The horses ran to the stable. No damage to the horses or wagon.

### WRINKLE DON'TS.

Don't frown, don't scowl. Don't sit facing a strong light. Don't stoop or bend over while writing or reading.

Don't worry, but if worry you must keep the forehead smooth—don't wrinkle it. Don't wear tight shoes. They make a young face look old, drawn and wrinkled in a few hours.

Don't neglect the ten minutes' rest during the day, with the feet raised. It gives the whole body a great sense of repose and works wonders in smoothing out the lines of the face.

Don't speak with all the muscles of the face. It is very charming and captivating to be deeply, dandy in earnest, but facial grimaces form creases which in time will become fixed.

Don't let insomnia get the upper hand. By all means in your power try to break up the habit. Sleeplessness is often caused by unconscious hunger, and a cup of hot water or hot milk or a biscuit will often induce sleep.

Don't go too long without food. Hunger gives a strained look to the face. Now and then if one is fatigued a bite between meals will invigorate the whole system and give relaxation and repose to strained muscles and nerves.

### Women as Travelers.

Joseph I. Young, who has long been an attaché of the famous London Cook tourist agency, declares that the best lady traveler is the American girl. "As a rule," he says, "women are not good travelers. Some engage a berth on a first class steamer, find they are unable to start at the appointed time and wind up by sailing in a slow freighter. We have a good deal of trouble with the woman who reads a lot of guidebooks before she starts. She is usually so busy finding the proper page that she misses some of the best sights. Then there is the woman who travels with too much luggage. The experienced person provides himself with the smallest possible amount of such impediments, wears a serviceable dress with a few invisible pockets and is happy. The greatest luggage fiend is the English girl, who is liable to have as many as fifteen packages and wonders why she sometimes loses one or two. Taken as a whole, women are not so much of a trial as might be imagined. Nearly always they graciously recognize good attendance, and a pleasant smile from one of them goes further, even with a surly guide, than a handsome tip from some men."—Argonaut.

### Spirit of the Home.

There are dwellings where physical health, refinement, well to do circumstances and no trouble of any importance lack but one thing—the optimistic spirit of the mother. There is no use denying a fact which we all know. The spirit of the home follows that of the mother. If she is lively, so will

her household be; if she is pessimistic, the poison will sooner or later eat its way into every member of the family, especially into the masculine portion of it. Why? Because the mother's attitude toward life influences her sons more than her daughters. A woman does not influence another woman to any great extent mentally. Neither does a man influence a woman as she influences him. Unless through force or through love for him, woman will do pretty much as she pleases, but man is likely to be influenced at any moment by any woman, whether he loves her or not.

To stand correctly is an art in itself. Few women know how to assume a correct upright position. Five minutes' practice each day will enable you to solve the problem and give you a graceful carriage. Walk up to a wall, touch it with your nose, chest and toes, and you will have the correct position for standing. The hips should be thrown back, the abdomen in and the shoulders squared. This will give the stylish flatness that shows off the fashionable gown. A good exercise to give you the correct attitude is: Keep the heels together at an angle of sixty degrees, having the weight of the body resting on the balls of the feet, not on the heels. The chest should be thrown forward, the chin held in, the abdomen drawn back and the hips held back.

Miss Alice French—whose nom de plume, Octave Thonet, is familiar to all magazine readers—evolved her pen name in a curious way. "Thonet" was chosen from an inscription on a passing freight car and "Octave" was the name of a favorite school friend. She pronounces the name Tha-net, not Tha-nay.

Personally she is as good humored as her stories and is one of the most popular women of her community. She likes to compose on a typewriter, and those who know her say that if bereft of her fortune and pen she could make a fine living as a cook. She is a literary woman solely from inclination, however, as she belongs to one of town's wealthiest families.—Washington Post.

Into a quart bottle put a cupful of sea salt, half an ounce of camphor and half an ounce ammonia and fill it up with hot water. Let it stand twenty-four hours before using. Into a basin of water put a teaspoonful of this mixture and bathe the entire body, using a sponge or bath cloth. You will be surprised at the dirt that will come from the cleanest looking skin. The ammonia cleanses the pores and the
