McCargar, representative of the Equitable Life Insurance Company in this section, is the possessor of a handsome gold watch and medal received as a prize for the amount of work done by him for that company during last November and December. It was a competitive contest and Mr. McCargar was one of the few successful accounts to receive such a prize. Mr. McCargar is known as a hustler in whatever line he engages, and the fact that he got this handsome prize not as a matter of chance but the results of his individual efforts, he can truly appreciate it.

—After a long delay the water mains across the bridge have been repaired this week. The delapidated walks and the long stretch without a walk on Water street is in about the same condition as the day after the flood. We do not know why these needed repairs are not made at once. They must be made sooner or later and there might just as well be prompt repairs as such extended delays. CENTRE COUNTY FAIR.

We have been frequently asked by people over the county as to the prospects of having a fair this year. The reason for these inquiries is due to the fact that the flood last month did considerable damage to the track and buildings, and the same have not been repaired thus far. We have seen the officials of the association and they request us to emphatically state that they now have under contemplation the making of all necessary repairs due to the damage from the flood, and that in addition thereto there will be general improvements on the property. The first work will be to put the track in shape so that the local horsemen can speed their horses. The extent of damage done will not be as expensive to repair as was at first estimated. They were so well pleased with the attendance last season that they are fully warranted to go ahead. For that reason our horsemen need not dispose of their steppers or anyone despair that there might be no Centre county fair this year. This will be good news to many who attended in former years.

Attempts to Break Jail Fall.

Frank Beckwith, who is in jail here awaiting trial on a charge of killing his wife, evidently means to escape jail, if possible. The fact has leaked out that three times recently Beckwith, with the connivance of another prisoner, has escaped from his steel cell into the corridor, but every time was discovered before any further attempt to regain his liberty could be made. Beckwith has now been put in a full steel cell with double locks.

THE RIGHT MENTAL ATTITUDE.

Whenever you go out of doors draw the chin in carry the crown of the head high and fill the lungs to the utmost; drink in the sunshine, greet your friends with a smile, and put soul into every hand-clasp.

Do not fear being misunderstood, and never waste a minute thinking about your enemies. Try to fix firmly in your mind what you would like to do, and then, without violence of direction, you will move straight to the goal.

Keep your mind on the great and splendid things you would like to do; and then, as the days go gliding by, you will find yourself unconsciously seizing upon the opportunities that are required for the fulfillment of your desire, just as the coral insect takes from the running tide the elements it needs. Picture in your mind the able, earnest, useful person you desire to be, and the thought you hold is hourly transforming you into that particular individual.

Thought is supreme. Preserve a right mental attitude—the attitude of courage, frankness and good cheer. To think rightly is to create. All things come through desire, and every sincere prayer is answered. We become like that on which our hearts are fixed.

Carry your chin in, and the crown of your head high. We are the gods in the chrysalis.

IMPURE BAKING POWDER SEIZED.

The New York Board of Health find it contains Alum and Rock, Declare it Dangerous to Health and Dump it into the River.

The New York papers report that the Health Department of that city has seized as dangerous to health nearly two tons of cheap mixtures sold for baking powder, and dumped them into the offal scow to be destroyed. More of the powder was found in a Sixth ave. department store. The report of the analysis of the Health Department stated that it was "an alum baking powder" containing alum and pulverized rock.

The different Health Authorities seem to have different ways of representing the sale of bad baking powder. In England they have prosecuted the grocers under the general law and broken up the traffic. In Missouri the sale of alum baking powder is actually prohibited by law. In New York they seize the unwholesome stuff and cast it into the river, without any discussion. The latter way is certainly effective.

The alum baking powders are usually offered at a low price, ten to twenty cents a pound, or with some prize, as a temptation to the housewife.

Consumers can protect themselves by buying only high grade baking powder of established name and reputation. Do not be tempted by the grocer to take something else as "just as good" of "our own brand," for the trials show that the grocer himself is often deceived by unscrupulous makers and is selling an alum powder without knowing it.

There are several good powders on the market; let the housekeeper insist on having what she knows is right, and not be induced to risk the life of the family for an imaginary saving of a few cents.

Dance at Revival.

For an hour Wednesday night the Daughters of Rebekah held a dance on one side of Semmons hall, at Turtle Creek, near Pittsburg, while the Rev. Josiah Collett, a colored revival preacher, exhorted a crowd of negroes on the other side. The minister had hired the hall to 9 o'clock, after which hour the Daughters of Rebekah were to have had it for their dance. When the Daughters with their escorts and orchestra arrived the minister was at the height of his eloquence.

Neither party would yield, but a compromise was effected, the dancers taking half of the hall and the colored people the other half. The two affairs went side by side for an hour, squeaking of fiddles accompanying the minister's call to his flock to come to salvation. At the end of an hour the minister and his audience adjourned to the sidewalk, where all fell on their knees and prayed for the dancers inside.
