

SIXTH WEEK OF STRIKE

Loss is Now Estimated at About a Million Dollars a Day.

MINE BOSSES JOIN THE STRIKERS

How Many Quit Work is Problematical. As Operators Claim to Have More Than Last Week, and Mitchell Says One Half Quit Work.

Wilkesbarre, Pa. June 17.—The sixth week of the anthracite coal miners strike began yesterday without a ripple to disturb the calmness of the situation. Rain fell nearly all day, which helped to keep the more than 150,000 idle men and boys indoors. Several reports of assaults on workmen and coal and iron policemen were received here from different sections of the region, but no one was seriously injured. Most of these attacks occur under the cover of darkness or at starting time in the morning.

The sum of \$30,000,000 will barely cover the losses of the five weeks of the anthracite strike, the losses now amounting to about \$1,000,000 a day. The figures follow: Losses to operators in price of coal (normal), \$13,100,000; loss to mine workers in wages, \$6,450,000; loss to employees, other than miners, made idle by the strike, \$1,600,000; loss to business men in coal region, \$4,200,000; loss to business men outside the region, \$2,500,000; cost of maintaining coal and iron police, \$350,000; cost of maintaining non-union workers, \$50,000; estimated damage to the mines, \$1,000,000. Total, \$29,250,000.

It was expected that yesterday would witness the refusal of a large number of fire bosses and other mine bosses to go to work, but the best information obtainable shows that the number of men who quit was not large. In fact several of the mining superintendents in this region asserted that they had more men at work at the engines and pumps than they had last week. President Mitchell and other labor leaders question this assertion, and on the contrary claim that nearly half of the men who were at work on Saturday refused to go into the collieries yesterday. Neither side gave out any figures.

Casper Clark, of Toledo, O., president of the International Team Drivers' Association, came in for some attention by labor leaders. He submitted to an interview, in which he said his organization would do all it could to help the striking miners. He said he will make a thorough canvass of the region to learn the sentiment of his men, which will help to guide the national association if the miners should ask the teamsters for help.

There was a revival of the story that the Central Pennsylvania soft coal miners will be called out very soon, but President Patrick Gilday, of the Central Pennsylvania district, threatened cold water on the proposition. He reiterated what he had said Sunday, that the Central Pennsylvania men would not be called out except as an extreme measure. He thought a curtailment of soft coal production in his district would be a more likely action. Some of the miners in his region, he said, have already suggested to him that the number of days of work in each week be cut down to three, four or five, thus cutting off a considerable supply of soft coal that is coming east.

Nothing was given out at state headquarters, President Mitchell saying that there was no change in either the anthracite or the West Virginia strike. The mining superintendents of the big coal companies and individual operators also had nothing new to report.

PRESIDENT DISCUSSED STRIKE

Roosevelt, After Conference, Believes an Early Settlement Will Be Made. Washington, June 16.—It was announced on Saturday night that the visit of George W. Perkins, a partner of J. Pierpont Morgan, to the president on Friday night had as its object a discussion of the coal strike situation. Whether the president sent for Mr. Perkins or the visit was a voluntary one is not known, but it is assumed upon the best of authority that the strike was talked of and its various phases thoroughly discussed.

It is also asserted that since his conversation with Mr. Perkins the president believes there will be an early settlement of the differences between the mine workers and the operators. No details of the plan of settlement have been made known.

Lightning's Strange Frank.

Pennsgrove, N. J., June 16.—During a violent storm lightning struck the home of Thomas J. Torton, the game warden. The course of the bolt was through Mr. Torton's bedroom, into the hall, across another bedroom, down stairs, and into the sitting room. The last apartment was completely wrecked, pictures being torn from the walls and a desk being neatly emptied of the books and papers which it contained.

Will Explain Cuban Payments. Washington, June 17.—Secretary Root has assumed full responsibility for the payment of money to General Gomez by General Wood during the American occupation of Cuba, and if congress asks for an explanation of the matter he stands prepared to furnish what he regards as the most convincing proofs that the payments were dictated by the wisest statesmanship.

Suit of Clothing Caused Suicide. Princess Anne, Md., June 16.—Because his father forbade him to wear a new suit of clothing, Daniel Webster Fitzgerald, 17 years old, yesterday blew off the top of his head with a shot gun.

ALMA OPPOSES SUGAR REBATE

He Informed President Roosevelt That Plan Cannot Be Carried Out.

Washington, June 17.—President Palma, of Cuba, has indicated to President Roosevelt his conviction that the rebate proposition relative to Cuban sugar would be not only very objectionable in itself, but would be extensively expensive and almost impossible to carry out in the distribution.

It is not stated how this proposition was communicated to President Roosevelt, but it is assumed that Secretary Day was the medium having been acquainted by Senor Quesada, the Cuban minister, of President Palma's opinion on this subject. Should it become apparent that there is no possibility of an agreement between the senate and house upon the pending reciprocity propositions, then the president probably will endeavor to simplify the problem by dropping the issue out of the calculation and negotiating a treaty directly with President Palma. It is true that such a treaty would require the approval of two-thirds of the senate, but it is believed that under the changed conditions this would not be impossible of attainment. At any rate, the situation would be clarified by the omission of the house from the calculation, and hence it is that the project is being earnestly considered.

Several senators, who have a knowledge of business in the senate, said that they would be adjourned by July 1, whether or not an agreement was reached on the Cuban question. The advocates of reciprocity say the Republican conference tomorrow will determine what can be done. When it is known just what the Republican members of the committee offer, it is believed it can be determined how many persons can be counted for and against it.

KING EDWARD IS ILL

England's Ruler Took a Chill While Viewing Torchlight Procession.

London, June 16.—King Edward is suffering from a chill, which has prevented him from attending yesterday's church parade of the Aldershot garrison. The chill came as a result of the king's prolonged stay outdoors on Saturday night upon the occasion of the torchlight tattoo at Aldershot. The chill is a slight one, accompanied by symptoms of umbago.

The weather Saturday night was extremely cold, and it rained at intervals before their majesties left the brigade ground. King Edward returned to his apartments chilled from the unwanted exposure. These reports of his majesty's illness have naturally caused apprehension, but there is apparently no reason to anticipate serious results.

London, June 17.—The fears of the public over the alarmist reports that the king was seriously ill were laid at rest late yesterday afternoon, when his majesty, accompanied by Queen Alexandra, arrived at Windsor Castle from Aldershot, having made the journey in a motor car. He showed little or no traces of having been unwell. King Edward bore the journey to Windsor well, but it was decided that he should not go to Ascot. Queen Alexandra, however, accompanied by the Prince and Princess of Wales and other members of the royal family attended the races in state.

The Prince of Wales, conversing with the mayor of Windsor upon his arrival there, said: "King Edward caught a chill in the stomach; he is much better, however, although he will have to be careful. His majesty is still troubled with slight pain."

TRAGEDY AT COATESVILLE

Widow Shot By Suitor, Who is Also Killed in Struggle For Weapon.

Coatesville, Pa., June 16.—Mrs. Rachel Sahlor, a widow, was yesterday shot and instantly killed by Harry N. Ricer, of Newcastle, Pa., who was also killed by a bullet from his revolver while struggling with another woman for possession of the weapon. The tragedy, it is said, was the result of a quarrel. Ricer was regarded as Mrs. Sahlor's accepted suitor. He appeared at the house and demanded an interview with Mrs. Sahlor. She declined to receive him and was dismissing him at the door, when he drew a revolver from his pocket and shot her through the heart. He then, it is claimed, aimed the revolver at Mrs. Ernest, who grappled with him. During the struggle the pistol was discharged, the bullet taking effect in Ricer's head, killing him almost instantly.

Seven-Year-Old Wing Shot.

Baltimore, Md., June 16.—Jesse Poplar, Jr., 7 years old, of Havre de Grace, surprised the members of the Baltimore Shooting Association yesterday by killing 15 out of 20 pigeons at 18 yards rise. Four of the five scores last fell dead out of bounds. His father is a well-known duck shooter on the Susquehanna flats. The boy joins him occasionally, and has a record of 16 ducks on the wing for one day's work in the sink box. The little fellow uses a 28-gauge gun, and experts were surprised to find that he was handicapped by having a nine-pound pull on each trigger.

Suicide From Brooklyn Bridge.

New York, June 16.—A young man who was a passenger on a Brooklyn bridge car last evening suddenly left his seat and sprang over the bridge rail and into the river below. The body was not recovered. Policeman Dorn was the nearest person to him when he jumped. Dorn saw him alight from the car, and, divining the stranger's purpose, started after him. The stranger said: "Don't you touch me," and then, crying out "Good bye," went over the rail into the river. His body reappeared only once after the plunge.

Fainting Spells

Are peculiar to women. Men rarely faint. Many women are liable to what they term "fainting spells," and this liability is always most marked at the monthly period. This alone is sufficient to connect the "fainting spell" with a deranged or diseased condition of the womanly organs. The use of Dr. Pierce's Favorite Prescription cures irregularity, heals inflammation and ulceration, and stops the drains which weaken the body. It builds up the nervous system, increases the vital powers, and so removes the common causes of faintness in women. There is no alcohol in "Favorite Prescription," neither does it contain opium, cocaine, nor any other narcotic.

Let no dealer, for the sake of making an excessive profit out of your trade, delude you into buying a substitute for Dr. Pierce's Favorite Prescription. Thousands of women who had been treated in vain by doctors, and had squandered large sums uselessly in other medicines, will testify that there is nothing "just as good" as "Favorite Prescription," because there is nothing else which helps so promptly and heals so permanently.

Every woman should send for a FREE copy of Doctor Pierce's Medical Adviser. Send 21 one-cent stamps to pay expense of mailing ONLY for the book in paper covers, or 31 stamps for cloth, to Dr. R. V. Pierce, Buffalo, N. Y.
