

PRETTY TABLE MATS.

How They May Be Easily Made of Circular Corset Lacing.

A new idea for inexpensive table mats is to weave them by hand of the circular cord used for corset lacing.

THE DAISY PATTERN.

very effective. The accompanying illustrations show two designs. The first is called the "Daisy" pattern and the second the "S."

Cut the brass end of a firm corset lace and by twisting cotton around the lace bind to prevent unraveling. Make a coil three strands deep and overlaid on the wrong side. Form seven loops, each one being twisted once around the coil, and sew them to it. Cut off the cord and bind the end neatly under. Make a plait of four strands of the cord long enough to go around this daisy form and attach it to the outer loops of the daisy.

For the "S" mats make a coil four strands deep, and by reversing the direction of the coil make a second as close as possible to the first. This makes the "S," from which any number of designs may be invented.

The seven little circles in the center of the small "S" dolly are made of

three "S"s and one circle. The second size is made of six "S"s and a circle.

Any number of "S"s that will make a pretty, symmetrical arrangement can be used with very good effect.

The four strand plaiting in the "S" mats is made a little more complicated by the joining of the two rows of plaits. Take the outer strand of the inner circle and the two inner strands of the outer circle and plait them in a three strand plait between the two circles.

If the mats are to be used over white linen, they will look better in their natural color, but if they are to be placed on a polished table they will be richer in effect if dipped in strong coffee.—Ladies' Home Journal.

The Little Girl's Hair.

The tasteful arrangement of the little girl's hair will improve her appearance as much as a pretty dress or hat. The hair is now allowed to grow instead of cutting it off to make it thicker, and the baby face is framed with soft, clinging tresses, just as nature intended it should be.

The Way to Disinfect Books.

If you have an atomizer, fill half it with a 40 per cent solution of formaldehyde. Stand the books upright on the end wide open, with the leaves separated as much as possible, and spray thoroughly with formaldehyde.

Harmful Vanities.

Very red hands are often caused by tight stays, snug sleeves or pinching shoes. Choking collars will occasionally be the cause. The body must be comfortably dressed. No matter how trivial the discomfort the effect will show in the facial expression.

Running up bills is not the sort of exercise that does the most good.

Stained Articles.

All stain should be removed before the articles are put in the washbowl. Pour boiling water through fruit stains. When obstinate, soak in a solution of oxalic acid.

The Duty of American Women.

What we want to do hereafter is to place ourselves socially and morally and manfully on a par with the position our men occupy in finance and science; to strive to be leaders as admirable wives, mothers and women, as our men are leaders in the world of achievement.

Dusters.

Put away the feather duster. What's the use of sweeping if you are going to throw the dust back on the floor? Get a yard of cheesecloth—common quilt lining will answer—hem it, and then you have a duster that is of some use.

Bath Bags.

Bath bags dipped in tepid water and used as a sponge make the skin white, smooth and fine. To make them take one pound of fine oatmeal, one-half quart of new bran, two-fifths pound of powdered orris root, two-fifths pound of almond meal, one-fourth pound of white castile soap powdered, one ounce of primrose sachet powder.

PROF. J. ANGEL

...AN EXPERT... Eye Specialist

of Williamsport, will make his monthly visit here ONE DAY ONLY Wed., May 28th from 9 a. m. to 9 p. m. with headquarters at the Garman House Bellefonte, Pa.

I can examine your eyes at your home, by appointment, without extra charge. If you need me at your home drop me a line in care of Garman House. Hundreds are going blind daily, from the need of the proper prescribed glasses and from delaying attention to the eyes from time to time. Nothing will destroy your eyesight quicker than cheap glasses or glasses not properly fitted to your eyes.

Prof. Angel, in the short time he has been visiting this section, has met with marked success. Scores of leading citizens of this community have found relief from his treatment. It is not necessary to travel to Eastern cities for treatment when you can consult an eminent oculist at home.

DON'T. If your eyes are causing trouble—vision imperfect—you aggravate the trouble by delay, and may permanently impair your sight. Don't delay to consult a Reliable Oculist, and none can be too good.

Will be at HOWARD on Tuesday, May 27th.
