Happenings About Centre County Briefly Told by

A CORPS OF ABLE WRITERS

Our Alert Correspondents Note Many Important Events in Different Localities—What is Transpiring—Is Your Section Represented?

Unionville.

More wild geese. No more mad dogs. A junior flood in Bald Eagle. Bennie Fredericks is nearly done ploughing. Miss Annie Rich has been quite ill during the past week, but is convalescing. Street commissioner, Irve Morrison, is "doing" up the streets, opening sewers, etc.

"Squire Riley Pratt is still improving and takes a walk up town twice a day to see that the stores are properly conducted. Butter is very scarce, in great demand and keeps up in price. Eggs are plentiful but readily disposed of at 12 1/2 cents per dozen.

A number of wild ducks were seen recently on "the reach" also on the dam above town. The latest fad in our town now is, butter bread and raw onion parties. This is a strong bit of news.

Geo. P. Hall is a man of "check," he goes from house to house and asks a lot of questions—even wants to know how much money everybody has on interest—he is the assessor. Miss Carrie Daley, of Williamsport, teacher of our intermediate grade, will teach a summer term of six weeks at this place, commencing on the 28th of April. As a successful teacher and disciplinarian, she stands high in her profession. She will teach the higher branches in connection with the common branches. Here is an excellent opportunity for all advanced pupils of the school in the township to secure educational advantages at a moderate cost.

Prof. G. H. Hubbard closed his grammar school on last Tuesday with a very pretty entertainment in the afternoon. His report is somewhat remarkable from the fact that he opened his school with 13 male and 13 female pupils, and closed with exactly the same number. The average attendance of both sexes being high up in the nineties. We never saw any school report to show a higher per cent of attendance. The Prof. is very popular with pupils and patrons and all are anxious to secure his service for the next term.

The champion egg eater of the country is Irvin Morrison—one Easter Sunday he ate 12 goose eggs and 1 hen egg for breakfast, 9 goose eggs and 6 hen eggs for dinner, and 6 goose eggs and 6 hen eggs for supper, and he says it wasn't a good day for eggs either—this is equivalent to 90 hen eggs in one day.

Nittany.

Preaching in Ev. church next Sunday evening, by Rev. Price. The Sunday school class No. 4, taught by Mrs. Tolbert, will hold an ice cream social at the home of Charley Gunsaulus, near Peck's store, on next Saturday evening, the 19th; proceeds for church. Miss Alice Kremer, of Millersburg, spent last week visiting her many friends at this place. Joe Emerick has gone to Jersey where he has employment. Mrs. Frank Emerick, Jr., and little daughter, have gone to Johnstown, where they expect to spend some time with her sister.

Mrs. S. C. Gobble, of Lock Haven, spent part of last week visiting friends at this place. Mrs. A. A. Pletcher and Miss Marie Holmes were to Jacksonsville on Thursday, to attend Mr. McCalmonds funeral. The weather the past week has been anything but pleasant. P. S. Rossmann and wife are rejoicing over the arrival of a young daughter at their house. The new picket fence around the Ev. church is quite an improvement. George Gunsaulus and wife were visiting friends at Marsh Creek, over Sunday.

We are sorry to say that Miss Minnie Winkelman is not well at this writing; we hope it will not last long. Miss Ruth DeHaas, of Beech Creek, is the guest of her friend, Miss Oda Gunsaulus. D. W. Glosner, D. D., of I. O. O. F., and Prof. Y. M. Pletcher, both of Eagleville, were guests of A. A. Pletcher on last Sunday; those three link brothers attended lodge at Hublersburg on Saturday night, and according to the late hours of their return there must have been fun in abundance. H. S. Long is busy moving his store goods into the new store room, built at the same place where the old one was burned. We wish him abundant success in his new undertaking. Those who started from this place on Monday morning to attend the select school at Hublersburg, were Harry Yearick, Harry and Allen Yarnell; there will be more to follow.

Now look out who can catch the most and largest trout, of course the largest ones always get away. Rockview. Some say "Oh, my, when will we get our plowing done." Mr. Woosmer and wife, of State College, spent Sunday at the home of Ezra Smith. Rev. W. H. Brown visited in this neighborhood last week. Come again. Mr. and Mrs. A. C. V. G.'s appointments: R. S., John Neff; L. S., Henry McMullin.

Members of the M. E. Sunday school held an entertainment in the O. W. A. M. Hall, on Saturday, the 12th. The audience tried the building in good shape, the room trembling with the weight; a large number of people returned home afraid to ascend the stairs. It is said a number of persons who were in the post-office below left the place for fear of a come-down from above as only a nine-inch brick wall supported the immense crowd. The entertainment was an excellent one; the proceeds will be used to paint the parsonage.

Mrs. John Shields died on Monday, the 7th; the interment took place on Wednesday, at Roland cemetery.

An entertainment was given in the Jr. O. U. A. M. hall, Saturday evening, April 12, by the Ladies' Aid society of the M. E. church, under the direction of Mrs. Calvin Zimmerman. It consisted of vocal and instrumental duets, recitations and three short plays. It was a success in every way. The following young people took part: Misses Ada Baird, Bessie Miles, Lorene Jones, Meda Bryan, Mary Campbell, Maud Kanaar, Edna McCullough, Mable Kreamer, Clara Jones, Myrtle Shields and Messrs. Sam Baird, Eddy Zimmerman, Hubert Campbell and Will Baird. The playing of Hubert Campbell, Will Baird, Lorene Jones and Bessie Miles, is especially worthy of mention.

Spring Mills.

Garden making some of our folks are talking about. Well it will only talk as long as the cold stormy weather continues. Half the month is gone, and still too cold and blustery for even the frogs to venture out of their muddy beds to give their usual nightly serenade, to say nothing about planting garden truck.

It is reported that the new bridge over Sinking creek, to replace the one swept away by the recent flood, will be built and finished for travel by the 20th, perhaps. The bridge is to be ten feet longer and eight feet higher than the old one. J. I. Condo has just introduced some new and improved machinery into his carpet factory and owing to an unusual increase of orders has been obliged to increase his force of employees. Mr. Condo is doing a large business.

Edwin Ruhl the village landlord is quite ill. His brother Will is attending to the hotel business during his indisposition.

Ambrose Gentzel is erecting quite an imposing barn on his property on the avenue.

W. P. Alexander, chief miller in Allison's mill, has been stocking Penns creek above the dam with trout. John Smith and brother of our village, are evidently disposing of furniture by wholesale. Their wagons seem to be continually on the road delivering cooking ranges and large lots of furniture. The funeral business of this firm has become quite extensive. The very satisfactory and admirable manner in which everything connected with funerals is arranged and conducted is so well known, that their services are not only demanded in the neighborhood, but also in distant towns.

Dr. D. M. Wolf commenced a session of High school for advance scholars in our Academy building last Monday.

Millheim.

Mr. Editor: It was stated in the Millheim items some time since that "it was strange the borough schools were not a success," I fear this is ambiguous—some of them were a success. But certainly too many parents allow their children on the street too much, and there is where they learn the mischief, not in school, and then when they are in school only persist in annoying the teacher and other pupils. The teacher and the directors have a part to perform also. Last fall when one of the teachers asked permission to attend a wedding one day, and even had a supply through a director, they refused to let her go, (we're sure the directors are all married) and censured her severely for going; then later admitted that they were wrong. But, of course, the innocent always bears the blame. The principal missed his moving day and didn't even try to secure a supply, and the directors never said a word, but I guess they were all invited to dinner. Now directors this was not fair; I used to be a director, also a teacher. Many times have we seen three of the teachers on the street 10 to 20 minutes after school time; but this can positively not be said of Miss Flora Duck; she was always at her post of duty and we all gladly and truthfully say that she is a No. 1 instructor, her equal might be had, but we have experimented. So, directors, try to get what you know is genuine. We will be very glad to have her among our corps of teachers next year again. X

UPPER AUGUSTA, Pa.

I fed "Diehl's Condition Powder" to my chickens according to directions and found it the best I ever used. When I began to feed it my chickens were sick with the croup. I have seventy-five chickens now, and you never saw a finer lot. They have fine red combs and lay lots of eggs all through this cold weather. I also fed some to my hogs; it kept them healthy and gave them a good appetite, helping them to fatten. I say upon honor that it is the best powder in the market.

STILLWATER, Pa.

"Diehl's Horse, Cattle and Poultry Powder" is far superior to anything of the kind I have ever used, and can recommend it to all. Am confident that using a reliable powder and keeping stock in good health is a most profitable and economical investment to the owner, and I want no better powder than yours. T. H. EDGAR. For sale by all Dealers.

The scribe, of Highvalley, was down on Tuesday, but he was not in his usual good spirits. He informed us that the Highvalley school was the smallest in the county the average for the term being two. On Tuesday the trout season opened and the creeks were lined with sports eager to catch the speckled beauties. Instead of retiring early in the evening some of our young people go to bed early Sunday morning and forget to rise early enough to attend the forenoon Sunday school.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case that fails to cure. Send for circulars and testimonials. Address, F. J. Mrs. David Raymond took a short stay with her friends last week, at this place.

Taking Desperate Chances.

It is true that many contract slight colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality and makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of colds, can be had for a trifle? For sale by Green's Pharmacy.

Yarnell.

Edward Burd, with his wife and daughter, visited friends and relatives in this place last week. We are sorry to note the illness of Mrs. Geo. Heaton, also Mrs. Michael Heaton.

LIKE A FLASH of lightning, sudden and startling, disease strikes down many a man. Yet there have been warnings upon warnings, unheeded. Food has lain like a heavy weight in the stomach after eating. There have been belchings, bitter risings in the mouth, nervousness, sleeplessness and growing irritability. Instead of listening to these warnings, recourse has been had to some of the nerve numbing palliatives that cover but never cure disease. Many serious diseases begin in a diseased condition of the stomach and organs of digestion and nutrition. The stomach is really the vital center of physical life. It furnishes the blood which nourishes the whole body, in brain as well as brawn. When the stomach is "weak," it is not equal to the work of supplying the blood upon which depends the strength and vigor of the body. Without this essential blood supply the body weakens in all its organs. The condition of the body when the blood stream runs low is the same as that of the mill when the mill stream runs low. There is not enough power to do the work. The heart feels the lack of power, the brain feels it, so do the lungs, nerves, liver, and all the vital organs. Dr. Pierce's Golden Medical Discovery, cures the weak stomach and other organs of digestion and nutrition, increases the activity of the blood-making glands and pours a tide of pure blood along the arteries and veins which nourishes every organ into strength. It is the great stomach-strengthening, nerve-nourishing, lung-healing, muscle-making remedy of the age. It contains no alcohol and is free from opium, cocaine and all other narcotics. Doctors Disagree. "About ten years ago I began to have trouble with my stomach," writes Mr. Wm. Connelly, of 535 Walnut Street, Lorain, Ohio. "It got so bad that I had to lay off quite often—two and three days in a week. I have been treated by the best doctors in this city, but got no help. Some said I had cancer of the stomach, others catarrh, others dyspepsia. Then I wrote to you for advice. You advised the use of your 'Golden Medical Discovery' and 'Pleasant Pellets.' These medicines I have taken as directed. I commenced to get better from the start, and have not lost a day this summer on account of my stomach. I feel tip-top, and better than I have for ten years."

Keep the bowels healthy by using Dr. Pierce's Pleasant Pellets. They don't gripe. They are easy to take and sure to cure.

PROF. J. ANGEL ...AN EXPERT... Eye Specialist of Williamsport, will make his monthly visit here ONE DAY ONLY Wed., April 30th from 9 a. m. to 9 p. m. with headquarters at the Garman House Bellefonte, Pa. I can examine your eyes at your home, by appointment, without extra charge. If you need me at your home drop me a line in care of Garman House. Hundreds are going blind daily, from the need of the proper prescribed glasses and from delaying attention to the eyes from time to time. Nothing will destroy your eyesight quicker than cheap glasses or glasses not properly fitted to your eyes. Prof. Angel, in the short time he has been visiting this section, has met with marked success. Scores of leading citizens of this community have found relief from his treatment. It is not necessary to travel to Eastern cities for treatment when you can consult an eminent oculist at home. DON'T. If your eyes are causing trouble—vision imperfect—you aggravate the trouble by delay, and may permanently impair your sight. Don't delay to consult a Reliable Oculist, and none can be too good. Will be at HOWARD on Thursday, May 1st.
