An article appeared in the columns of the Howard Hustler of July 19th, 1902, under the head of Port Matilda news, which article is simply an unjust thrust at the retiring cabinet officers of the Epworth League, or at least a portion of that body whose names were known to the writer of the article, and they being unable to be present at that particular session, feel a deep injustice done them considering ther untiring efforts to advance the interests of the M. E. church at all times and often under adverse circumstances. While Port Matilda's regular correspondent stands guiltless to the charge he would advise giving justice to those who merit it, and honor to whom honor is due, thereby creating a much needed harmony.

We are just a little curious to know why Capt. S-, of Half Moon valley, makes frequent trips to Port Matilda? We might find out by gently asking Bella.
