TIE-UP IN COAL REGIONS

Not One of the 357 Anthracite Collieries in Operation.

It is Generally Believed Hazieton Con vention Will Vote to Continue the Struggle-Coal Companies Prepared For a Siege.

Scranton, May 13 .- Mine workers throughout the entire anthracite coal regions of Pennsylvania to the num ber of 145,000 formally began their struggle yesterday for better wages and shorter hours. Never in the history of hard coal mining has a tie-up been so complete, not one of the 357 collieries in the territory being in operation. There is every indication for believing that the suspension. which was to cover only the first three days of this week, will be made permanent by the miners' general convention which meets at Hazleton tomorrow.

Absolute quiet prevailed everywhere. In pursuance to the request of the district executive boards, which met jointly at Scranton last week, all the local unions throughout the regions met during the day and evening and elected delegates to the Hazleton convention. It is significant that in every instance where the vote of a local became public property the ballot showed a decided majority for a permanent strike unless the operators granted concessions. Predictions are made that if it is decided on Wednesday to continue the strike the struggle will be a longer and more bitter one than was that of 1900, which lasted six weeks. The coal companies in various parts of the regions have already made preparations for a siege. Coal train crews, telegraph operators, switchmen, carpenters, machinists and other employes numbering several thousand, not identified with the Mine Workers' Union, have been laid off un til further notice. Some of the companies have also brought their mules to the surface and placed them in pasture.

President Mitchell spent a busy day at his headquarters here. He was in close communication with all the dis trict leaders, and expressed himself as well satisfied with the way the men responded to the call for a suspension of work.

The general idea that the coal companies have been storing coal during the past month, and that a large sup ply is now above the surface is erroneous. On the contrary, the action of some of the companies in giving or ders for a more economical distribu tion in the way of sales shows that they fear a shortage at no distant day. The Philadelphia and Reading Company, the largest producers in the re gion, yesterday refused to accept or ders from their line and city custom ers, and only promised to fill tidewa ter orders if the coal is available. Reading, Pa., May 13 -- Schuylkill Valley industries are clamoring for coal now that the prospects are that the anthracite supply will be cut off, and the Reading Company is rushing cars at the rate of 400 per day to bi tuminous regions for soft coal. Sev eral hundred crews employed in the anthracite trade have already been temporarily laid off, with more to fol low. The Reading Company has 600. 000 tons of coal stored here for its own use.

WON'T LEAVE ISLANDS Senator Foraker Says Government

Will Not Desert Filipinos. Washington, May 13 .- An important contribution to the discussion of the

Philippine government bill was made in the senate yesterday by Mr. Foraker, of Ohio.' He maintained that QUIET AND ORDER PREVAILS the United States could not leave the islands until order had been restored and until a stable government had been established. "And I may say, Mr. President," he announced, "that we are not coming away from the Philippines under this administration or the next one, no matter what political complexion it may be, for we could not do so without writing the word poltroon' across the forehead of the American government, and the people

will never permit that." Mr. Foraker read editorials from the Denver News, of which Mr. Patterson, of Colorado, is the proprietor. The editorials maintained that the United States must retain control of the Philippines and put down the insurrection among the Philippines. With keen sarcasm, the Ohio senator declared that the editorials did not read as Mr. Patterson's speeches read now.

Mr. Foraker held that the policy adopted in the Philippines was one of the kindest and gentlest possible and in strict accord with the instructions of President McKinley. He declared that the minority had attacked the army, from the commanding general to the humblest private-all because the army had resented outrages, without parallel in cruelty, committed by the Filipinos. The American army, he said, had shown a humanity unsurpassed in history. The American people always had stood by their army, and they always would.

PAUL LEICESTER FORD SHOT

Well-Known Author Murdered By His

Brother, Who Then Killed Himself. New York, May 9 .- Paul Leicester Ford, the author, was shot and killed at his home in this city yesterday afternoon by his brother, Malcolm, who then shot himself. The shooting took place in the library of Paul Leicester Ford's home at 37 East Seventy-seventh street. He was sitting at a table when his brother entered the house. Malcolm is said to have demanded money and to have been refused. The shooting followed. The bullet which killed Paul Ford entered the left breast, piercing the heart. Malcolm Ford then shot himself. The bullet entered the left breast and pierced the heart, in almost the same manner as did the bullet that caused the death of Paul. No one was in the room when the shots were fired. A maid was at a doorway. She said Malcolm leaned

and fired. Paul Leicester Ford was the author of "The Honorable Peter Sterling" and of "Janice Meredith." He was born in Brooklyn in 1865, and two years ago married Mary Grace Kidder.
