Elkin the "plow boy" defeated! well he's in the same boat with our candidate for superintendent. It's bad when one man owns the state and another the county.

Plenty rain and the corn is coming-

but too late for the grass. It is rumored and not without foundation, that H. thunder I ever heard since I know the A rattlesnake was killed last week in the west of the valley that measured 3 feet and 9 inches; only had five rattles.

succeed, try again. No news yet from Will Shesley; the cabbage setters are anxious to hear on account of getting his cabbage, as cabbage raisers wish to know how much he needs for his winter supply.

The program ting their first crop of hav, to give the well suited to the occasion, the music crop. was well rendered, each one performed their part with zealous care with the view of making it an interesting as well as an entertaining exhibition of Sabbath school talents. Much credit is due Rev. Dillon, for his untiring efforts in behalf of the children and the members of his

charge. Considering the comforts of a place of worship and the length of time that Black Oak chapel has been in use it is highly necessary that it should be greatly repaired, or a new one erected instead. If the membership with the assistance of the good thinking people of the community would make an earnest effort, great advances toward a new building would be made.
