BREAK AT CARNEGIE'S BRYAN IN FAME'S TEMPLE.

Strikers Say It Is First Move In a General Tie Up.

Mill Owners Assert That Intimidation Has Been Used At Several Points. Steel Production Has Depreciated 31 Per Cent. This Week.

Pittsburg, Aug. 14 .- Ten men, five mill of the Carnegie company in Pittsburg yesterday and joined the strikers. Their defectijon represent the first break in the Carnegie forces of more than 15,000 men. The strikers were jubilant over the incident, but the company claims to have filled their places at once and that there will be no more desertions at any of the plants. The Bellaire plant at which the men struck on Sunday was finally closed down yesterday, after working short handed until Monday afternoon, When another start will be made is problematical. Several hundred boys, employed at the National Tube works at McKeesport, went out during the night and day and their action materially aided the effort of the strikers to finally tie the plant up. The works are going ahead short handed, but the ranks of the workers are thinning and the supply of material is limited. The strikers made gains at Pittsburg, and Wheeling also, in the last 24 hours, but the advantage is still with the mill owners. Reports of breaks in the ranks at Painters and New Castle are denied by the strike leaders.

So far good order has prevailed, although the steel officials assert that there has been intimidation at Wheeling, McKeesport and Pittsburg. President Shaffer, of the Amalgamated Association, left yesterday for Wheeling, where he is to address the strikers. The number of men out as a result of the general order is now roughly estimated at 16,000, and on the three orders at 62,000.

It is reported this morning that the Chartiers plant at Carnegie, operated by the American Sheet Steel company, is to be dismantled and will be removed to Leechburg. The fires were drawn yesterday after the men had refused to go to work, and Superintendent Henry says they will never be relighted.

The steel corporation held its ground at Cnicago, Joliet, Bayview, Youngstown, Columbus, the Kiskimnetas valley and the Carnegie group, with the exception of the instance named. The strikers are considering plans for breaking the decision of Chicago, Joliet and Bayview to stand with the steel companies, but what they plan to do has not yet been made clear. They are charging some of the western men with dishonesty and disloyalty, and there is a general desire among members of the Amalgamated here for some form of inquiry.

Montgomery, Ala., Aug. 14 .- At the constitutional convention yesterday Mr. Long, of Walker, moved to reconsider the action of the convention in providing that the governor may suspend a sheriff from duty pending impeachment proceedings for permitting a prisoner to me taken from him and lynched. SANTIAGO'S GUNS FOUND.

It Was Thought the Spaniards Were Shipping Them Home.

Santiago de Cuba, Aug. 14 .- Several days ago it was discovered that the two modern six-inch Spanish guns comprising the Punta Gorda battery which commands the entrance to the harbor of Santiago were missing. This battery and the guns of the Sacopia battery were the only modern cannon employed by the Spaniards against the United States warships with the exception of those landed from the Spanish cruisers.

Yesterday the harbor police discovered the guns which had been carried to a forest on the other side of the bay and been broken by explosives, ready for shipment as old metal. Several Spanish ships had been searched by the police who had expected to discover that the guns were being shipped by the Spaniards to Spain.

TRAIN BANDITS NABBED

owned today by the delegates to the In Jail Two Hours After Train Was Held Up.

BLOODHOUNDS ON THE TRAIL

After Taking the Passengers' Valuables the Bandits Blew Up the Baggage Car, and Seemed To Enjoy the Hold-up Immensely.

Denison, Tex., Aug. 14 .- Within two hours after the robbery of the southbound Missouri, Kansas and Sexas train at Caney Switch, I. T., yesterday by five masked men, bloodhounds had trailed the robbers to their homes, where J. B. Davis, deputy marshal at Colbert, I. T., and a posse, arrested them. Their names are E. C. Richmond, Bob Alford, George Brown, John Gibson, Tom Edwards and Jack Barr. , Last night they were marched to Ataka, where Commissioner Ball held them in \$5,000 bail each.

Caney, the place where the robbery occurred, is a side track 39 miles north of Dennison. It is in the Choctaw Nation of the Indian Territory, and the population surrounding the station is only 125. The train does not stop at Caney on signal. As the proper signal was given, the engineer whistled his reply, and the train slowed down for the stop.

Instead of the hurried signal to go ahead, the engineer and fireman were confronted by two men with masked faces. About the same time the express messenger and the mail clerk were communicated with through the closed doors of their cars. Three of the robbers shot wildly and then the call went to the messenger and clerk: "Open up, here. Open up, and don't be too slow about it."

From within came no response, and the robbers again called out: "Open the door or we will blow it open and blow you to hell."

There was no response to the secand call and the firing again began, fully 20 shots being discharged. Still there was no response and the three men prepared a blast of dynamite and exploded it. This tore the side off the express and mail car and the robbers leaped through the opening and overpowered the messenger. He was ordered to open the safe, but he could not. The robbers then put a charge of dynamite to the safe and olew it open. They demolished the safe but only secured \$1.50.

Every mail pouch was emptied and the mail considered valuable by the robbers was taken. Then, with Postal Clerk Tulley holding an empty mail sack, the robbers went through the coaches and robbed every passenger. They got \$280 in one coach. A negro who refused to give up his money was severely beaten.

Superintendent Sam Gaines, of the railway mail service, says he does not believe the robbers got much money out of the mail pouches. After the work was done the robbers, who seemed to enjoy the situation, sat around and laughed over the matter and even went back into a car to get some papers, holding the train two hours. Then the robbers left, going east into the dense bottom timber for which the Cancy creek is noted.
