Our Alert Correspondents Note Many Important Events in Different Localities—What is Transpiring—Is Your Section Represented?

Unionville.

On last Saturday about 9 o'clock in the morning the tenant house on the farm of Martin Hogan about one mile west of town was burned with all its contents. The house was occupied by Lote Stere, but the family were away on a visit; no fire had been in the house for more than two weeks and the origin of the fire is a mystery. No insurance.

This time it was J. H. Lingle, wife, daughter Marian H. and son Randolph P., of Bellefonte, who came up to enjoy one of Mrs. Stover's delightful suppers at the Hotel Stover a few evenings ago.

A few days ago, a couple of old anarchists, a man and presumably his wife, "did" our town with a piano on wheels playing Annie Rooney and several other new tunes, much to the delight of young America.

One night last week a very sensitive and somewhat nervous young lady, hearing a noise in the kitchen below, became thoroughly frightened believing there were burglars in the house. She raised the window and screamed for help, but on investigation found that the family cat had caused the disturbance. After a hearty laugh enjoyed by all and a jolly "good night," the neighbors dispersed to their several homes, wishing "Mamie" happy dreams the remainder of the night.

Say, Charley, local news is scarce this week and with your indulgence, I will give my experience as an editor:

BIOGRAPHY:—I was born in the early part of my life, in a town called Meahome, situated in this county, where fermented cabbage is a favorite dish with the people. The electric light of reason burned very dimly in my cranium at the time of my advent, but, as the years came and went, the illumination became perfect. My father is one of the pioneer editors of the county, having edited The Informer for many years, and it was in the office of The Informer that I acquired the taste for editorial work.

Some years ago I purchased The Unionville Prevaricator, published by a Mr. Book, but, having been trained in the way I should go when I was young and taught to hate falsehood and everything else that was wicked, I at once, changed the name to The Unionville Disseminator. The office was located on the second floor of an old stone building owned by a man named Coon Rod. The office was equipped with an old Hoe press, a pair of rusty scissors, and lot of half worn type, with a subscription list of about two hundred. Shortly after I came into possession of the office, some unregenerated biped fired the building and burned us "out," but we emerged from the ashes as refined gold, with a determination to climb to the top rung of journalism. So we secured an office and press room a few doors east of the Union hotel, ordered a large supply of new type, a barrel of ink, a gross of lead pencils, three pair scissors and all other necessary equipments, and secured a large

list of exchanges from city and country. You know Charley, no person can edit a paper successfully without lots of exchanges and a good pair of scissors. I have now one of the best equipped offices in the state, notwithstanding there are three other papers printed in the county: The Vigilante—which, by the way, is the best edited local paper in the state—and two others published in the interest of the G. O. P.; my subscription list has reached the 3000 mark. I invite all my readers and friends everywhere to drop in and spend an hour or two in my sanctum when coming to Unionville. We will try to make it pleasant for you. My lady compositors will have no ink on their fingers so they can greet you with a cordial hand shake; my young foreman will explain to you all about the "art preservative"; my satan will have his clothes renovated with the fumes of burning sulphur each morning so there will be no danger of any infection; I, myself, will see to it that your bank account will not be set back more than the price of a year's subscription.

My success is largely due to my first issue of the Disseminator. I wrote a two column leader entitled, "The future of our Country," with my best pair of scissors and an article entitled, "Five decades hence," which created quite a flurry. I traveled the county for three weeks prior to the first issue and had something nice to say about everybody I met, the result was two pages of solid local news, and sent out over five thousand sample copies. Shortly after, subscriptions came pouring in, every mail, far exceeding my most sanguine expectations. I am not yet a millionaire, but that is largely due to delinquent subscribers. I had intended, in connection with this, to relate a number of incidents, many of which border on the ridiculous, but I fear I am trespassing, so I'm "oph."

PICKED UP.

Hundreds of People Volunteer Evidence that Dispersal Doubt.

The columns of this newspaper are day-by-day publishing fresh evidence from people which establishes more fully the great reputation of Dr. A. W. Chase's Nerve Pills. The manner in which they take hold of the run-down and debilitated is so prompt, strength and energy is so quickly picked up by their use, evidence is so plentiful.

C. L. Scheid, of 118 E. Church St., Lock Haven, Pa., says:—"I was feeling run down and poorly last fall as the result of a rather hard summer's work. I did not rest well and bothered a good deal with dull headaches. I got a box of Dr. A. W. Chase's Nerve Pills and though I used less than one box I felt they did me a great deal of good toning up and invigorating me. I can recommend them."

By calling at Kramie's Drug Store information can be obtained regarding this great success of Dr. A. W. Chase's Nerve Pills and how they were first introduced by proof of their merit.
