### Over 150 Killed, and Wounded Men Could Be Seen Along Railroad Track-Wounded Lack Care-300 of lowa's Marines Landed.

Colon, Nov. 26 .- On Sunday morning at 10 o'clock the schooner Clapet and a railroad barge returned to Panama, bringing 350 men from Chorrera, being the remainder of General Alban's expedition. Great crowds gathered at the wharf to witness the landing of the soldiers. They were received with bands of music, but the music sounded mournful, and the airs sounded more like a funeral march than the joyful strains of welcome to a victorious army. General Alban looked his usual and calm self and acted more like a man on whose hands time hangs heavily for want of something to do Man one coping with grave responsibilities under trying circumstances.

On Sunday afternoon at 3.30, at the head of 700 men, General Alban left Panama by train for Empire Station, where the Liberals were reported to be in fairly strong numbers. His purpose was to surprise and rout them. The train bearing these troops was held up just before it arrived at Culebra Station, owing to the Liberals opening fire on Alban's advance guard. Alban disembarked his men from the train, which returned to Panama. The nghting at Culebra lasted from 4.30 until 9 p. m.

The government troops advanced, and the fighting was stubborn all along the railroad line until Empire Station, a mile and a half distant, was The Liberals retreated reached. slowly, Alban's men following them until the latter eventually reached Matachin Station. Here General Alban met and conferred with Captain Perry, of the Iowa, who was returning from Colon on an armored train. It is understood that Captain Perry will not allow the railroad to transport troops, consequently General Alban and his men were forced to push ahead on foot. It is said here that they thus reached San Pablo, where the Liberals are in force, and that fighting took place there. The Liberals are under the command of General Lugo.

Between the stations of Culebra and Empire over 150 killed and wounded men could be seen along the track. The sight was gruesome. There is no proper Red Cross organization, and the wounded lack care.

Three hundred of the lowa's marines were landed at 4.30 o'clock on Sunday afternoon at Panama to protect the property of the railroad and to insure the continuance of transit across the 1sthmus.

The breastworks on the railroad bridge that leads into Panama, as well as those erected inside the city, have been demolished by the government.
