The different congregations of our town held a union meeting in the Baptist church on Thursday evening in honor of our martyred president, Wm. McKinley; able and eloquent addresses were delivered by the Rev. Hoack, Smith and Wharton. Whereupon the following resolutions were passed: Resolved, that we the members of the M. E. Sunday School, of Milesburg, Centre county, express our disapprobation of the language used by the Rev. Slias Swallow in a recent interview in which he in his weak way tried to cast opprobrium on the name of our martyred president, Wm. McKinley; by classing him with ruffians. It is with a feeling of shame and indignation that we read his words—shame to think that a minister of our beloved church should be so lacking in the spirit of charity; indignation to think that an avowed temperance advocate would be so intemperate in the use of language, for we believe that as much harm is caused by intemperate speech as by any other form of that great evil.

Rev. Swallow, has by his sneering remarks, made in this our time of national sorrow, shown that he is no true American; a foreigner by birth he remains a foreigner in heart, and as we believe him to be incapable of rising to a place of true American patriotism we hereby repudiate the man as well as his acts; and as we believe him to be unfit to be in any way connected with the teaching of our young people, we hereby direct our superintendent to buy no more supplies for this Sunday school from Rev. Swallow or any house with which he is connected and to cancel any orders already given.

Signed, James Gregg, S. M. Huff, Geo. McCullough, George Taylor, J. H. Huff, J. D. Kauff, James McCullough, R. H. Kreemer, W. E. Miles, John E. Miles, P. H. Haupt, Wm. E. Miles, W. T. Fulton, H. L. McMullin, Wesley Crain.

The story of Stover & Hosterman, lumbermen in West Virginia, from Woodward and Cobara, getting into trouble is incorrect, that they had trespassed on another party's land and were penned up in jail, etc. Their lumber job is only penned up by other parties owning timberland in front of them, so that they cannot get to the railroad unless they go over other people's land. It seems that the railroad that they expected to run near, or over, their tract has been abandoned for the present and they do not know when it will be finished. It will, therefore, be some time before they can operate. We learn that they are not at all discouraged, for they are sawing lumber and building a house for their families to occupy next spring.
