KILLS SIX CHICKENS.

Our well known townsman, James Derr, living near McCalinout's lime kilns, last Friday morning entered the Centre Democrat office with large paste-board box, and removing the lid, began to draw therefrom a blacksnake, of the racer species, and as he proceeded in doing this, he had to throw up his eyes to see whether the ceiling was high enough to permit it being drawn up to the serpent's full length. The snake measured six feet and three inches in length, and in its thickest parts was about the diameter of an ordinary broomstick. This reptile Derr killed that morning, after having entered his chicken house, when he discovered a black object in one corner, and upon examination it turned out that this snake had coiled itself around a half grown chicken; he at once hurried out for a stick, and on his return he found the snake had coiled itself around another chicken in another corner of the coop. Armed with a stick he attacked the ugly intruder, which had its head erect and in defiance kept shooting its forked tongue and head towards him. He dispatched his snakeship, and on examining the corner where he first discovered the snake, he found five of his pullets shoved into the corner, all squeezed to death by the force of the reptile's coils.

A few days previous Derr discovered a house snake, some 25 inches in length, stretched out on the middle sash of one of the windows of his house. Above the window was a peewee's nest with some young ones, which the snake undoubtedly thought to reach to make a meal of the little ones, and gained its position by climbing a vine growing alongside the window. The snake was killed.

SOLDIERS MONUMENT.

The approval by Gov. Stone of the \$1000 appropriation for the Curtin monument, and the visit of Sculptor George Bernard to this place this week, has renewed interest in the project to erect the Soldiers' Monument at Bellefonte. A meeting of the executive committee has been called for Saturday evening for the purpose of taking some decisive action in regard to funds and other matters pertaining to the monument. The committee on design have nothing definite to report at this time. Sculptor Bernard went ahead and prepared a model of what, in his conception, would be an appropriate design. This was inspected by Gen. Beaver and Pres. G. W. Atherton, of State College, while they were on a recent trip to New York City and paid a visit to the artist's studio. They were not pleased with the attitude of Gov. Curtin, which represented him as occupying the Executive Chair as Governor of this state and issuing the call for troops at the outbreak of the civil war. They did not approve of the seated figure and preferred a design showing the War Governor in an erect attitude. The same opinion prevails among the majority of the people in this section. But whether they are competent to judge as to what is the most appropriate position in such a design may be a question. The artist has decided to abandon that idea and, from an entirely new conception, produce something that will give the erect figure and be harmoniously grouped with other material to be embodied in the design.

A Compliment.

The statistical return of Centre county, made to the secretary of Internal Affairs, is a large and complicated mass of figures, that requires care and pains to compile. Last week when the report from this county was received in that department at Harrisburg it attracted attention and was admired by the entire department for its neat and accurate form, and was acknowledged as the best in from any part of the state. Isaac B. Brown, the deputy secretary of Internal Affairs at once wrote Boyd A. Musser, commissioners' clerk of Centre county, a personal letter for the exceptionally fine report made, which is a compliment Mr. Musser truly appreciates. R. F. Hunter, a former clerk, also had a similar compliment paid him when in the commissioners' office.

Road Tax Law.

The new road law, approved by Governor Stone provides that every person who shall make affidavit that he has used exclusively during the preceding year, in hauling loads of 2,000 pounds or more on public roads, wagon tires with not less than four inches wide for each year after the passage of said act, shall be credited by the supervisor of his district with one-fourth of the road tax assessed and levied on the property of such person. It provides also a penalty for each offence of hauling loads of 10,000 with tires less than for inches in width.

This will be a convenience long wished for and will bring us in direct communication with our friends in Union county, in all its towns and to Milton, Sunbury, and other places in that section.

Found An Old Coin.

Miss Cora Peters, the little daughter of Mr. Joseph Peters, who farms W. T. Speer's farm near Pleasant Gap, is very proud of a relic which she found the other day. Her father had just plowed up a plot of ground that probably had never been worked during the last century, and Miss Peters while walking through it discovered a curious piece of money which the plow had turned up. It proved to be a Spanish silver coin of the time of Carlos the third. It was dated 1775 and its value in our money would be 12 1/2 cents.
