## CARDINALS AT ROME.

Have Singular Privileges and Rules for Their Conduct.

Always Dress in Red and Etiquette Does Not Allow Them to Walk—The Sacred College and How It is Constituted.

While in Rome etiquette does not allow a cardinal to walk. He must have a carriage and pair. When he goes out beyond the city walls an attendant follows him. Going to a public ceremony at the Vatican he is entitled to a gala train of three carriages, and if a prince to four.

In the pope's chapel the cardinals kneel at the benches on which they sit. They wear at ceremonial functions a cassock with a train of cloth in winter and of moire in summer. Collars, shoes and stockings are red. The girdle is of red moire with gold tassels, the rochet of lace and the mozetta the same as the cassock. In Rome the rochet is covered with a red mantleletta; outside the city it is uncovered. The hat is red felt with gold tassels.

The cardinals di curia, or those residing in Rome, are entitled to a yearly income, or piatto cardinalizio of 22,000 lire—about \$6,400—which is paid out of the pope's pence. The cardinal dwelling ordinarily has these special apartments: At the entrance is an antechamber for the domestics. Above a credence are the arms of the cardinal under a canopy. On the wall are suspended his two kneeling cushions, one of red and the other of violet silk, and his two umbrellas of the same colors. These last are for covering him when he is making a solemn entry into a church or following the vialeum bareheaded. The second room is for the cardinal's secretary.

The third is called the antechamber of the biretta, because the red biretta is placed there on a console before a crucifix. Then comes the throneroom.

When a cardinal asserts that the pope has said this or that, or has given such an order, he must be believed on his word without being obliged to prove it. This is called the oraculum vivae vocis.

Cardinals will be one of the youngest members of the college. He is now 53. Cardinal Skebensky, archbishop of Prague, is the youngest, being only 38. Cardinal Yives y Tuto comes next. He is 47. Then Mgr. Martinelli fits in, says the Baltimore Sun.

When the sacred college is complete there are 70 cardinals, namely six bishops, 50 priests and 14 deacons. Cardinals of a lower order have, with the consent of the pope, the right of option to pass to a higher order. The deacons can choose the vacant places of the cardinal priests if they have been deacons for ten years, and have been ordained to the priesthood. The senior cardinal priest present in Rome when one of the six bishoprics falls vacant has the option to succeed to it, with the exception of the sees of Ostia and of Porto, which are reserved for the dean and the subdean of the sacred college. The dean is the senior cardinal, dating from his promotion to one of the sees.

There are now 67 cardinals—40 Italians and 27 of other nationalities. It is said that Pope Leo XIII. desires always to have the membership near the plenum, or limit, and that he said just before making out the recent list of 12 new cardinals:

"Better that there should be as many as possible to choose from in the next conclave." Pope Pius IX., having had the longest reign, created the most cardinals, 179; Pope Leo XIII. has buried 136 cardinals since he began his pontificate.

Besides Cardinal Martinelli seven other cardinals have had to do with the church of North America. They are Cardinal Cheverus, the first bishop of Boston; Cardinal McCloskey, archbishop of New York; Cardinal Gibbons, of Baltimore; Cardinal Tascheron, of Quebec; Cardinal Perisio, bishop of Savannah; Cardinal Mazzella, the Jesuit theologian and professor at the college at Woodstock, Md., and Cardinal Satolfi, former delegate to the United States. Of these cardinals Cheverus, Perisio and Mazzella had their country before they were created cardinals.

Rebuke to Stingy Employers. Judge Danforth, of Maine, believes that a fair salary tends to keep a man content. Lately, in speaking of a condemned bank cashier, he said: "I wish that the law permitted me to send with the accused every one of the bank directors who, through a long term of years, expected you to do your work, live respectably, bring up a large family and be honest—all on a salary of \$600 a year."

WATCH DOGS.

Ever On the Alert—Alive to Every Form of Oppression—Kept on Edge—Burdened Beyond Endurance—Nerves Give Out.

The machinery of a mill that grinds day and night has to shut down now and then for repairs. It is the same way with your nerves. Overwork, close application, our ways of living bring about nerve waste that sets up symptoms of various kinds. It may be falling strength—weakness—langor—headache—sleeplessness, etc. Whatever it is Nerve Force is lacking and the means of restoring rest with Dr. A. W. Chase's Nerve Pills. A great many people vouch for this. Among them is Mrs. F. Morris, son, of 324 E. Baldeagle St., Lock Haven, Pa. who says:—"For a long time I have been very much run down. I did not seem to have any strength to do anything—I could not sleep at night and suffered so much from headache—my appetite was gone and I felt miserable. I got some of Dr. A. W. Chase's Nerve Pills and never before had anything do me so much good. I rested well—got stronger—felt well and gained in flesh and weight. I cannot speak to highly of them—they are all they are recommended to be."

By calling at Krumrine's Drug Store information can be obtained regarding this great success of Dr. A. W. Chase's Nerve Pills and how they were first introduced by proof of their merit.
