THE CENTRE DEMOCRAT, BELLEFONTE, PA., JULY 24, 1902.

President Mitchell's Plan Adopted by National Convention.

PUBLIC APPEAL FOR \$1,000,000

Assessment Levied On Members Now at Work Will Raise \$300,000 a Week.

Soft Coal Men Will Violate No Contracts.

Indianapolis, Ind., July 21 .- The national convention of the United Mine Workers of America adjourned Saturday afternoon after unanimously adopting the plan offered by President Mitchell for raising a fund of \$300,000

TOMLINSON HALL. (Where Miners' Convention Was Held)

a week to aid the striking anthracite miners. A few changes were made in Mitchell's plan by the special committee, but they relate only to the method of assessment. The committee's report was as follows:

First-That the national secretary treasurer of the United Mine Workers be authorized to appropriate -\$50,000 from the funds of the national treas. urer for the benefit of the districts 1, 7 and 9 (anthracite districts),

Second-That all districts and subdistricts and local unions be asked to donate whatever they can afford for the support of the strike.

Third-That an assessment of 10 per cent. be levied on earnings of members where check system is used and at other mines of \$1 a man every week. This assessment is not to be made against members of union now on strike, but to commence when strikes are over.

Fourth-The assessments to be paid direct by the local unions to Secretary Treasurer Wilson.

Fifth-That 25 per cent. be deducted from the salaries of all national district officers and organizers.

Sixth-That the assessment begin from July 16.

Seventh - That all contributions made by the national organization be distributed to the anthracite districts in the ratio shown by the last coal reports.

Eighth-That each local union be requested to aid as far as possible in securing work for men now on strike In this connection the good offices of the American Federation of Labor will he requested.

Ninth-That an address be submitted to the American people. The salient points of the address to

he American le are as

panies say they can, operations will be resumed at two of the mines in this region. The Malthy colliery of the Lehigh Valley Coal Company is about ready to resume the mining of coal. The superintendent says he has 95 men sure, whom he can depend upon to report for work when the whistle blows, and that they are nearly all ex-

pert miners. The strike leaders say it will be impossible for any of the collieries to start up, as the miners cannot be obtained.

JOHN W. MACKAY DEAD

Millionaire Succumbed to Heat Prostration at London Residence. London, July 21 .- John W. Mackay, the San Francisco millionaire, who

had been suffering from heat prostra tion since Tuesday last, died at his residence on Carlton House Terrace at 6.30 o'clock last evening.

Mr. Mackay's condition, as stated on Saturday, had improved, but the patient had a bad night, and yesterday morning a consultation was held by three physicians. Mr. Mackay grew worse as the day passed. He was unconscious most of the time and died very peacefully. The immediate cause of death was heart failure. The right lung was found to be congested, and the sypmtoms indicated pneumonia.

Mrs. Mackay, her mother, and Coun tess Telfener were present when Mr. Mackay died, and Princess Galatro Colonna arrived from Paris a half hour after her stepfather's death.

Mr. Mackay was the last surviving member of the four Bonanza kings. Flood, O'Brien and Fair, the other three having long since died.

DECLINED A JUDGESHIP

Senator McLaurin Refused Appointment Offered By President.

Oyster Bay, L. L. July 22 .- President Roosevelt is in receipt of a letter from Senator John L. McLaurin, of South Carolina, declining the proffered appointment to the vacancy on the bench of the United States court of claims. The president, it can be said, much regrets Senator McLaurin's decision, as he believes that McLaurin's senatorial experience and his career as attorney general of South Carolina would have rendered him a particularly good addition to the court of claims.

The president now is uncertain what he will do about Senator McLaurin. It is understood that he is anxious to appoint him to some position in recognition of what the president regards as his services to the country and his demonstrated ability in public life. Senator McLaurin's letter is couched in the most positive terms, and evidently was based in particular upon a newspaper article which accompanied the letter. The article stated that the senator had sold himself for the prospect of getting such an office as that offered to him. It can be said, however, that the president regards such a type of accusation as beneath notice, and sincerely re grets that Senator McLaurin should have deemed it necessary to pay any attention to it.

ELEVEN DEAD IN STORM

Residence Portion of Baltimore Devastated by Fierce Tornado.

HUNDREDS OF HOUSES UNROOFED

Of Those Who Perished, Nine Were Drowned In Harbor From Open Boats, One Killed By Falling Tree, and One By Live Wire.

Baltimore, July 21 .-- A fierce tornado, characterized by a wind storm of extraordinary velocity, thunder, vivid lightning and a heavy rain, suddenly burst upon Baltimore at 1.30 p. m. yesterday, coming from the southwest, with the net result that 11 persons lost their lives, hundreds of houses were unroofed, trees in the public parks and streets were torn up by the roots, many buildings damaged and several people injured. The storm exhausted its fury in less than 15 minutes. The damage done in the business part of the city was comparatively slight, being confined to the blowing down of signs and injuries to roofs. It was in the residence portions of the city along the river front and in the harbor where the wind spent its violence. Of those who perished, nine were drowned in the harbor from open boats. one was killed by a falling tree and one by a live wire. The following is

a list of the killed: Drowned in the harbor-Roy Bateman, Joseph Cain, John Cain, 6 years old; Thomas Carroll, Harry McCormick, Mrs. Mary Schuler, Harry S. Schuler, 10 months old; Olive Schuler, 4 years old; Charles Schuler, 7 years

Killed by falling tree-William cornish, colored.

old.

Killed by live wire-Charles Schaefer.

The first three victims in the above list were out in a rowboat on the river with three other companions. When the storm broke the boat was capsized, three being drowned and three being rescued by the tugboat Edna V. George.

The boy killed by a live wire had, in company with two other boys, gone into a shed for protection, when the shed blew down, and a live wire fell on one of them, resulting in his deatn.

The drowning of Mrs. Schuler and her children was the most pathetic incident of the hurricane. Michael Schuler, with his wife and three children. accompanied by his brother-in-law, Joseph Cooper, and his wife, had gone out into the harbor for a sail in a 30-foot boat. When the storm came, Schuler and Cooper took in sails. Schuler sent his wife and children into the nucle cabin, and he stood at the tiller to keep the vessel's head toward the wind. a sudden gust of wind threw the boom of the vessel around, knocked Schuler down and pinned him to the deck. Another gust capsized the boat-releasing Schuler, who, with Cooper and his wifs, were thrown into the water, leaving Mrs. Schuler and her children pinned in the cabin. Cooper saved himself and his wife by hanging to use bottom of the overturned boat, and Schuler | Trees will take up a large quantity of

TOILET TIPS.

A salt footbath at night wonderfully rests and invigorates the whole system. Rub a silk handkerchief gently but steadily over the face after washing it. To remove dandruff use alcohol and castor oil, one ounce oil to half pint alcohol. Rub in well with a nailbrush. In some cases gray hair is due to a lack of secretion of sulphur in the blood. The occasional use of sulphur soap is good.

Do not steam or dry all the natural oll from the face, for the skin burns twice as quickly and the wrinkles prematurely appear.

The wrinkles called "crow's feet" should be prevented by daily stroking of the folds, or where they would come. Keeping the blood in free circulation under the skin is the sure wrinkle preventive.

Ammonia and powdered borax in warm water should be used frequently in washing tollet sponges. A sponge should never be used unless it is sweet and clean. After washing it, dry in the air and sunshine.

Wall Paper Don'ts.

Don't have the woodwork of a room painted two colors or even two shades of one color. One plain color is much more artistic. As a rule, white paint is far better than any other. It can always be made to look fresh and clean if it is washed with soap and water and will keep in good condition for many years if the final coat is of good ivory enamel. But when it does grow sliabby it is a very easy matter to give it one fresh coat if it is white. says Home Chat.

With colored paint there is often a great difficulty in matching the shade. The only other color which is universally useful for woodwork is brown. This can well be used for halls or dining rooms in a tint of oak, mahogany or walnut.

Don't put a cheap wall paper in a bathroom. It should be a thick sanitary paper, highly glazed and ought to have a final coat of clear varnish when it is on the wall. A thin, unglazed paper peels off and gets quite discolored in a few months with the steam arising from the hot water. A washable distemper is excellent for coloring the walls of bathrooms.

Disease at the Back Door. Yes, it is the nasty habit of pitching out of the back door a pailful and dipperful now and then of greasy water and a handful of parings and the general waste of the kitchen that breeds fevers and billious diseases. The waste disappears for the most part in the soil, but that is the key to the mischief. The soil gets full after a time and ferments, and the hot sun breeds gases which surround and enter the house. This is true not only of the cheaper, poorer houses and careless families, but well to do, intelligent people have spots behind their houses saturated with slops. In populous towns no amount of supervision can prevent a great deal of filthy evil, but in the country towns slops should be carried out to trees and poured in small quantitles here and there as fertilizer. saved himself in the same way, after | water and be grateful for it. We are anxious to have you drop in and see this modern store, when in town. Location is next door to Post Office.

McCalmont & Co.

The convention of the United Mine Workers hereby states the line of action which its members are determined to pursue.

The coal miners of the country re cognize the marvelous industrial pro gress of the country during the last decade, but our labor has produced the foundation for most of this wealth by producing the coal which has made the progress possible. But when the miners examine the paltry pittance they receive as recompense for the labors and dangers they undergo they feel that they are being dealt with unjustly in payment for so much labor and so many sacrifices.

The combinations of capital are sc powerful that individuals are helpless and experience shows that when capital combines labor must unite. The grievances of the miners have forced them to organize, not to take from the operators what belongs to them, but to receive better treatment and fair remuneration for their labor.

For five years the miners have lived up to the letter and spirit of every contract into which they have en tered, and do not intend to violate them now

The miners believe that the best interests of the country are opposed to a general strike of the coal miners. and, while they feel that in the present fight their union may be destroyed, nothing can compel them to break their agreements. The miners request the American people to bring such pressure to bear upon the anthracite sented with a large silver loving cup operators and anthracite railroads as by the officers of his staff. will compel them to submit to arbitration.

a contribution of \$1,000,000 per month from sources outside the union, and with this amount the miners are confident they can win the anthracite strike.

President Mitchell was in a most excellent humor after adjournment. He said that results were far beyond his most sanguine expectations; that his to be surgeon general of the army, to brother miners not only publicly, but succeed General Forwood, who will reprivately, fully met and indorsed all tire on September 7 next. Colonel of his recommendations made in his O'Reilley will have until January, 1909. opening address and assured him of earnest support in views and policies that he had expressed outside of the convention hall. He said he would return to the anthracite field as soon as possible with all the power and support necessary to carry on the strike.

Planning to Work Mines.

Wilkesbarre, Pa., July 21 .- The national convention of the miners at Indianapolis having gone on record, it is believed that the operators will take aggressive measures this week. If ing to the plan, it will require 50 years enough men can be obtained, and the

Charged With Stealing \$250,000 Worth of Jewels From May Yohe.

New York, July 22 .- A formal complaint of grand larceny was made against former Captain Putnam Bradlee Strong, son of ex-Mayor Strong, last evening by May Yohe, who visited police headquarters, accompanied by her mother and her lawyer, and there charged Strong, who recently disappeared from his home at Hastings, with the theft of jewels which she values at \$250,000. Her complaint was entertained and a general alarm was sent out for the arrest of Strong.

Miss Yohe's counsel said that the safe in the Knickerbocker Safe Deposit Company, where Miss Yohe kept her jewels, was opened, and it was found that her jewels, valued at \$250,000, had been removed, nothing of value being left in the safe except a few trifling paper of trailing roses above, cut out trinkets. He also explained that pawn carefully irregular sprays, one or two tickets calling for \$100,000 worth of the missing gems had been recovered.

Miss Yohe said there was no longer necessity for her to conceal anything regarding the disappearance of the captain. "His family has tried to do every thing to keep him away from me," she said, "and now I do not intend to remain silent or inactive."

Child Drowned In Bath Tub.

at the home of his parents, Luther A. Miller, 14 months old, fell face downward into a bath tub, containing four is good to use. This is made by pourinches of water, and was drowned.

must be simply constant intelligence in the disposal of waste.

Linen Tes Cosy Covers.

Our delicate embroidered cozies can be kept in their original freshness for a long time when covered with a detachable linen cover, white or colored, embroidered in linen thread and edged with a gathered linen frill, says Home Notes. This cover can be easily removed when required to be washed and replaced by another linen one, and a linen cover will be found invaluable also for hiding outside defects in an old cozy which for associations of the giver or through being not worn enough we hesitate to throw away.

Children Should Sit Erect.

Children should be taught to sit erect, especially if they are growing rapidly. When tired or in a position for rest, let them lie down and entirely remove the strain from the muscles of the back. If youngsters who suffer from dizziness or headache are carefully observed, it will frequently be noticed that their position is faulty. The curved form of the spine results in a pulling of the muscles of the back of the neck, and the difficulty is quite certain to be removed by correcting the habit of sitting.

"Reviving" Dresses.

Crapelike fabrics that will not stand pressing may have the wrinkles and creases removed from them by being hung in the kitchen for a short time when the kettle is boiling or the boiler is sending out clouds of steam. The garments should be slipped on wooden hangers and suspended free from contact with anything and after twenty minutes be taken into a room which is warm and dry.

Beautified Her Bedroom.

A clever woman who had a plain, deeper toned paper on her bedroom wall below the picture molding and a daintily flowered canopy in a cretonne great trailing branches, a bud or two and a half blown rose and glued them to the wall just under the molding as If caught and held by it. The effect was charming.

Wash Fabrics,

It is well to remember in treating wash fabrics that alum used in the rinsing water will prevent green from fading; a handful of salt thrown into Altoona, Pa., July 22 .- Sunday night, the rinsing water will set blue; ox gall may be used for grav and brown. For washing tan or brown linen hay water ing boiling water over hay.

Now Going On

Mid-summer Sale of Seasonable Shoes

A Money-saving Event of Unusual Importance.

We do not intend to carry over the season a pair of Oxfords or Summer Shoes, and to do this we will reduce the prices on the well-known lines listed below :

All \$4.00 Walk Over Oxfords now \$3.50 All \$3 50 " " \$3.00. A special lot of Walk-Over \$4 Enamel Bals now \$3.25.

All Stetson \$5 Oxfords now \$4.50.

Bilt-Well Pat. Colt Oxfords, reg. price \$3.00, now \$2.50. Bals, " " \$3.00, now \$2.50. " Velour Calf " " " \$2.50, now \$2.00. " " " Oxfords, " " \$2 50, now \$2.00. All new goods and not small sizes that you can not wear.
