Bravo ladies. —Dr. Alex. R. MacKenzie and Miss Virginia K. Orris, proprietor of the Eclectic institution, both of Lock Haven, were united in marriage in Clearfield, Pa., July 12, 1902, by M. S. Mr. Hazel is a sturdy young man and will make a success of this undertaking. —Up at the water works things are in topsy-turvy shape owing to some improvements and experiments. Some time ago a party offered to put in a new water wheel that would pump a great deal more water than the old equipment, that has been doing service there for the past twenty-five years. He claimed that with his outfit about twice as much water could be put in the reservoir than formerly by the water power. Upon that guarantee he went to work and the past week it was tested and was found wanting. The turbine put in by him is too large for the flow of the spring and would drain it in a short time. He evidently made a bad calculation and it is fortunate that the boro is put to no loss on that account.

At camp he generally is lionized over the event. —Tuesday noon a thunder gust was in sight west of town, but only gave us a light sprinkle. In the west end of the county it was severe and at Tyrone it was like a young cyclone and rain came in torrents. —The Ladies of St. John's Lutheran church will hold a Box Social in the lecture room of the church on Thursday evening July 24th. Solt, formerly of Centre Hall, occupies a farm house on the Gettysburg battlefield, and Bellefonte's Co. B has the pleasure of being camped close to Solt's home. Grenoble, formerly of Spring Mills, also lives at Gettysburg. —Our boro authorities are looking after the gutters, sewers, and streets and endeavor to better the same against the flooding of pavements and squares as was the case with the downpour of rain on Sunday afternoon, two weeks ago, when the gutters and sewers could not carry off the flood of waters, and caused a deposit of mud, stones and rubbish over sidewalks. —James Stine, a blind man, keeps a small store on North Thomas street, and on Tuesday two boys, aged about 18 years each, took advantage of his affliction. While one was making a purchase to hold Mr. Stine's attention the other swiped the cash from the money drawer. The loss was discovered sometime later when Mr. Stine wanted to make change. Part of the money was recovered later. The boys were a young Watson, of Coleville, and Lindsey, from Huntingdon.

RECENT DEATHS.

WM. MILLER:—an old resident of Milesburg, died Thursday evening, aged about 65 years. He has been an invalid for many years. He is survived by his wife but no children.
J. A. LUKENS:—of Phillipsburg, passed away during Sunday night, being sick less than a couple of hours, from heart failure. He was 73 years of age. He is also survived by his aged wife and five children. Mr. Lukens was a contractor and builder by trade.
MRS. W. L. ROYER:—of McConnell, Illinois, died at Lena, Illinois, a few days ago, aged 53 years, 6 months and 24 days. Mrs. Royer was the daughter of Mrs. Lot Evans and was born near Potter's Mills. The deceased is survived by her husband and four children.
ELIAS KLINGER:—aged about eighty years, died at his home in Manhattan, Illinois, June 25th, after an illness of over a month, from paralysis. He was formerly of near Woodward, but many years ago moved to Illinois, where he prospered and, like here, was a most excellent citizen.
MRS. HANNAH CROCK:—an aged widow lady who made her home with her son-in-law, Uriah Housel near McCalmont's lime kiln, died Thursday evening of infirmities incident to old age. Deceased was born at Howard, Centre county, 76 years ago. She is survived by two children, Mrs. Uriah Housel and Lincoln Crock, both of this place.
JOHN SCHREFFLER:—died at his residence in Pleasant Gap, Saturday, of cancer of the stomach. The deceased was about 75 years of age and is survived by his wife and seven children, six of them being married. Mr. Schreffler was born in Salona, and many years ago was a resident of Mill Hall for several years. Interment was made in the Pleasant Gap cemetery, Tuesday morning.
WM. ROBB:—died at his home at Roma, Thursday morning of last week, with diabetes. Deceased was a very influential resident of that community. Surviving him are his widow and the following children: John M., Charles H., David W., Edward, Toner, Edith and Clara. Interment was made at Roma last Saturday. Mr. Robb was about 61 years old and lived always in that section. In 1900 he was elected a jury commissioner of this county.
WM. HECKMAN:—a prominent citizen died at his home near Centre Hall, Friday evening aged 69 yrs, 1 m. He was a brother of County Commissioner Daniel Heckman, of this place. Deceased is survived by a wife and eight children. The funeral took place Tuesday afternoon from his late residence. Interment was made in the Heckman cemetery near Penn Hall. He was a native of Gregg township, and his parents were among the early settlers of the valley, and widely known. Honesty and integrity characterized the entire Heckman connection. They came from Dauphin county, and settled in Gregg township. He was the father of five sons and four daughters, Frank, George, John, Fred, and Clyde, the latter dead; the daughters are: Margaret, Emma, Saddle, Zora and Blanche. The deceased was one of a family of eight sons and four daughters, all born on the same farm homestead. His wife was a daughter of Absalom Roop, of Aaronsburg. The Heckman cemetery was one of the early burial grounds in that valley and was projected by the Heckman family at an early day; in it are at rest many bodies of the early settlers, and it is still the last resting place for others at the present day. The age of this cemetery can be imagined from the fact that the grandfather of the deceased is buried there, and with him bodies of four generations.
JOHN P. HARTER:—of Millheim, who had been seriously ill for a night a year

but some weeks ago showed signs of improvement, became worse again, and last week was taken to a Philadelphia hospital where an operation was performed on Friday when it was found that he was suffering from cancer around the intestines. His condition was pronounced critical and on Monday a telegram was received by his wife at Millheim that he might not live. Mrs. Harter departed for Philadelphia on Monday afternoon's train with the hope of seeing her husband before death came to his relief. He lingered until Wednesday noon when he passed away. The body will arrive at Millheim this morning. Arrangements for the funeral not known. His age is 45 years and 6 months. He is survived by his widow, a son Jessie M. and daughter Sadie B. By profession he was a dentist which he followed continuously, excepting three years, 1887 to 1890 when he was elected Recorder of this county on the republican ticket. In 1895 he located at State College where he resided until last spring when he returned to his home in Millheim. For several years past he held the office of Deputy Revenue Collector of this district. He was a man much esteemed wherever known.

WHAT CAUSED SCARCITY OF TROUT?

The trout fishing season closes with the end of this month. In this county, and all over the state, the catch has been less than ever before. Very few anglers could boast of large catches, and many could count a day's catch on the fingers of one hand, and some, perhaps not that. Heretofore to catch from 30 to 100 speckled beauties in a day was nothing rare. The question is, what has become of the trout? We do not believe that illegal fishing is the sole cause of the scarcity of this fish in our mountain streams. Perhaps the knights of the rod and line are not paying the same attention to stocking the streams with small trout from the state as in past years. This would be one cause. We think there was a lack of attention in the past two or three years to this important duty. We know that this year there was not the usual number of trout fry shipped into our county, and, for the reason, that so few orders were sent to the fish commissioners for trout fry. Some think the frequent floods this year have carried the trout off into the rivers. This may be true, but we do not take much stock in that theory. Instinct will teach trout to keep in their native streams, irrespective of floods. The Centre County Game Association should give this matter some attention. The Association should see that trout fry in abundance are ordered for every mountain stream in our county, and notify lovers of this sport of particular days when a consignment of young trout may be expected, and have the promise from such persons that they will attend to having the fry placed in the streams as per directions—we believe no angler, of whom such a request is made, will refuse to attend to having your trout placed into the streams they are intended for, or see to it that some one does it.
