Taking Desperate Chances.

It is true that many contract slight colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality and makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cures of colds, can be had for a trifle? For sale by Green's Pharmacy.

Joseph Murray, of Sandy Ridge, stopped off to see his mother for a few hours on Monday.

Mrs. Sara Reed is visiting friends at Milesburg.

PARSONS—that farmer lad from a suburb of the petite village of Lemont is evidently in error, when he refers to the article published in last week's issue that he was "a visitor in our locality one week last summer" as it would be a strict violation of the rules governing our borough to have posterity of quadrupeds trample on the grass. We most assuredly believe that he passed through our town, as everybody noticed and remarked, as he was passing by, of the green-looking vegetable, resembling very much the species of parsnips before it has had time to mature. Again it certainly would not take that kind of Pa(r)snip a whole week to celebrate its birthday, as it shows, by the color, not to have many such days to rejoice over. But nevertheless we will deal lightly with him as we know he is battling hard for his future success, and do not prefer to hinder his growth. We, therefore, advise him to stay with the cows on the farm and feed upon the nutriment they furnished, until he fully realizes that he is physically strong enough to digest the food that his older kin do.

SPREAD IT BROADCAST.

What one of the leading merchants of Bloomsburg says about MOVER'S WHITE LINIMENT:

On Wednesday morning, the 23d inst, I found that one of my valuable mated bay horses had been kicked on the hock by the other one, some time during the previous night. I found him in a most deplorable condition. His hock was swollen as tight as the skin would hold. The joint was three or four times its normal size. The horse could not bear a single pound of weight on it.

I applied MOVER'S WHITE LINIMENT freely to the affected part at once. By evening the swelling was reduced more than one-half. I bathed it again and on Thursday morning the swelling had entirely disappeared. He could now stand firmly on the injured leg. I used it again and by Thursday night no sign of lameness could be seen.

This Friday morning he is working in the team as well as ever.

The value of such a liniment on the farm and in the stable is incalculable. I think the knowledge of its merits should be spread broadcast as rapidly, and as thoroughly as printer's ink can make it known.

Some of our forenoon farmers are through sowing oats.

On Thursday evening the society season for the summer's entertainment opened with a grand ball at the home of our influential farmer's. Preparations were made for a large number of invited guests and the capacious house was crowded to its utmost. Music was furnished by the Linden Hall orchestra led by Luther Royer, who is hard to beat. The waltzes, two-steps, quadrilles, etc., were executed with the greatest ease and grace. The music was grand and exhilarating, and the time passed so quickly that before the dancers were aware of it, "Old Solomon" began streaking the eastern sky with gray, and the enjoyment had to come to an end to the regret of all. The next day some were greatly startled by Sallie falling in a deep sleep, (resembling a trance) from which she was awakened with the greatest difficulty. The promoters are to be congratulated on the grand affair.

Woodward.

Nearly every day, since the opening of the trout season, fishermen can be seen wending their way homeward with a string of from twenty to fifty speckled beauties, some no less than thirteen inches in length. A Country Lass,

Health in her beaming eyes, health in her glowing cheek, health in her merry laugh. Yet country air and country hours can't save her from the common experience of women—an experience which dulls the eye, pales the cheek, and turns the laugh to a sigh. Womanly ills come to almost all. The most severe and painful of the diseases which affect the delicate organs usually attain their severity through neglect or through the unskillful treatment of local practitioners. Young women should be warned that irregularities and debilitating drains are only the precursors of more serious trouble if proper treatment is not obtained. Disease never stands still. The deeper rooted the disease the more difficult the cure.

Dr. Pierce's Favorite Prescription has been the means of curing thousands of women, many of them in the last extremity of disease. It is a medicine for woman's ills which does what it was made to do and never disappoints any woman who gives it a fair and faithful trial. *It always helps. It almost always heals.*

"Favorite Prescription" regulates the periods, dries enfeebling drains, heals inflammation and ulceration and cures female weakness. It makes child-birth easy and gives strength to nursing mothers.

There is no alcohol in "Favorite Prescription" neither does it contain opium, cocaine, or any other narcotic.

Women suffering from chronic forms of disease are invited to consult Dr. Pierce by letter free, and obtain the advice of a specialist in the treatment of woman's diseases. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Miss Ella Sapp, of Jamestown, Guilford Co., N. C., writes: "I had suffered three years or more at monthly periods. It seemed as though I would die with pain in my back and stomach. I could not stand without fainting; had given up all hope of ever being cured; when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith I tried it, and before I had taken half a bottle I felt better—had better appetite and slept better. Now I am happy to say I am entirely cured, and all done in two months' time, when all other medicines had failed to do any good at all."

Dr. Pierce's Pleasant Pellets are woman's favorite laxative. They are small in size, the dose is small, and their benefit is not transient but permanent.
