## OUR HISTORICAL REVIEW

### Some Centre County Soldiers in the Mexican War

#### STAFF OFFICERS 45th REG.

#### Who Made a Good Record During the Civil War—Tax Payers in Miles and Haines Twp in 1798—Many Familiar Names

**SOLDIERS IN THE MEXICAN WAR:**—In March 1847, John I. Gregg, from private in Second Pennsylvania, was promoted second lieutenant in Eleventh Regiment of Infantry, and returning home was placed upon recruiting service. James Fulton, Jr., was shot while standing guard in the summer of 1847. James Shaw, who had a finger shot off at Cerro Gordo, died of dysentery. He was a printer of Bellefonte. His mother resided near Millheim. Henry L. Armor died of dysentery at Puebla, July 14, 1847. In Capt. Irvin's company were Sergt. John A. Bayard; D. C. Kitchen, shot through the thigh with a musketball, and promoted corporal for his bravery; Wells, Fulton, Campbell, Neff, Rager, Diehl, Grossmeyer, William Ragar, William E. Erb, of Ferguson township. Daniel Poorman and William Burchfield belonged to the Columbia Guards, a Danville company; also George Wingate, who was born and raised in Ferguson township, and died at Jalapa, May 1, 1847, of brain fever, aged twenty. Daniel Poorman, formerly of the Centre Guards, died at New Orleans in January, 1848. He had been honorably discharged on account of sickness, and was on his way home. Dr. James Louimore died Sept. 28, 1844, soon after his return from Mexico; also Henry Eckley, early in August. The Marion Infantry of Penn's valley tendered their services to the Governor for the war, but were too late to be accepted.

#### Nittany Valley Reunion.

Remember that on Saturday, July 19th, the "Old Folks' Reunion of Nittany Valley" will be held at Genzel's grove west of Zion and a large attendance is expected from far and near. There will be an abundance of good music and choice amusements for the occasion. It will be a gala day for young and old.

#### Money Burned.

The house of Daniel Logue near Driftwood was destroyed by fire on Tuesday while all of the family were absent. A couple of chairs and a sewing machine were the only articles their neighbors were able to save. A trunk, containing \$100, was burned. It is believed to be the work of an incendiary.

#### Death of a Young Man.

Emmon Braucht, who was operated on for appendicitis in the Lock Haven hospital a few days ago died at noon Wednesday. He was about 25 years old. He was a native of Coburn, but he had been making his home with Station Agent Braucht at McElhattan recently. His parents and brothers and sisters survive. Remains were taken to Coburn for interment.

#### SPECIAL OFFER:—The Centre Democrat will be sent to any new address during the campaign and until Jan. 1903 for 25 cents.

Don't send away for printing when your home offices can do it as well.

## BUSINESS MENS' PICNIC

### Centre and Clinton Counties Will Combine Again

#### AT HECLA PARK, AUGUST 21st

#### List of Committees Appointed for Making all Necessary Arrangements—Will be a large Gathering—Meeting Held in Bellefonte.

The good people of Centre and Clinton counties have concluded to combine in holding a union Business Men's Picnic at Hecla Park, this year on Thursday, August 21st. Last year the picnic failed to materialize and the friendly associations of former years were sadly missed.

Tuesday evening representatives of the two counties assembled at the Bush House and transacted the following business:

The president, T. A. Shoemaker, being absent, the meeting was called to order by J. C. Meyer, secretary. G. W. Mason, of Lock Haven, was chosen to preside. It was decided to hold the picnic at Hecla on Thursday, August 21, and if it rains on that day the picnic will be held the following day.

#### COMMITTEES APPOINTED

The following committees were appointed: On speakers—Hon. W. C. Heinle and Hon. C. A. Mayer.

Amusements—J. D. Sourbeck, of Bellefonte; T. C. Shearer, of Lock Haven. Music—O. E. Miles, Milesburg; P. P. Rittman, Lock Haven.

Finance—T. J. Small, Mackeyville; H. Sechler, Bellefonte; G. W. Mason, Lock Haven.

Printing—J. I. Olewine, Bellefonte; G. W. Fredericks, Flemington.

Closing stores—George Loder, P. P. Rittman, Lock Haven; Jerome Harper, H. C. Yeager, Bellefonte; J. A. Smyth, Renovo; A. J. Graham, Dr. F. K. White, Philadelphia; C. C. Holmes, State College; A. Weaver, Howard; C. S. Whitman, Logantown; N. H. Yearick, Walker; A. A. Frank, Millheim; W. H. Noll, Pleasant Gap; D. H. Stoner, Mill Hall; A. A. Fletcher, Nittany; C. P. Long, Spring Mills; Frank Smith, Centre Hall.

Vacancies for the executive committee were filled as follows: D. H. Stoner, Mill Hall; C. H. Bressler and Associate Judge W. S. Harris, Lock Haven; J. A. Smyth, Renovo; A. J. Graham, Philadelphia; S. W. Smith, Centre Hall.

It was decided that Secretary Meyer, J. W. Conley and G. W. Mason should be appointed a managing committee, and that the perfecting of the details for the picnic should be placed in their hands.

The following attended the meeting: Frank Warfield, of the Central railroad; J. C. Meyer, J. W. Conley, J. D. Sourbeck, J. C. Olewine, G. W. Fredericks, G. W. Mason, R. H. Stewart, S. H. Benson, T. J. Small, Phil Foster, H. A. Moore, C. P. Long, Hon. W. T. Young, Hon. J. W. Merrey, J. C. Miller, Bellefonte News; C. R. Katz, Centre Democrat; Francis Spear, Keystone Gazette; G. P. Smith, Jersey Shore Herald; Frank Kinsloe, Lock Haven Express; C. H. Bressler, Lock Haven Times; W. M. Robison, Lock Haven Democrat.

#### Bitten by a Rattlesnake.

Ellis Eiters, who resides at the mouth of Pine Run on Boak's Park, one day came upon an exceptionally large and finely marked rattlesnake kind, and being provided with a stout cord he made a loop and dropped it over the head of the snake and then drew it tight, but by some mishap he allowed it to have too much slack and the reptile sank its fangs into his right thumb.

A number of railroad trackmen working near where the accident happened, came to his assistance and at once began to douse him with whiskey so liberally that they came very near killing him. His arm got as black as a hat up to his elbow and though he has suffered excruciating pain ever since it is believed that he will escape further inconvenience.

#### Dr. Wolf's Golden Jubilee.

It has been called to the attention of those in charge of the arrangements for the celebration of Dr. Wolf's fiftieth anniversary as a teacher to be held in Allison's Grove, Spring Mills, August 7th, 1902, that an impression prevails that only former pupils are invited. This is a mistake, all former pupils, their families and friends will be cordially welcomed. This will be a basket picnic and reunion and those who do not care to be bothered taking their lunch with them can obtain meals on the grounds.

#### Heroism of a Woman.

On the afternoon of the 9th, the barn of Geo. Solt, of Pine Glen, was struck by lightning and burned to the ground. His oldest little boy was knocked insensible by the lightning. When Mrs. Solt saw that the barn was all ablaze, she ran through the pouring rain to let a colt and four hogs out that were shut up in the lower part of the barn; she threw the doors open and by that time the shed was all ablaze. Throwing her apron over her face and her clothes being wet with the rain, she escaped with only one side of her hair burned off. The flames then caught another building; she took her husband's broad ax and knocked the boards out of the end, carried water and put the fire out. Being a nervy little woman she had the pluck to do all that she could; she was all alone, Mr. Solt being away at a sale, and 4 miles from neighbors.

#### Choked by a Burglar.

At Beech Creek, Saturday night, a burglar rapped at the door of Miss Fannie Nestlerode and demanded admittance. Miss Nestlerode, of course, refused to let the man in. The ruffian then broke in the door, caught hold of the lady and choked her severely. Miss Nestlerode had screamed several times while the man was battering in the door, and while he was choking the lady, men in the neighborhood were heard hurrying toward the house. The ruffian made his escape without taking anything or without being caught. He has not been heard of since.—Clinton Democrat.

#### Struck by Lightning.

Jacob K. Rider, a prosperous farmer of near Gatesburg, this county, and well known in this vicinity, was struck by lightning and instantly killed during the storm which prevailed in that section Wednesday afternoon, 9th. Mr. Rider was in his barn at the time and with a harpoon fork on his shoulder he was in the act of closing a door when he was struck. No one else was in the building at the time, and strange to say, the building was not damaged. Mr. Rider was in his 75th year of age and is survived by his wife and one daughter, Mrs. W. E. Eilenberger.

#### Social and Entertainment.

The ladies of the Bellefonte Lutheran church will hold a social in the Sabbath school room on Thursday evening, July 24. Ice cream, cake, and other refreshments will be had, and a box social and entertainment given. All invited, to encourage it for the benefit of the church.

## SEEKING A SHORTER ROUTE.

### New York Central Constructing Lines, Reach Eastern and Western Points.

A telegram sent out from Pittsburgh says: The best posted railroad men here say the New York Central and Hudson River railroad is seeking another entrance into this city which will give it a more direct outlet than it now has over the Pittsburgh and Lake Erie at Ashtabula. By the present route the distance is nearly 450 miles, while by the new route the distance would be 100 miles.

The Pennsylvania division of the Central leaves the main line at Lyons, N. Y., and runs south to Jersey Shore, connecting with the Beech Creek and the West Branch Valley road. The Beech Creek has extended to Patton. From Carwensville a branch is being surveyed up the headwaters of the Susquehanna to Mahaffey, which will be an extension of the West Branch Valley. This gives the New York Central a river grade to the sea. Recently the New York Central has been buying immense tracts of coal in southern Armstrong county. The coal roads are of the most modern and expensive scale, and undoubtedly prove that the New York Central will run to Pittsburgh from the Armstrong county road by way of Braddock. At Braddock entrance to this city would be easy over the Pittsburgh, McKeesport and Youghio-geny railroad.

## AN AUTHENTIC DESCRIPTION

### Of the Eruption of Mount Pelee and its Effect.

#### CARRIED DEATH TO 40,000.

#### Annihilated an Entire City in a few Minutes—An Awful Manifestation of Nature's Forces—Great Violence of the Eruption.

May 8th the Eruption of Mount Pelee occurred, which is located on one of the islands of Antilles, south of Porto Rico. Since that time numerous descriptions of the eruption of the volcano were published as given by some of the few survivors. In the report of Robert T. Hill, of the United States Geological Survey, just issued, all the facts from surviving eye witnesses are systematized and the story of that frightful event is told in the following general manner:

With a terrific roar the central crater of Mount Pelee ejected a cloud of inky blackness to a height of 15,000 feet, where it spread in the shape of a mushroom; meanwhile lightning flickered through its dark interior. Two minutes later another cloud came from the mountain—not from its true crater, but from a fissure in its side located midway between the peak of Pelee and the doomed city. This cloud did not ascend, but was ejected horizontally and spread over the surface of the ground, following the configuration thereof; and this was the shapeless thing that carried death to 40,000 human beings. The formless monster rolled down the mountain side and over the city and out into the night where the ships rode at anchor; and within three minutes after its first appearance it had enveloped all and completed its work of annihilation. Seen from the seaward the thing appeared to consist of two great horizontal puffs of brownish smoke, the convolutions whereof surged and rolled as they advanced. From the landward it appeared like a great sheet of flame.

The visible component of the cloud was a dense mass of very finely divided and intensely hot volcanic ash; among its invisible components were superheated steam, sulphuretted hydrogen and an unidentified explosive gas. Moreover, the cloud appears to have been highly charged with electricity. Death came to its victims in many shapes. Some were asphyxiated; some died from inhaling the hot ashes or steam; others were scalded; still others were burned or seared by lightning, and about one-half of them were annihilated—that is the only word descriptive of the fact. A tremendous force was generated in the cloud, whether by the ignition of an explosive gas or by electric energy cannot be determined—probably by both means.

The violence of the force was shown by the dismounting of guns in the forts of St. Pierre, the hurling of a large marble statue fifty feet from its base, the uprooting of trees and the destruction of heavy masonry.

The blast made kindling of the steamer Grappler, wrecked the Koraima and raised the steamer Rodan out of the water, breaking her anchor chains and enabling her to escape. It drove the water of the Bay of St. Pierre out to sea, causing a return wave which incised the beach, enlarged the mouths of and deepened the channels of streams, in one instance to the extent of twenty feet. The explosion was accompanied by an exhaustion of the oxygen from the atmosphere. "It was not hard to breathe until all was nearly over, and then we could get no air," was the testimony of one highly intelligent witness; and he is corroborated by many who were on the outer circle of disaster, all stating that though not suffocated by ashes nor by detectable gases, they could not breathe. Finally, death did not come instantly to all the victims, as was generally believed; on the contrary, many persons were seen running about on shore for some time after the eruption.

In our next issue we will give a detailed description of scenes along the path of destruction, by a prominent writer.

## PINEY OIL COMPANY DISBANDS.

The Piney Coal and Oil Company held its final meeting in Centre Hall Friday, 27th ult. The company was formed in 1865, by the following: Peter Hoffer, D. C. Keller, Andrew Gregg, George Durst, Lafayette Neff, Lewis Hess, Centre Hall; Gibson Larimer, Hon. C. T. Alexander, Bellefonte; David Gilliland, Linden Hall.

The capital invested was \$15,000.00, divided in fifty shares of \$300.00 each. The property consisted of a tract of land in Clarion county, containing 1.6 acres. No attempt was ever made to develop the property and for some time past the land was leased for the taxes.

N. B. Spangler, Esq., secretary of the reconstructed corporation, sold the Piney Coal and Oil Company's property according to a resolution passed at a meeting of the company held May 25th, 1901, for the sum of \$1,300.

After paying expenses the shareholders received about 8 per cent. of the original money invested.

The officers and directors of the company were H. Y. Siltzer, president; N. B. Spangler, secretary; directors—B. D. Brisben, Centre Hall; S. M. Swartz, Tusseyville; Rev. S. G. Shannon, Pitman Grove, N. J.

## IN UNION COUNTY.

From last week's Lewisburg Journal: Apples will be scarce this year. Pears will be a fairly good crop, although there are many trees that are almost without fruit. Peaches are generally plentiful and it is expected that the crop will be a good one.

The river has risen nearly ten feet, which is an unprecedented rise for July. The ground is thoroughly saturated by the many rains and streams are bank-full, with springs gushing out in great quantities.

The potato crop in many sections is reported way below the average, and there will be almost a failure judging from what is learned where the tubers have been dug up. Continued drought and protracted wet spell are assigned the reason for the shortage.

The new Lutheran church will likely be dedicated some day in September at a time yet to be determined upon.

The corner stone of the new Reformed church was laid last Sunday afternoon with very impressive ceremony, which was witnessed by a very large attending crowd of people.

Send the Centre Democrat to some relative or friend during the Campaign, for 25 cents to Jan. 1903.

## FACT, FUN AND FANCY.

### Bright Sparkling Paragraphs—Selected and Original.

#### JULY DAYS.

Softly drone the honey bees;  
Blossom scented is the breeze;  
Golden is the grain.  
Over all the faintest haze  
Rests, and songbirds pipe their lays  
In a sweeter strain,  
From the meadows comes the scent  
Of the new hay, clover-bleat—  
In the topaz sky.  
Fleecy clouds, like ships at sea,  
Floating onward lazily,  
Or at anchor lie.

Nature now is doubly dear  
To my soul, for doubly near,  
At July's best,  
She has come, and coming brings  
Surcease from all weary things—  
Blissful sense of rest!  
—John Kendrick Bangs

An automobile is no good unless it is tired.

Time is no object to the fellow who pawns his watch.

It is better to hit the nail on the head than on the finger.

There's always a market for the man who makes his mark.

Pride is something that keeps a woman looking her age.

Many a reputation has been made by a hustling press agent.

It isn't every man who can save his money and remain popular.

When a man talks through his hat a woman laughs in her sleeve.

In the business world there is often such a thing as a successful failure.

A fellow doesn't have to be very strong in order to break a promise.

Cod liver oil hasn't half so bad a taste as the man who wears a sack coat with a high silk hat.

A man doesn't have to own an automobile in order to run down his neighbors.

When a man employs a homely typewriter it's a pretty sure sign that he has a jealous wife at home.

Some people who are too lazy to work, too honest to steal and too proud to beg manage to live on credit.

It sometimes happens that after eating his cake the small boy makes the painful discovery he still has it.

Nature now is doubly dear  
To my soul, for doubly near,  
At July's best,  
She has come, and coming brings  
Surcease from all weary things—  
Blissful sense of rest!  
—John Kendrick Bangs

An automobile is no good unless it is tired.

Time is no object to the fellow who pawns his watch.

It is better to hit the nail on the head than on the finger.

There's always a market for the man who makes his mark.

Pride is something that keeps a woman looking her age.

Many a reputation has been made by a hustling press agent.

It isn't every man who can save his money and remain popular.

When a man talks through his hat a woman laughs in her sleeve.

In the business world there is often such a thing as a successful failure.
