EDITORIAL.
THE RESULT.

The result of Tuesday's election in the state is in favor of the machine by a greatly reduced majority, showing that the people are fast turning with disgust against Quayism. In nearly all counties the democrats and unionists made large gains. The only thing that prevented the election of Yerkes and Coray was the frauds perpetrated in Philadelphia, with the assistance of the Ashbridge police, who backed up fraudulent voters and in many instances drove democrats and unionists from the polls.

The result of the election in this county is very gratifying to the honest voters, and shows that Centre county does not take kindly to boss rule. The majority against Quayism is decisive, but with a full vote out would have been more largely so and stamped out that breed of kittens in this county. It is to be regretted that so many were indifferent in so important a contest. With a full vote out the majority in this county would have crept up closely to 2500. There is no use longer contending that Centre county is wedded to machine politics and all the infamy which that implies.

All honor to the citizens who voted for honest government. The result is the voice of the honest and patriotic men of all parties who joined hands against a common foe and the despoiler of the people's rights, against the polluters of the ballot box and wholesale plunderers of the public treasury. All honor to Centre county, and the voters, of whatever party, who cast their ballots on Tuesday against the worst conspirators that ever fastened themselves upon a free people.

COLLEGE township and State College boro gave John Hamilton a black eye. There was a republican slump there on Tuesday.

Farmers' Institutes.

Deputy Secretary of Agriculture Martin expects to hold a series of 320 farmers' institutes during the coming winter, under the direction of the department of agriculture. The last legislature increased the annual allowance for these gatherings from \$12,500 to \$15,000. This will enable the department to employ additional lecturers and increase the number of institutes. The average cost of each institute is \$37 per day, and it is estimated that they reach in the aggregate 150,000 persons annually.

Has a Good Eye.

George Burns, Sr., of Selmsgrove, is the champion hunter of the season. Mr. Burns is 88 years of age, but is as hearty as a buck. His eyesight, he says, is as good as it was when he was 20. Several days ago he went to Union county on a hunting expedition and returned with two wild turkeys and eight gray squirrels, which he got with an old time rifle. He often sits at his kitchen door and shoots the heads off of rats at his stable, a distance of sixty yards.

Independent Axe Factory.

James H. Mann, for several years treasurer of the American Axe and Tool trust, who left that organization, opened an independent plant at Manns, near Lewistown. The factory has a capacity of 1,500 finished axes per day, and is the largest independent axe plant in the world.

THE question which settles the fate of a political party is in the long run, one of dollars and cents. "Under which party plan will I be most prosperous?" is the question that nine men out of ten ask themselves sooner or later.

As a matter of fact Schley couldn't have won the battle of Santiago without disobeying Sampson's order of Battle. The fact, however, doesn't seem to give much satisfaction to the Navy Department.

Stricken With Paralysis.

Henderson Grimet, of this place, was stricken with partial paralysis and completely lost the use of one arm and side. After being treated by an eminent physician for quite a while without relief, my wife recommended Chamberlain's Pain Balm, and after using two bottles of it he is almost entirely cured.—Geo. R. McDONALD, Man, Logan county, W. Va. Several other very remarkable cures of partial paralysis have been effected by the use of this liniment. It is most widely known, however, as a cure for rheumatism, sprains and bruises. For sale by Green's Pharmacy.

RECENT DEATHS.

JOSEPH LINN:—of Beech Creek, died suddenly Sunday morning. He was 66 years old and is survived by his wife and the following named children: William, George, Edward, Josephine, Mary, Laura and Mrs. Martha Hoffman. Mr. Linn served enlistments in the 137th, 11th and 207th Pa. Vols. He was a fifer and a drum major.

MRS. MARY CRUST:—died Oct. 25, at 6:10 p. m., after an illness of less than a week, at the old homestead, near Fillmore. Mrs. Crust was the widow of James Crust who preceded her to the grave twenty years ago. Mrs. Crust is survived by two brothers, James Osmer, of Franklin, Venango county, and Edward Osmer, of Bellefonte, and one sister, Mrs. George Clark, of Stormstown. She is also survived by the following sons and daughters: Mrs. Wm. Lutz, of Bellefonte; Mrs. John Reed, of Graysville; Reuben, of Fillmore; William, of Pleasant Gap; Mrs. Jacob Shope, of Renovo; Thomas, of Philipsburg; Mrs. David Hoover, of Altoona, and Mrs. Robert Corl, of Pleasant Gap. Mrs. Crust was born in England, April 12, 1828, and was 73 years, 6 months and 13 days old. When she was 4 years old her parents brought her to America and most of her life was spent in Centre county. She was the mother of 13 children, eight of whom are living.

Postmasters' Duty.

By act of congress, approved August 23, 1894, fourth-class postmasters are authorized to administer oaths to pensioners and their witnesses, in the execution of pension vouchers. Vouchers executed before fourth class postmasters will not be accepted unless the post marking stamp is affixed; this stamp is the one used to show the date a letter is filed in the postoffice for transmission, or on which it is received for delivery. Stamps used in the transaction of other postoffice business will not do. Postmasters should add after their names, when signed to the voucher, the words "Fourth Class Postmaster," as required by law.

Urges Ministers to Fast.

Bishop Mills, addressing the East Pennsylvania United Brethren conference at Reading last Sunday, said ministers should devote some days to fasting. The reason he advocated it, he said, was to hold appetites in restraint and to prevent them from ruling the body. He was quite aware, he said, that in this part of Pennsylvania it was particularly hard to refrain from the good things which the housewives were noted for, particularly when there was a minister around. It was almost as easy, he declared, to get a fair sound from a drum filled with mush as a good sermon from a pastor filled with chicken.

Unusual Pension Case.

Margaret J. Bennett, now Cronemiller, lives at State College, Centre county. She was the wife of Henry Bennett, who was a corporal in Company A, died shortly after the war. A few years afterwards Mrs. Bennett married Jacob Cronemiller, who was not a soldier and who died several years ago. In the latter part of last April Mrs. Cronemiller made application for a pension and on the 4th day of October last she received a voucher for \$12 a month with \$64 back pay. This is an unusual case. The only one of the kind we have any knowledge of.

Locust Coming.

An entomologist predicts a plague of the seventeen year old locust next year and will issue a bulletin to the fruit growers and farmers of the state that it will be unwise to put out any young trees this fall or next spring. He describes it as the 22 brood of the periodical cicada, which made its last appearance in 1885 and did much general damage. So there, take the information for what it is worth. It comes through the medium of an exchange.

WATCH DOGS.

Ever On the Alert—Alive to Every Form of Oppression—Kept on Edge—Bardened Beyond Endurance—Nerves Give Out.

The machinery of a mill that grinds day and night has to shut down now and then for repairs. It is the same way with your nerves. Overwork, close application, our ways of living bring about nerve waste that sets up symptoms of various kinds. It may be falling strength—weakness—languor—headache—sleeplessness, etc. Whatever it is Nerve Force is lacking and the means of restoring rest with Dr. A. W. Chase's Nerve Pills. A great many people vouch for this. Among them is Mrs. F. Morrison, of 334 E. Baldeagle St., Lock Haven, Pa., who says:—"For a long time I have been very much run down. I did not seem to have any strength to do anything—I could not sleep at night and suffered so much from headaches—my appetite was gone and I felt miserable. I got some of Dr. A. W. Chase's Nerve Pills and never before had anything do me so much good. I rested well—got stronger—felt well and gained in flesh and weight. I cannot speak too highly of them—they are all they are recommended to be."

Dr. A. W. Chase's Nerve Pills are sold at 50c. a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D. are on every package.—3

WANTED—Several persons of character and good reputation in each state (one in this county required) to represent and advertise old established wealthy business houses of solid financial standing. Salary \$18.00 weekly with expenses additional, all payable in cash each Wednesday direct from head office. Horse and carriage furnished, when necessary. References. Enclose self-addressed stamped envelope. Manager, 316 Caxton Building, Chicago.

HAPPENINGS OVER THE COUNTY

Continued from 1st page.

blow up the farm house of John A. Burrell with dynamite. The woods near the farm house were set on fire in three places by some person or persons and while the men were engaged in fighting the fire, a stick of dynamite was exploded on the porch of the farm house. Whoever placed the dynamite on the porch did not understand the effects of its explosive power and the only damage done was the tearing of a hole in the floor of the porch.

IN ADJOINING COUNTIES.

There are nine prisoners in the Clinton county jail.

Clinton county voted against having a poor house—for 761, against 817.

A large deer was killed on the mountain south of Loganton, Friday, by the Stover brothers.

John Baney, of Rote, Clinton county, had his collar bone broken by a colt that he was leading jumping on him.

Mackeyville has shipped 1,500 bushels of wheat to points in Clearfield county and down river towns in the past few days.

Samuel Hess, of Loganton, while hunting near that place Saturday received the contents of a companion's gun in his back, arms and legs. His injuries are not serious.

At the recent annual meeting of the Farmers' National Congress, held at Sioux Falls, South Dakota, George G. Hutchinson, of Warriorsmark, was elected one of the vice presidents of the congress.

Albert Cottle, one of the oldest residents in Beech Creek township, Clinton county, fell down the stairs in his barn a few days ago and was severely injured. Several ribs were fractured and other minor injuries.

Mrs. Abner McCloskey, of Beech Creek underwent an operation at her home for cancer. Mrs. J. W. Bickel, of Manistee, Mich., her sister, has arrived at Beech Creek, and will remain to see the outcome of the operation. Mrs. McCloskey is 69 years old.

Albert Thompson, of Milroy, was taking a trip to the mountain on Thursday on horse back when he was seized with an attack of vertigo and fell from his horse. The horse returned alone to Milroy and the people started on a search for the rider. He was found and taken to his home. His injuries were serious, but he is able to be about again.

Harry Martin, of Lock Haven, and several friends, were hunting in the vicinity of Pine Station Wednesday. The dogs ran onto a bear, and a desperate battle ensued, during which three of the dogs were killed. By this time the hunters had come up with the bear, and fired, but their guns being charged with shot, bruin got away, apparently little the worse for his "scrap."

Dr. John Young, of Belleville, Milford county, shot his wife late the night of October 23rd, using a shotgun. A portion of the charge entered the woman's groin and it is thought she cannot recover. The doctor disposed of a hog to a traveling drover and his wife wanted a portion of the proceeds, which was denied her. A quarrel ensued and the shooting followed. Young escaped on a west-bound train and was arrested in Altoona.

Albert Cottle, one of the oldest residents of Beech Creek township, died Monday evening. Two weeks ago he fell down the stair in his barn and injured himself so that his condition had been critical ever since. He was aged about 85 years. A wife and their children survive. Mrs. Thomas Confer, Mrs. Alexander Masden, Mrs. Vone Miller, of Howard; Mrs. Emma Obe and Mrs. Nora Dent, of Dent's Run; Miss Gustie and Leslie, at home.

Work was begun at Beech Creek, on the enlargement of the main building of the Pennsylvania fire brick works by an addition 40x50 feet to the southern end and 60x80 feet to the opposite end. This will increase the capacity of the drying floor and allow room for three additional moulder's tables. Another grinding pan will be installed when the new addition is completed and the increased capacity will necessitate the erection of another set of kilns, making eight in all.

Four young boys, not one of whom is over eleven years of age, stole a twelve pound box of "Red Cross" chewing tobacco out of the Beech Creek station a short time ago and the matter has just leaked out. The lads dealt it out to other boys and all had a fine time. Now the tune has changed and they are alarmed over the facts that the railroad authorities are investigating the affair and Geo. Berryhill, of Blanchard to whom the tobacco was consigned, is not inclined to have the matter settled amicably.

An interesting story of the hunt comes from Richmond, Va., as follows: "Senator J. H. Cochran, of Williamsport, Pa., and a dozen officials of the Pennsylvania Central railroad, who were his guests at the Rose Gille estate, near Saluda, Middlesex county, were in a magistrate court at Saluda Friday morning on the charge of violating the game laws. Squire Davis, the gentleman who held the reins of justice, was somewhat abashed by the fact that more than \$50,000,000 were represented in his court, and soon acquitted the magnates of the charge of killing birds out of season."

OUR HISTORICAL REVIEW.

Continued from 1st page.

Indians, chiefly of those that came away last year from Ohio, because of the invasion of the French, whom they hate, and will not live in their neighborhood. The first company that came consisted of 19 persons, all of the Six Nation Indians; one Jonathan Cayienquily-quoah at their head: they arrived on the 27th and 28th of January last. The second company that came, consisting chiefly of Shawanos, 12 in number; they arrived on the 26th and 27th, this instant. They jointly intend to make a town next spring on the West branch of Susquehanna, commonly called Otzinachson, at a place called Otstaugy, or Frenchtown, about 40 miles above Shamokin; and they gave me the enclosed string of wampun, to send it to Philadelphia, with a short speech, to the following purport:

Brother: The governor of Pennsylvania—We, your brethren, have been obliged to come away from Ohio, because we would not live so nigh the French; but rather nigher our brethren, the English, in these critical times; but we deprived ourselves, by that means, of a good hunting ground, and our little corn fields. We intend to build a town at Otstaugy, on Otzinachson river, and pray you will be so good, considering our poverty, as to send some of your industrious people up, next spring, to fence in a small piece of ground for a corn-field for us, and we will thankfully acknowledge your favors. Jonathan Cayienquily-quoah, the speaker, gave a string of wampun.

I received the string of wampun, and promised to send it to the governor of Pennsylvania, by the first safe opportunity, and transmit his answer to them, according to direction.

Before these Indians left me, they made me a present of some skins, to the value of about four pounds, ten shillings, as a satisfaction for expense and trouble I have been at during their stay. I received it and thanked them; but I must bring in an account against the Province next August, and your Honor, after perusing it, will recommend it to the house of the general Assembly for better satisfaction.

I take this opportunity of informing your Honor that when Tachnachdorus, the Chief of Shamokin of the Cayaker Nation, was down in the beginning of the winter, he told me that the Indians about Shamokin and Otzinachson, had been informed that a set of people from New England had formed themselves into a body to settle the lands on Susquehanna, and especially Scabantawano, and that against the advice of their superiors; and asked me whether it was true what they heard. I told him it was true, as to their intention to settle that land; but whether with, or without the advice of their superiors, I could not tell; but that I was persuaded by some letters I saw last fall in Philadelphia, it was against the advice of the superiors of that country. The said chief then desired me to make it known, that whosoever of the white people should venture to settle on any land on Woyenock, or thereabouts, belonging hitherto to the Indians, will have his creatures killed first, and then if they did not desist, they themselves would be killed, without distinction, let the consequence be what it would.

I found he had intelligence from the Indians up the river, that some of the New England people had been there spying the lands. I found this a difficult matter, and was no ways inclined to make it known, to keep off trouble from myself; but the last visitors insinuated the same thing; so I resolved to acquaint your Honor with it, who is best able to judge what must be done to prevent bloodshed among us by the Indians, who would then certainly (if they should do such a thing, as I fear they will), out of a guilty conscience submit themselves to the protection of the French; the consequence of that would be very disagreeable to the English in general in this and neighboring colonies.

I have nothing else to trouble you with at present; but, with a great deal of pleasure, subscribe myself,

Honored Sir,

Your most obedient and Humble servant, CONRAD WEISER.

There are 5 cases of typhoid fever, 5 cases of sore throat, and one dozen cases of the old-fashioned itch and but 16 scholars attend the Mt. Eagle school on account of the contagious diseases; there ought to be something done.

DYSPEPSIA

"For six years I was a victim of dyspepsia in its worst form. I could eat nothing but milk toast, and at times my stomach would not retain and digest even that. Last March I began taking CASCARETS and since then I have steadily improved, until I am as well as I ever was in my life." DAVID H. MURPHY, Newark, O.
