

## The Racket

If U are thinking of painting U'r buildings here are some facts for U'r consideration:

LINSEED OIL should be bought fresh from the oil barrel at market price and not in a sealed tin can with a paint label on it. Did it ever occur to U that when U buy a thin liquid paint three fourths of it is Linseed Oil (or often some inferior or mixed oils) for which you pay usually from \$1.50 to \$1.75 per gallon.

### U Don't Do That With Longman & Martinez Paints

It is a semi-paste and U add from 3/4 to 1 gallon of Oil to every gallon of Paint. U pay proper price for Paint and proper price for Oil. U have the best paint and save 53 cents on every gallon. Yes, we sell L. & M. Paint.

## A POINTER TO HORSEMEN.

CATAWISSA, PA., Feb. 24, 1902. MESSRS. MOYER BROS:

Gentlemen—About the first of this month our horse went suddenly lame in his left hock. It became swollen to two or three times its normal size. He could bear no weight on it. Upon close examination no signs of bruise or broken skin was discovered. Having your WHITE LINIMENT in the store we concluded to try it.

After three or four applications, the swelling was much reduced and he put his foot to the floor and stood on it squarely. At the end of three days—according to directions—the swelling disappeared altogether, and with it the lameness. We have driven him every day since and pronounce him sound as a dollar. We feel that we are doing our neighbors and the public generally a favor to recommend this remedy for the rapid reduction of inflammation, wherever found or from whatever cause it may have been produced.

Truly Yours, SWANK & BARNETT.
