

# ATTACKED BY UNION MEN

## 400 Miners March on Indiana Mine and Assault Employees.

### TWO MEN ARE FATALLY HURT

#### After Attacking Day Shift They Went to Home of Foreman, and in Fight That Followed His Wife and Children Were Beaten.

Vincennes, Ind., Nov. 20.—Four hundred union coal miners from Washington, Cannelburg, Petersburg, Princeton and Montgomery arrived here yesterday and made an attack upon the non-union miners employed at the Prospect Hill mines near this city. As a result two men are fatally hurt and half a dozen more are seriously injured. The union miners formed at the Union Station and marched to the mines. Just as the men of the day shift were going on duty they were attacked and received severe treatment.

The union men asked for the foreman, William Scott, and when told that he was in bed, said: "All right, we will get him," and started after him. In the melee that followed Scott and his family defended themselves as best they could, but they were powerless. Scott was badly beaten about the head and face, and W. P. Collins, an attorney of Washington, a brother-in-law of Scott, who was visiting there, sustained injuries that may prove fatal. He had a rib broken and an eye badly injured. Henry Hannery, a miner, was so badly beaten by the men that he may die. Mrs. Scott was slapped in the face, and when she resented the attack it is alleged that one of the men threatened her with a revolver. Otis Scott, the 15-year-old son, was knocked down, as was also Dottie, the 10-year-old daughter of Scott.

Others that suffered at the hands of the visitors were Robert McDaniel, Posey Knight, John Scott and Kenner Mars. All are badly bruised.

Owing to a recent strike the mine was not being operated at night, and but one man, the watchman, Buck Azbell, was on duty. Azbell says he was seized by the leaders of the miners, who took him to the furnace door, threatening to burn him alive, but that others interfered. He was then beaten almost senseless and placed under guard.

The union men then returned to the mine, stopped the pumps, burned all the tools they could find, and after leaving instructions that they would return in case the mine was started.

The mine is run on the co-operative plan and independently. The operators claim that they cannot pay the union scale and run, but say they pay the highest price possible, and in some instances pay more than scale prices. The union miners say they will force the mine to unionize or close up.

#### Pittsburg Stock Show Closed.

Pittsburg, Nov. 19.—The third annual and most successful fat stock show ever held in Pittsburg closed last evening with a banquet tendered to the visiting shippers, breeders and dealers by General Manager Simon O'Donnell of the East Liberty Stock Yards. At the auction sale of the prize winners and other cattle all price records were broken for beef on the hoof. Charles Escher's load of first prize winners, after spirited bidding, finally sold for 21 1/2 cents per pound, said to be the highest price ever paid for a carload of meat cattle. The big steer, weighing 2,190 pounds, raised by A. D. Basset, of Lost Creek, W. Va., was sold for \$4,250.

#### Entire Family Murdered.

Los Angeles, Cal., Nov. 20.—The dead bodies of A. P. Wilcox, wife and their 2-year-old son were found in their home at Downey, 12 miles from this city, yesterday. All the bodies were horribly mutilated, and the bloody condition of the premises indicated that the assailants had met with a fierce resistance. Wilcox and his family had been shot and then literally cut to pieces with a knife. The woman had been shot while carrying a plate from the stove to the table. The baby lay in the middle of the room, while the dismembered body of the father was stretched near the door.

#### Glass Workers Strike.

Morgantown, W. Va., Nov. 20.—The members of the American Flint Glass Workers' Union employed at the Morgantown glass factory went out on a strike yesterday. Many of the employes not members of the union struck through sympathy with the movement. The factory is idle, with doors closed and locked. The cause of the strike was the fact that A. M. Gantz and Charles Frantz were discharged for an infraction of the company's rules.

#### Boy Blown to Atoms.

Alexandria, Ind., Nov. 20.—Charles Ott, 13 years old, was blown to atoms last evening in a peculiar manner. The boy found a nitro-glycerine can in the rear of his home and, tiling it about his waist, proceeded to beat on his improvised drum. A terrible explosion, which shook the city, followed. Both arms and legs of the boy were blown off, and the front part of his head was torn away.

#### Child Drowned in Pond.

Lancaster, Pa., Nov. 20.—Playing with a number of companions about his own age, Robert G. Knox, 4 years old, son of Robert G. Knox, of Tetort, this county, fell into a pond opposite his home. His youthful playmates were too frightened to tell about the accident, and it was sometime later, after a search had been instituted, that his dead body was found lying in three feet of water.

The professional and business circles of the city were well-represented in the list of the other guests.

The speech-making was opened by President Jessup in a very few words. He then proposed a toast to the memory of William McKinley. It was drunk with all standing and in silence. President Roosevelt's health was then toasted, while the orchestra played, and at the next toast, that of King Edward of England, the British national anthem was played.

### CHURCH BURNED

#### Explosion of Gas in Furnace Set Fire to Woodwork.

Scranton, Pa., Nov. 18.—Gas exploded in the furnace of the First Methodist Episcopal Church of Carbondale yesterday morning, bursting the furnace and scattering the burning coal, which set fire to the woodwork. The flames could not be controlled, and the building was totally destroyed. The loss is about \$30,000 and is partly covered by an insurance of \$20,000.

Charles Hull, a brave fireman, had been in the belfry trying to get a line of hose into the main building, but not succeeding, he was making his way down to the street, and by mistake pushed open a door leading into the blazing auditorium. The flames leaped out and entirely surrounded him for a second, but he fell backward and rolled down the steps, from where he was dragged to the street by his comrades, with his clothing burned from him. He was burned badly about the hips and hands and his face was fried into one black blister. He is conscious but suffering terribly. The man is known as one of the bravest firemen in this part of Pennsylvania.

# Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

will generally correct this difficulty.

If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement. For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.
