Happenings About Centre County Briefly told by

A CORPS OF ABLE WRITERS

Our Alert Correspondents Note Many Important Events in Different Localities—What is Transpiring—Is Your Section Represented?

Spring Mills.

Mrs. Mary Grenoble, of our village, has been very seriously ill for the last ten days or two weeks.

There appears to be very little improvement in Mrs. Charles Miller who has been confined to her bed for over two months.

The potato crop in this immediate neighborhood apparently will prove almost a total failure.

The roads in Georges valley still continue in a very wretched condition and unless soon repaired will be entirely unsafe for travel.

M. I. Gardner, prothonotary of the county, and democratic candidate for reelection, was here last week visiting his friends. Mr. Gardner is quite popular in this valley and no fears are entertained that he will be defeated.

The cool weather of late—better say cold—has driven quite a number of our summer visitors home. The frost here has been unusually heavy, on several mornings it looked as if we had been treated to a light snow fall during the night.

James N. Leitzell who has been absent about six weeks attending to a business contract, returned home last week looking as well as usual.

What has become of the Spring Mills base ball club, have they gone into winter quarters?

Stormstown.

Mrs. Jacob Hicks was taken seriously ill one day last week; but at present is improving slowly.

Nearly all the farmers report that their potatoes are rotting very fast. Some are not going to raise them at all.

The cider mill west of town, which has been kept running full capacity three and even four days in the week on other years, does the work one day a week this year, the apple crop being a very poor one through this section.

Owing to the fact that the church is being repaired at this time, the services were held in the school house last Sunday evening.

Our base ball team won another victory last Saturday, the "victims" this time being the "Gatesburg boys." The score was 20 to 31 in favor of Stormtown. Our boys expect to play a game at Gatesburg in the near future.

Chamberlain's Cough Remedy Saved His Boy's Life.

"I believe I saved my (nine year old) boy's life this winter with Chamberlain's Cough Remedy," says A. M. Hoppe, Rio Creek, Wis. "He was so choked up with croup that he could not speak. I gave it to him freely until he vomited and in a short time he was all right." For sale by Green's Pharmacy.

Chester McCormick is quite ill with pneumonia.

Jacob Nearhood is laid up with lumbago.

Frank Lohr is laid up with typhoid fever.

The burning of Mr. Snyder's large barn is the topic with all.

Stricken With Paralysis.

Henderson Grimet, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Remedy, and after using two bottles of it he is almost entirely cured.—Geo. R. McDonald, Man, Logan county, W. Va. Several other very remarkable cures of partial paralysis have been effected by the use of this liniment. It is most widely known, however, as a cure for rheumatism, sprains and bruises. For sale by Green's Pharmacy.

Claud Grim, of Madisonburg, was seen in this section last Sunday evening. What attracts him, Elsie?

John R— was disappointed last Sunday evening, he couldn't find his lady friend.

It is rumored that a few of our sportsmen have already commenced to kill the frisky grey squirrels, notwithstanding the season does not legally open until October 15th. From now until the season opens game wardens should be on the lookout constantly for parties who persist in hunting out of season.

West Brushvalley.

Hello! Here we are again. West Brushvalley is not dead, but is at a standstill. Prosperity has not reached it yet.

Some people who don't get all they deserve are lucky.

The things we know the least about always look the easiest.

Port Matilda.

The farmers in this section of country are complaining of a loss in cattle which they had pasturing on the Allegheny mountain this summer.

The prospects for fire brick works in Port Matilda are growing brighter each day. H. F. Chaney, on whose lands an abundance of first class material for brick is found, has been receiving offers some of which are likely to be accepted. With plenty of material and a free site for a plant should be a great inducement to capital.

Samuel Hoover, of Hannah, can boast of lighting the first fire in the first house erected in Tyrone.

The potato crop in this section is greatly damaged by rot.

Samuel Hoover, of Hannah, made a recent visit to Flat Rock and had a social chat with the writer, his war comrade. Come again Sammy.

G. M. Mark's favorite dog Jake, had an encounter a few nights since with a large porcupine which is likely to prove fatal; his head and body were literally filled with quills which broke off and could not be extracted.

PORT MATILDA, NO. 2.

Last Thursday night a party from Tyrone hunted coons in this section but did not capture any, so we were informed.

This Thursday evening John M. Williams, our accommodating miller, and Grace, the pleasant and vivacious daughter of Mr. and Mrs. A. W. Reese will be united in marriage. Particulars given.

The following is a special by wireless telegraphy—P. W. Y. operator: The Phillipsburg ball team needed a little exercise to limber them up, so they said, and came to Port Matilda to get it at the expense of our boys. Our boys made no profession of being "ball tossers," but when they heard what the Phillipsburg boys had said, they put on their uniforms, which consisted of overalls cut off at the knees, and a sweater, and proceeded to give the visitors a drubbing. Game was called at 2:30 o'clock with the Phillipsburg team at the bat, the umpire, who is a kind hearted fellow, made them a present of a run. Port also scored one in their behalf, in the second Port seized the ball by the horns and threw him over their right shoulder for luck. And what luck! Four runs, this they kept up for the remainder of the game. Then amid roar of canon—no it wasn't canon—it was voices, and the smoke having cleared away, it was discovered that Port had scored 22 runs and Phillipsburg had a five dollar setting of the finest goose eggs you ever saw. It is expected that when the eggs are hatched the goslings will want a return game and a closer game is anticipated. Port knocked three pitchers out of box, but Phillipsburg got but one safe base off our pitcher. The score by innings follows:

Port Matilda—1 3 1 2 0 4 7 x—22
Phillipsburg—1 0 0 0 0 0 0 0—1

Kentucky's Voice.

has often been heard in our nation's affairs and her sons are ever ready to lend their voices and influence for the aid of mankind. From her beautiful mountain country, where, as a noted writer has said "the hills are so straight up they lean back," writes A. M. Hughes, a druggist of Louisa: "Chamberlain's Colic, Cholera and Diarrhoea Remedy is all that can be desired. My customers call for it more and more and physicians, who as a rule are not quick to endorse patent medicines frequently prescribe it." 25 cents a bottle at Green's Pharmacy.

Boalsburg.

Geo. Fisher, our hustling shoe agent, made a business trip to Howard on Saturday. He stopped on his way back, in Bellefonte, long enough to see his best girl and now Nellie wears a broad smile.

Some of our boys were out swiping grapes the other night when someone scared them and "Farmer" in haste to leap over the fence had the misfortune to catch and tear a piece out of the seat of his pants while "Agent" fell on the pavement making a noise something similar to the exploding of a keg of powder. The last seen of them was on 62nd street running as fast as they could go.

Ed. Lucas moved into the house that was recently vacated by Foster Jodon, who moved to Axemann.

County Supt. Gramley was shaking hands with his friends in this place on Friday.

Geo. Hosterman spent several days recently with his mother who lives at Swengle.

Communion services were held in the Reformed church on Sunday. The pastor, Rev. A. A. Black, in the forenoon preached a very good sermon on the subject of the church. In the evening he preached a very fine sermon on the things which we should covet. Among them were Love, Faith, Knowledge, Beauty and Righteousness. The music at all the services was excellent. Seven more persons were taken into the church, six by confirmation and one by certificate. There will be no services in two weeks, as Rev. Black will be away at synod.

Rev. Hepler preached a very good sermon for the benefit of the public schools, on Sunday. He showed the parents how they should encourage the teachers by visiting the schools and giving them a few words of encouragement and wishing them God-speed in their work. He also told his audience what a harmful habit it is for parents to run down the school teacher in presence of their children. He also warned the voters in the selection of their school directors so as to be sure and select someone that will take a deep interest in the schools, so there is co-operation among the directors, teachers and the patrons.

The educational meeting held here on Saturday forenoon under the leadership of the county superintendent was a treat to all that were present. There were 15 teachers present from the different townships. Prof. Stahr, of Pine Grove, made

a very fine and instructive speech on the importance of composition writing in the schools. Prof. Gramley and Bryson also made a few remarks on that subject. Mr. Hebeling, of Ferguson, made a speech on "What ought to be taught in the Public Schools." Prof. Bryson, of this place, then made, or rather read, a piece on the subject of correlation. When he got up to read his piece he told Prof. Gramley that he was going to read his speech "Well," Prof. says, "all right, just so you do not read us a love letter you received during your absence from the city." The value of a library in the school was then discussed by Prof. Gramley and Rev. A. A. Black; both of the speakers showed what a benefit it would be to have a library in the school, if it was only a dozen of books to start with. Then a committee to arrange about a district institute was appointed, viz: R. B. Harrison, of Harris; E. K. Smith, of College; M. Hebeling, of Ferguson; Prof. Booz, of State College; Prof. Igeon, of Centre Hall and Daniel Keller, of Potter. Boalsburg is the place the institute is to be held at.
