard Advertising Productive of Little Good,

It is foolish to assume that huge billboards covered with staring signs or of the sheriff's posse overtaking the Inartistic pictures are really of any valmen who heldup the Great Northern ex- ue as advertisements, says the Wash press train at Wagner, Mont., last ington Times. They speedily become a feature of the landscape so familiar as to pass unnoticed by the wasfarer. Two minutes after seeing one of the things he would not know whether Jones' Rye Whisky or Potts' Painless Dentistry was advertised thereon. All New Potatoes, he would know would be that he had seen a big, ugly advertisement of something or other. The chances that he would ever patronize the firm guilty of this method of advertising are so small as to be incalculable by known mathematical process. The objection to billposting is that it is ugly, wasteful and useless; that it defaces the landscape line steamer Caracas which arrived in and offends people's sense of the fitness of things without giving any adequate return to the world for the pain

When one is riding along a lovely a yellow board stuck up in a meadow bearing in large letters the name of somebody's tooth powder, together with a lithograph three feet high of a grinning man's face. Such a sight causes the beholder to wish ardently for the destruction of the manufacturer, not the consumption of the tooth powder. It makes people of an artistic temperament wish that the tooth powder factory might be sunk in the deep sea and the manufacturer given over to the sharks, who, having more than one row of teeth apiece, are fit subjects for his missionary zeal.

DR. J. K. STITES.

No. 21 North Allegheny Street, Bellefonte, Pa.

Deafness No Longer Incurable.

Dr. Stites, the Eminent Specialist, is Now Demonstrating in Bellefonte the Success of the New Treatment for Deafness and Catarrh.

Until within a very few years diseases of the EAR have baffled the most learned men of medicine. It is within the range of the present generation to remember when there was little or no hope for the person whose HEARING had become impaired by age or disease. But thanks to the untiring efforts of men who have devoted their lives to study and research, these conditions no longer exist. Like the advance in electrical science so has wonderful progress been made in ear surgery and to-day diseases that less than a score of years ago were pronounced incurable yield at the hands of the adept surge in to the work of a few moments, a few hours or possibly treatment for a

The best part of Dr. Stites' life has been spent in the active practice of medicine : with frequent periods of study and research in the best medical colleges, post graduate schools and hospitals in the world, thus ever keeping in touch with the progress in medical science. Always readay to learn, he does not scorn to accept new truths from other men, but he has contributed his share and more to the store of knowledge. crowning success, his last and greatest achievement is his new treatment for CATARRH and DEAFNESS. It has now been thoroughly tested and the results have even exceeded the discoverer's most sanguine expectations. Cures have been effected in cases of years' standing-in some instances where persons well advanced in years had been afflected since childhood-in cases that had been given up as hopeless.

That these facts have become known is evidenced by the large number of afflicted persons who daily throng the offices of this distinguished physician at No. 21 North Allegheny street, Bellefonte. The doctor has already effected many cures. He has fully established the genuineness of his claims for the New Treatment.

Mrs. C. W. White of Beech Creek, Tells What it Has Done.

I have been suffering from Catarrh and Deafness for a long time. I had all kinds of horrible head holdes; had that dropping of phlegm as obad that often I had to leave the dining table in older to cleanse and hawk up and clear my throat. When I came to Dr. Stites for treatment I was in a bad condition generally, but that New Treatment is a wonder, I seem to be a new wom an all around. I am feeling fine, and would say happy too for the organ sounds sweeter when I play. Now the wind doesn't whiz in that ear and drive the sound all away from me. I can hear sounds out around my house now, I am so giad, thank goodness those horrible head noises have left me: I have now to hawk and spit but very little. I thought I never could get any worse than I was when I came to doctor, and to think of the wonderful amount of good he has done me. I recommended him to all those suffering from any Catarrhai disease or deafness.

Yours respectfully,

MRS, C. W. WHITE, Beech Creek, Pa.
