DOROTHY VERNON OF HADDON HALL. By Charles Major. Illustrated by Howard Chandler Christy. 12mo, \$1.50. The Macmillan Co.

Charles Major is perhaps the most popular teller of love stories among living novelists. In Dorothy Vernon, as in his earlier novel When Knighthood was in Flower, time and distance lose their significance under his spell. He has the rare and happy faculty which brings home to the heart the spirit of gallant times and the imperious call of youth's springtime.

Well written from first page to last, this novel is worthy to rank as one of the best pieces of American fiction, and as literature. Mr. Major has discovered what potent implements are language and style in the creation of romance, and he has mastered their use. All praise to him for this; it cannot fail, moreover, to add to his popularity, thus earning for his willingness to labor and improve two rewards, one material, the other artistic.

The romance is the chief concern with this author; it is the very root as well as the flower of his gift. This is a historical tale, so far as period, scene, and minor characters are concerned. Indeed, even his hero and his heroine, and the romance itself, are based upon nistoric fact. But we are after all ever in the land of lovers, the best of realms in which to dwell in romantic fiction. Dorothy Vernon is an Elizabethan maid, but there is in her a suggestion of wilful young womanhood as it reveals itself through the ages, a touch of the eternal feminine in her deflance of authority for the sake of the man she loves. She is not a historic figure, interesting on account of its distance from the women of to-day; she is flesh and blood of this twentieth century, all gentleness and roused fury in defence of her all; all love and strength and fortitude under persecution and opposition, a living, loving, lovable girl, ready to risk all for the sake of "him," a living woman of to-day. Sie will appeal more potently, we think, to the popular imagination than did even the heroine of the earlier book, because she is depicted in more vigorous lines and stronger colors, because Mr. Major has mastered his trade.

The elopement of Dorothy Vernon with John Manners is an historic episode; Haddon Hall belongs to this day to their descendants, the Dukes of Rutland. Queen Elizabeth visited the castle; the state chamber, where she rested overnight, is still shown to visitors in its original state. Mary Stuart, too, enters the story, to rouse the jealousy of Dorothy. In short, the lover of the accuracy of history in fiction may rest contented with the story; but he will probably care little for that once he has been caught by the spirit and freshness of the ro-

Please notice, Miss Julian Syllycus, that this petite village of Lemont is better understood by the common class of people as this little "village of Lemont," so next time won't you be more original. We just mentioned that parsnip for something to bite on and it seems altogether probable that you will recover from your tumble, at least some people hope so. Say, assuming that "simple" subject which you so monotonously discussed recently, we will say that you got its stage of life and its color very badly "balled up," and look for you to make it clear next issue. I "kin" drink as much milk as any calf you have got in town, so you may have your hard-tack soldier boy. Well now you had better resume busi ness and stop reading the paper, as don't you hear that "Cold Molasses Special" speeding down the track with a letter from Miss Martha? She evidently wishes to tell you about my growth being so easily injured, but don't you be alarmed about it as I am on the Varsity football team of Oxford. Now "Dolly" if you think it would be impossible to take the proper care of me in your city I will never go to see you as I was just "jollying" when I said I stopped there a week one time. You know I intended to but as there was a wash-out on the clothesline, I could'nt see the cow for the line; so now being pursuaded by Khadija, I will Hegira. "NERVY."
