COUNCIL MEETING.

In session Monday evening. Following is a summary of proceedings:

Burgess Blanchard reported the collection of \$45.00 in fines etc., during the past month. Chairman Potter of the Finance committee reported that the boro had overdrawn its account \$209.26. Boro Solicitor Fortney read an opinion in regard to the responsibility as to who should build the board walk along Water street from the spring to Lamb street bridge which was damaged by the flood, was ordered to be temporarily repaired. He was not entirely clear in the matter of the authority for the laying out of this street. Mr. Fortney wanted further time to examine into the matter.

The Water committee was instructed to clean the mud and moss out of Spring Creek which is said to be backing the water back on the water wheel at the Pumping station. Necessary repairs were ordered to be made on the lock up.

Chairman Potter of the Finance Committee submitted the following report:

The Finance Committee respectfully recommended the following millage: Street 4 mills, Boro 3 mills, Interest 4 1/2 mills. This will give upon the valuation \$1,627,615 the following: for street \$6510.46; boro \$4,882.84; interest \$7324.29. In addition we will receive from licenses \$570.00; from Burgess \$50.00; from market \$50.00 making a total of \$19,417.59. Deducting for Collector's expenses \$600 leaves a balance of \$18,817.59. From the old tax duplicate we will receive \$9000.

For expenditures we have made the following estimates: Finance \$1200.00; Street \$6105.00; Board of Health \$125.00; Police \$1300; Fire department \$1500; in interest \$4500; State Tax \$450.00; Treasurer \$300.00. This makes a total of \$15,485.00. Add \$3000 for the sinking fund makes a total of \$18,485.00.

Farmers' Institutes in Centre County.

Beginning with the winter of 1899-1900, when Dr. E. W. Hale represented the county on the State Board of Agriculture, thirty Farmers' Institutes have been held in this county at fourteen of the more prominent farming centres as follows:

- Boalsburg, 2; Centre Hall, 3; Howard, 5; Hubbersburg, 2; Madisonburg, 1; Milesburg, 1; Millheim, 2; Pine Grove Mills, 2; Port Matilda, 2; Rebersburg, 3; Spring Mills, 7; State College, 1; Stormstown, 2; Unionville, 3. Perhaps there are other places in the county where meetings of this kind could be properly accommodated, and would be appreciated; or it may be that some of these where but one or two have been held are ready for another.

The County Board of Managers whose duty it is to select the places for the two which will be held during the coming winter will meet at the office of the County Commissioners on the third Tuesday, of June 17th, at half past ten o'clock in the morning for this purpose. All communities which desire institutes should be represented at this meeting by a committee to present their claims. If impracticable to send a committee or address a letter with the request to

JOHN A. WOODWARD,
Chairman Board of Institute Managers,
Howard, Pa.

—Samuel Showers, of this place, gave us a surprise last evening advancing his subscription to January 1st, 1904. That is pretty near the front rank.

—Memorial services in the Lutheran church of this place, next Sabbath morning, under the auspices of Gregg Post, which will attend in a body. Memorial sermon will be delivered by Rev. Dr. Holloway. All invited to attend these services in honor of the departed Centre county heroes who served their country in the tented field. Amos Garbrick, commander.

There is a big strike on, of coal miners. They demand better wages. The coal Trust has been putting up the prices of coal step by step for nigh two years, but added nothing to the wages of the miners. The coal Trust boasts it can stand a strike until next fall as they have an immense quantity of coal on hand. Yet with this assertion of the Trust the price of coal was raised one dollar per ton last week. How this will strike the millions of consumers of coal, we will see—plenty of coal and the people to be fleeced one dollar per ton! Here is another case where a repeal of the tariff on coal would be the cure for the lords of the coal Trust.

We have certainly fallen on a period of calamities, loss of life and destruction of property. Aside from the West India horror, the Sheraden calamity, the loss of 90 lives is reported from Texas as the result of a sweeping tornado in the southwestern part of the state. It was the work of five minutes. Then there is a terrible coal mine explosion reported from East Tennessee, with the loss of life reported at 300, but this is probably an exaggeration. The first half of May has a fearful record of deaths by calamities.

ELKIN'S interests in this county will be looked after by Secretary John Hamilton, E. R. Chambers, W. I. Fleming and others. At this time it is not definitely known just where Judge Love stands, or whether he will take any part in the fight, though it has been intimated that he is favorable to the Indiana county man.

Popular With His Constituents.

State Senator Heinie, of Bellefonte, was calling upon friends in town Wednesday afternoon in connection with his political business. He was sent as a substitute by the Centre county democratic chairman and assisted in the formulating of the rules governing congressional nominations. Senator Heinie will be a candidate for re-election and will have the unanimous endorsement of his party. He has been an excellent and obliging servant of the people and has made himself very popular with his constituents. In the event of Mr. Patton's nomination, the race between the two will be a very interesting one. The district is composed of the counties of Clearfield, Centre and Clinton.—DuBois Express.
