EDITORIAL,

DID you miss your Centre Democrat last week?

Congress adjourned in time to celebrate the Fourth of July.

Ir now is up to Roosevelt to dig the Panama Canal, or some other ditch across the isthmus.

4000 coffins for the Philippine army were shipped last week. That is one of the fruits of imperialism.

DURING the heated term it is a mistake

DURING the past two weeks sentiment has shown a decided change towards Pattison. It is early to make predictions, but the Pattison boom has made a good start.

In addition to Clement Dale, Esq., and Dr. J. M. Lock, as candidates for consome other political pags joining the race on the home stretch. More infor- and England. The treaty of 1871 promation will be given in a week or two.

GOVERNOR STONE was very much neglected-yea, slighted-at the Pittsburg Fourth of July celebration, last Friday. He was neither cheered nor placed in a carriage with other dignitaries. Candidates Pattison and Pennypacker rode in the same carriage.

DURING the past six months the circulation of the Centre Democrat averaged over 3100 copies per week. The growth of the paper in recent years is proof that it is in public favor. In a year from this date we are confident there will be more patrons on our subscrption list.

THE Indianapolis "News" makes the statement, well within the bounds of truth, that: "The money we have spent in the war in the Philippines would, if spent in irrigation in the west, have brought into existence an empire whose trade would have amounted to more than that of the Philippines will ever be." It would have built a ship canal from Lake Erie to the Ohio river, and one from Lake Michigan to the Mississippi river, as well as slack-watered the Ohio river from Pittsburg to Cairo.

THE nomination of Pattison at Erie was the work of a popular sentiment from every section of the state. Public affairs in this state are in a peculiar plight. The people are looking for relief and don't know whom to trust. There are plenty of men in the state of equal ability and integrity, but are practically unknown to the masses, who associate with his name these rare qualities, from past experience. They know this man; they are sure of his qualifications and that is why he was nominated, and we believe will be elected. He gave the prople two clean administrations, and will do so again if they desire him to fill the Gubernatorial chair at Harrisburg.

To offset the odium that the machine wears for having a boss in Quay, the organs speak of Guffey as the democratic boss. Well, Mr. Guffey is all leader, not a boss, and the party feels proud of him. Guffey never dictated nominees, in state and counties, as does the machine boss. Guffey never said who must be nominated, what laws must be passed to the injury of the people, as the ripper bills, and such. The machine's boss only recently brought out Elkin as a candidate for governor, then commanded him to withdraw and ordered his slaves nominate Pennypacker, and ordered two odious machine men to be placed on the ticket with Pennypacker-and the boss was obeyed. Thus has the boss of the machine done and been obeyed by his slaves for twenty years. There is nothing of the kind to be found in the career of "boss" Guffey. A boss is all right when he bosses for the best interests of the public and that is the kind of "boss" Guffey has been.

NOT A DUTCHMAN.

Amusing to the Centre Democrat was it to notice that the trust organs, hard up for material to guil voters for Penny- streams. packer, are resorting to name-twisting and attempting to pass off Pennypacker as a Dutchman, German, or both. Now "Pennypacker" does not have any Dutch or German in it. If Pennypacker came from the Dutch or Hollanders, he would have his name prefixed with "Van" reading or writing it Van Pennypacker, or something like that. Then if he is of Dutch nationality, he tried to cover that up too to anglicize himself and dodge his Dutch blood. If he is to be palmed off as a German, then he is in the same hole, for, coming of that nationality, his name would be "Pfennigpetzer," or "Pfenniggeitzer,"-take your choiceand wanting to pass himself as an English plant, dodge the German, by anglicizing his name to read "Pennypacker." In view of this it would show that Quay's cousin felt ashamed of his Dutch or good old German blood, and tried to varnish himself as a Britisher, which is the rut all the American snobs and snips are entering and considering anything American far below that which is British. The idea of a candidate for governor, Pennypacker, set up by the party of the trusts and skinners of the laboring and common business classes, being palmed off as one who belongs to their ranks! There is nothing in a name, it is true, but we often find folks so high toned as to be ashamed of their name and twist it into something highsounding. But if the name "Pennypacker" has anything significant in it, the machine that has been the packer of stolen millions of the taxes of the common classes, could not have chosen a more fitting cognomen

The machine drivers allege that Pennypacker belongs to the race of Pennsylvania's honest, plain class of governors of the good old days, namly, Snyder, Shultz, Wolfe, Shunk, Bigler, all to get excited over politics, but the people are pure German names, and not one are doing some sober thinking about feeling ashamed of his name by translasending Robt. E. Pattison to Harrisburg | ting it into British to hide his nationality -proud of their race.

for their leader than "Pennypacker."

The London Times admits that horses and mules furnish the key to the situation in South Africa, and for these horses and mules they depend on their agents in the United States. The animals are furnished by this republic to be used for the unholy purpose of crushing out two other republics in gress in this county there is promise of | South Africa, and in plain violation of the treaty between the United States vides that each, as a neutral ground "is bound not to permit or suffer either belligerent to make use of its own ports or waters for the purpose of removal or augmentation of military supplies." In plain violation of this treaty and the still plainer violation of the sentiment of justice, freedom and humanity, our government has knowingly permitted these supplies to be furnished to England while turning a deaf ear to the Boers, who are engaged in fighting as holy a cause as that which our forefathers waged against the same oppressor in 1776 Where is our boasted spirit of freedom and fairness? Our orators shouted themselves hoarse and our editors dip ped their pens in blood to proclaim against the cruelties of Spain toward Cuba and to urge our government to declare against such inhumanity; yet we allow England to perpetrate worse horrors against a better people without word of protest except on the part of a few who are termed "Aunties" or "Grandmothers." In fact, we are committing the same outrage ourselves against the same people that Spain was trying to hold in submission by the bayonet. "Oh, shame, where is thy blush?

> move on to show that her sense of justice is not entirely dead, though the crimes that are boldly perpetrate in the Quaker City against good government would lead to the opinion that Justice is not only blind, but dear dumb and paralyzed. A few days ago a negro killed a woman and two children. The crime was committed on Tuesday at 11 o'clock, and he was arrested the same afternoon. The co oner on Thursday at 10.55 committee the negro to await the action of grand jury. At 1.30 on Friday the grand jury indicted him for murder and at 1.55 he was arraigned before the court for trial. He pleaded guilty and within an hour, after a few w nesses were heard, he was sentenced to death and a messenger was on the way to Harrisburg to ask Governo Stone to fix an early day for the cution. This unseemly haste in dea ing with a black villain would not de serve notice did it not stand out strong contrast with Philadelphia usual method of dealing with man of her white villains. Crimes such that committed by negro Lane are revolting that they quicken the pulsense and render it more keenly ally to the horrible character of such saults against society; but the ma flagrant crimes against good govement in the Quaker City seem to have so deadened the public conscier. that good citizens condone the o fenses and help to keep the perpetri tors in public office instead of drivin them from the places they disgrace If Philadelphia justice will now tal hold of those who are plundering the city in various ways and stuffing be lot boxes to defeat the public will, all

Another once lively lumber settlement has dried up, Ingleby station, east of lic. Coburn, for a number of years a lively lumber hamlet, with perhaps a dozen families, now has two families left. Mr. Barker, a little ways above, with his picturesque and artistic home and farm buildings not counted in. The lumber having been exhausted through operations in the last fifteen years, accounts for the loneliness of the once lively point. Poe Mills, only two miles below, is in the same predicament, from a "playing out" of the lumber operations, and thus it is with a score of former lumber hamlets in the county; and in a few years a. m., .11 inch.
