### EDITORIAL.

THE war that was "over" in the Phillepines two years ago, is over there yet, and so is our army.

It is not so certain that Elkin will be the republican nominee for governor. Discordant notes are in the air.

FROM all sections the Democrat hears discouraging news for the coming wheat crop, the winter having been unfavorable. This applies all over the state.

RECENT dispatches from Washington indicate that President Roosevelt will have little sympathy for Schley and is expected to approve the findings of the court of inquiry.

THE date now fixed for holding the Republican state convention is Wednesday, May 28th. This means that the primaries will be held early in May to elect delegates to attend this convention.

THE withdrawal of Alexander E. Patton, of Clearfield county, from the Republicam Congressional race course in the Cameron-Clearfield-Centre district leaves the field open for Ex Congressman Arnold and A. L. Cole, both of whom will wage a hot contest for the nomination.

WHAT's bothering the machine drivers most just now is, whom to nominate for governor next summer. Elkins is Quay's actual choice, and also of his understrappers, but the trouble is Elkins has bedaubed himself all over with machine iniquity that the boss fears his tool would not go through at the election. Then the next difficulty is, where to find a machine man who does not carry the same heavy load. An honest man does

WHEN a poor man tells you that wealth is not an enviable prize there is always a passed the house of representatives by suspicion that he might think otherwise a party vote. It is one of the most if he were rich. But when Andrew Car. shameless pieces of legislation ever negie says the same thing one is more proposed by any party and ought to apt to accept it as the truth. He says "The best of wealth is not what it does for the owner, but what it enables the pression of American colonies, never owner to do for others." Further, he cal, and even Spain, whose despotism says that a good managing wife is the aroused our country's armed protec- shner, of Centre Hall, will preach on best capital a man can have, and there tion in behalf of Cuba-even Spain Thursday evening. Friday morning and is nothing else that helps to success and lacked the refined cruelty . which the happiness more than a wife of that kind. Republican leaders practiced with He urges everyone to lay by something seeming enjoyment. While the West for the future either in the saving bank Indies were under the rule of Castilor better yet, in the form of a home.

DUBLIC SALE :--LIVE STOCE AND IMPLEMENTS. On the Allison farm, at Spring Mills, at 10 8. m. on

Yours respectfully, LIVE STOCK :-

THE United States has made another deal in tropical island real estate by agreeing to a treaty with Denmark for the cession of St, Thomas and the few scraps of land attached, lying south of Porto Rico. The treaty will go to the of commercial intercourse with the Senate on Monday, and if ratified, all that will remain to complete the transaction will be a plebiscite of the islanders approving annexation to the United States. The price to be paid Denmark by the United States is \$4,000 000. The islands have less area than Allegheny county, and a population about onetwentieth of this county. Their chief commercial advantage to this country will be that St. Thomas has a splendid harbor, and that the group of islands will be contiguous to the Atlantic side of the isthmian canal, at least for naval strategic purposes. St. Thomas is a great coaling harbor for the West Indies, and more than 100,000 tons of coal that goes there from the United States are handled annually. We suppose the next thing in order in West India annexation will be San Domingo, Hayti and Jamaica. In 1869 Secretary Seward negotiated a treaty for the purchase of San Domingo, but the Senate rejected it.

THE many sales of farmers this spring. is caused by there being so little profit in tilling the soil. Products of the farm are bringing so little in market and what the farmer has to purchase is advanced so much in price, that between the two, the farmer is ground up. The tariff duties are the cause of it all, for by probibitive tariffs the trusts monopolize all, and advance prices on all consumers. Another evidence that farming is unpro stable is the fact that there are many farms for rent with few seekers to become tenants. Mr. Long, who is the owner of ten farms in this section, the Centre Democrat is informed, does not have an applicant for any of them, and the reason is because tenants find it no longer profitable to work farms. There was a time within the recollection of the writer, when there were from ten to fifteen applicants for each farm from parties desiring to become tenants; now it is the reverse, there are perhaps that many farms to one renter. "Prosperity" has struck the wrong set-the ones to whom it was promised and most needed it, don't get a smell, while those who had thousands and millions, are having thousands and millions added to their piles.

Filipinos, after co-operating with us from a vanquished foe, were placed under the control of high-priced carpetbag officials. They are to be shut out states by the high tariff wall constructed to enable a few American manufacturers to grow rich at the expense of the rest of the people, and are denied representation in the legislature which taxes them. The Democrats in the house will greatly strengthen their party by great opposition to the measure."--Wm. J. Bryan

We said, the other day, that President Roosevelt had evidently been imposed upon by the Pennsylvania senators when he nominated their man, Savlor, for consul at Dawson, Canada If Mr. Roosevelt found that Saylor had been booked for this appointment by President McKinley, and if he sent the name in without other information as to the character and anteceden's of the appointee, we can understand how the mistake came to be made. The endorsement of Quay and Penrose ought, perhaps, to have been considered as the press and rush of business and the necessity of seeing an average of 100

visitors per day the natural suspicion which attaches to a recommendation from that quarter might have been overlooked. Now that the bad record of the man, however, has been brought to light, the president should promptly withdraw the nomination. The naming of Saylor as consul at Matanzas by Mr. McKinley was one of the most deplorable appointments of the latter's career. The good people of Philadelphia are not easily shocked by the doings of their politicians, but the appointment of a man who has just been detected in attempting to swindle the state while serving on an investigating committee of the legislature, stirred them mightily. They sent a delegation to Washington to remonstrate with the president against this galling indignity, but in vain. The would-be swindler was appointed consul at Matanzas. The war with Spain swept away a great many abuses of one kind and another. and it was supposed, that Saylor's consulship had gone with the rest, but now it appears that he was only reserved for a more important position at the capital of the Klondike, where the disgrace of his appointment will be more conspicuous and glaring than it could be in a second-rate Spanish-American town .-- New York Evening

Friday evening. All are invited.

Mr. Richard Niven, superintendent of the College machine shop, Wednesday 22, had the ends of the two first fingers on his left hand nipped off in one of the engines, when feeling if a bearing was hot. This particular part of the machinagainst Spain, bought like chattels ery now has the second victim to its credit, Miles A. Arney having lost a finger in exactly the same place early in the College year.
