DEM. COUNTY COMMITTEE, 1902.

Table listing names and positions for the Democratic County Committee, 1902, including Districts, Chairmen, and Postoffice.

EDITORIAL.

CAUCUS MEETINGS.

The democrats of Centre Co. will hold their caucuses for the nomination of candidates for borough, ward, township and precinct officers on or before the 25th day of January, 1902.

JOHN J. BOWER, Chairman.

REMEMBER the caucus meetings on Saturday, the 25th. The republican caucus meetings take place on Friday.

EX-GOVERNOR Hastings and John Hamilton have been placed as vice presidents on the State board of agriculture. A good joke, but won't sleep together.

A NUMBER of changes were made the past week in the list of Democratic county committeemen. These men are expected to hold the local caucus meetings on Saturday.

REMEMBER that Saturday is the day for holding the Democratic caucuses over the county. It is important to go to these caucus meetings and see that only good men are placed in nomination.

We learn that C. E. Rummell, of Springfield, Mass., and Miss Claire Caldwell, daughter of Hon. and Mrs. S. Woods Caldwell, of Altoona, were married in New York city, December 24, 1901.

ROOSEVELT denies that he intends to remove bolters and independents from office. He says he wants good and competent men, regardless as to their being bolters or stalwarts. So the insurgents can rest easy about it.

THE State election in Pennsylvania in November will be for Governor, Lieutenant-Governor, Secretary of Internal Affairs, Senators from the even-numbered districts, members of the State House of Representatives and members of Congress.

At the annual meeting of the State Agricultural society held in Harrisburg, on Tuesday, former Gov. Hastings was elected as one of the association Vice Presidents and Prof. John Hamilton was chosen with C. V. Stone as Vice Presidents-at-large. This makes a delightful collection, birds of variegated plumage.

THE number of public sales among farmers, the coming spring in this county, is likely to exceed that of any previous year. Farmers are discouraged over the unremunerative outcome of their occupation. This is to be regretted, since the farmer is the one who should be prosperous above all others. Prosperity for the farmer brings prosperity to all other pursuits.

In the matter of increase of population in the different portions of this country the inevitable has come, and it is welcome. The South is reported by the Director of the Census to have shown during the last decade, relatively a greater rate of increase in population than either the North or the West. The awakening of Southern energy, the restoration of self-confidence and the stimulation of ambition, and the consequent spread of industry, have at last brought the South to its own as a fertile and resourceful portion of the Union.

STORY OF JACOB AND DANIEL.

Our stalwart blacksmith in the South ward got it in the neck from headquarters. Last year he had considerable sport with the republican county chairman and the General when he was asked to organize his ward fernist the Quay gang, he informed them he was one of the gang and all the persuasion possible could not budge Jacob. His blacksmith shop soon became a Quay retreat where all forms of pernicious activity prevailed and schemes were hatched to the great injury and annoyance of Daniel. That was Jacob's time, and he had his day. The list of republican committeemen, recently published, shows that Jacob, the stalwart, has had his head lopped off, and John Houser was appointed in his place, in whom the insurgent crowd are certain of their man. That is the story of how Daniel fixed Jacob's clock, and did it effectually.

A SMART GAME.

Some of the politicians in this town, who are interested in the re-election of R. Steward Brouse, for overseer of the poor, seem to be unduly anxious to meddle in the democratic primaries for the purpose of setting up some one who will either sell out or be an easy opponent and insure Mr. Brouse's re-election.

We firmly believe, for good reasons, that if the democrats put in nomination some substantial, reliable man who will command the confidence of the people that he can be elected, not because he is a democrat but because he is a good man for an office that has proven so expensive to this borough and is open to so many abuses.

There are plenty of good men to fill this position.

THE COST OF WAR.

It was stated this week, in the debates in the House of Representatives, that the war in the Philippines had already cost this government \$300,000,000 and that it was now costing at the rate of \$12,000,000 a month. More than one-half of the American army is there and the expenses of transportation across the Pacific have been enormous. The expenditures of the civil establishment are large, and the total swells until we have discussions as to whether or not the government can afford to remove the war taxes, which Republicans want to do largely because of part necessity. Already the pension claims are mounting up and the increase is bound to go on as long as any considerable body of Americans try to live in that climate.

SIX Western Senators of varying shades of opinion on most other subjects, but of one opinion on the subject of the need of national aid for irrigation, have formed a compact organization having for its slogan "No irrigation bill, no River and Harbor bill!" These Senators take the broad ground that if the National Government can properly make immense appropriations in order to insure a certain depth of water on the sand-bars and in the harbors along the coasts, it can with equal propriety help to make water flow over the arid lands of the West, thereby increasing their value and rendering them capable of cultivation. This irrigation legislative league has practically agreed on a measure which will be presented to Congress for its approval, and the members threaten that if it is not passed the River and Harbor bill which the House Committee is now framing will be in danger of meeting in the Senate the fate which overtook its predecessor in the last session of the last Congress.

The December Rains.

During the heavy rainfall, Dec. 14 and 15, last, the official record for Bellefonte shows a precipitation of 3.40 inches within twenty four hours, at Bellefonte, among the largest in the state. Lawrenceville had 4 inches; Williamsport 3.09 inches; Dushore 4.04 inches; Lewisburg 2.25 inches; Lock Haven 2.92 inches; State College 3.21 inches; other points in the Susquehanna basin show from .50 to 2.00 inches. In the Delaware basin on the 15 Dec. the record shows 4.25 inches at Mauch Chunk; 3.10 at Pottsville; and down to .30 at other points.

On the 29 and 30 of the same month, the Delaware basin records heavier downpour than the Susquehanna basin, of at least 30 per cent, causing great damage in the Lehigh valley.

For February Election.

The election for city, borough and township officers will be held Tuesday, February 18. The last day for filing certificates of nomination for city officers is Tuesday, January 21, and for the borough and township offices is Friday, January 31. The last day for filing nomination papers—that is, candidates nominated on the citizens' ticket, or who run independently—for the city is Tuesday, January 28, and for the boroughs and townships, Monday, February 3. All nomination papers must be filed at the county commissioners' office.

Tuesday morning it snowed and in the afternoon it began to hail and rain and in the evening it commenced to storm; the wind was a regular gale.

The time to set up candidates to fill the different offices this spring is drawing nigh and under the present system has become a regular farce; the delegates are selected the night before, where hardly enough are present to organize, they name each other for delegates and meet the next day to nominate each other again as candidates, or in other words set it up for each other, and thereby incompetent persons are placed upon the ticket and elected and thus the tax payers are burdened and the citizens harassed by unqualified officials. The mode should be changed, the meeting should be held in day time so that old and young could attend, different candidates nominated and should be voted for by ballot, by which good and responsible men would be placed upon the ticket to be elected who would be qualified and competent to fill the positions and a saving to the tax-payers and a credit to the constituents.

Blanchard.

Sleighting has returned. The V. M. C. A. hall being built under the supervision of Rev. G. S. West, is progressing rapidly—last week we said on lot purchased or leased of A. R. Moon, that was a mistake, there were a number of lots under consideration and seemed for a while as though Mr. Moon's would be accepted, but it was finally decided to build on H. A. Snyder's lot along side J. I. Kune's store.
