A Wise Woman.

A company of American artists headed by Miss Marie Lamour presenting a comedy of American authorship, which however received its initial production at the Strand theatre, London, will be the attraction at the Garman opera house next Monday evening. The play referred to is Wilfred Clarke's brilliant comedy "A Wise Woman," and its presentation in this country has so far proven a duplicate of its success in the British metropolis. This piece held the boards of the Strand theatre for nearly 250 nights to capacity business, and this fact alone would seem to be unanswerable argument of success.

THE canvass for nominations on the fall county ticket is going on with very little excitement—and why should it ever be otherwise?
