

THE RACKET

Every Business Day in the Year is Bargain Day at The Racket.

It is very amusing to us, to say the least, to read advertisements quoting special prices—in plain "figgers"—that are higher in many cases than Racket buyers are accustomed to paying for same goods any day in the year.

She was not hurt, but if there had been a pool of water there, and it had been deep enough and nobody there to help her out and she could not have gotten out herself she would have surely been drowned. Poor little girl.

Since Mrs. J. C. Wagner became a subscriber to the Centre Democrat her garden "sassy" grows so rapidly she can't dispose of it all. Why, Charley, she has cucumbers like miniature saw-logs, and all other vegetables in proportion. The Democrat is a regular mascot.

On last Thursday, his honor, A. J. Griest, went to the station, bought a first class ticket to Bellefonte and return, and while waiting for the train sauntered leisurely back into the freight room to see how many car loads of goods were there for him, but while he was thus absorbed the train came and as A. J. emerged from the door of the waiting room he was chagrined to see the rear end of the last car just passing him. He didn't go to town till next day.

Charley Griest tried his hand at train jumping. The other day he was at the station when the 5:3 train came, and when it pulled out he jumped on the steps of the rear car and rode as far as Main street and jumped off but the momentum of his body was greater than that of his feet; the result was, he walked on his ear for several rods. Now he says it was an "athletic" stroke that caused the accident.

Margaret, daughter of Joe Brugger, was sent on an errand to her grandma. She asked her ma whether she might stay for dinner. "Oh no" said her mamma, but she insisted, so her mother told her if she was coaxed to stay, she might; so with a light heart she bounded away. Hardly had she got into the house when she said, "Grandma, mamma said if you coaxed me real hard I might stay for dinner," her grandma took the hint and coaxed her "real hard." This is a joke on Margaret.

Smuliton.

To the Centre Democrat (for publication):—In reply to the Gazette's announcement in its last week's issue which has brought many inquiries, that the name of our postoffice has been changed from Smuliton to Brook Gap, we desire to say that through jealousy and prejudice an attempt has been made to that effect. The facts are these: Last January Geo. H. Small secured for our town an office, a matter that has been tried for years by different parties without success. Mr. Small, in his attempt, won the fight and the office was deservedly named for him to the satisfaction of all our citizens, save one who is an enemy and who recently circulated a petition for this change, through the influence and assistance of one or two prejudiced Rebersburg parties who for personal reasons have been opposing our office since its establishment. The citizens in general knew nothing of this petition which consisted of about thirty names comprising almost entirely signers who are not patrons of our office and who have selfish reasons for trying to injure our office. The few of our patrons who did sign were led into it inadvertently and have since petitioned to the Department to have their name withdrawn from said petition and join in asking for the retention of the name the office now bears. Our people are very indignant and excited about the matter and had they been aware of the movement it would have been resented at once. As politics takes strange turns we await developments. In the interim we wish to say for Mr. Small that he has done a lasting favor for our town and one that will always be appreciated and that he has the good will, loyalty and support of all our reputable citizens. The design of the parties back of the movement is to injure our office and to hurt Mr. Small. It is being violently resented, however, as a petition of names including every patron of this office with the exception of three or four has gone forth; also the community of Miles township realizing the injustice and motive of the movement have voluntarily taken the matter up and furnished a strong petition making a total of over two hundred voters to counteract the matter and we hope that justice may be done us.

Each town has its drones and vultures, the leeches of mankind too lazy to work, they extort and pilfer from the toilers of the land and on account of their indolence and greed are on the lookout for some game to feast upon; as to manliness or improvements they have nothing to spare or give, except the lie, as the truth is not in them, and malign those who are by far their superiors and competent to manage their own affairs with ability.

Hart Schaffner & Marx Tailor Made Clothes

Cool, Summer Clothing

There was a time when a man who wore a "summer suit" coat and trousers—sacrificed peace of mind to comfort of body; cool, but looked like a fright—coat hung like a rag in a week's wear. Too many of them are still as bad as that; look cheap, feel cheap and cheap.

You'll find a great change when you wear one of Sim's Summer Suits. We've taken hold of the subject seriously now. The Summer Suit is a necessity for the man who wants to be careful as well as cool in dress. The coat hangs and fits like a full lined, regular made coat. You can wear a Sim Summer Suit with no demand on your self-respect and very little on your pocket book.

Fabrics of Flannel, Wool Crash and Homespun. Some of them are quite gay—summer clothes affording about the only chance for that kind of thing.

Prices from \$5.00 to \$11.50.

Other breezy Clothing, such as Serge Coats, Serge Coats and Vests, Alpaca Coats, Crash Suits, Linen Pants, Work Crash Pants and Flannel Pants.
