The event was a happy one. There was more jollity and fun to the square inch than was ever anticipated. The way to be happy is to make others happy.

There is a movement on foot to reorganize the literary society that, a few years ago, was so successfully conducted by our people under the able leadership of Prof. G. H. Hubbard. If properly conducted, such a society will prove very profitable to our young people and it is to be hoped that all who can will lend what aid they can, to make it a success.

Elwood Fisher, who has been in poor health for more than a year, has been seriously ill during the past week, but is again convalescing.

Say, Charley, Sammie Emerick handed me a little poem consisting of two verses condemning dried apple pies. I tore it into bits, threw it into the hopper of my poetry machine, turned the crank and out came a new poem of seven verses with the sentiments completely reversed:

This is the season of the year
The prudent house-wife apples dries;
In order that next winter she
Can bake dried apple pies.

I like good bread, I like good meat,
Or anything that's good to eat.
But of all good grub beneath the skies
There's naught so good as dried apple pies.

You may abhor, detest, despise,
Abominate dried apple pies,
But you'll ne'er have toothache or sore eyes
If you'll eat lots dried apple pies.

The house wife takes the knottiest fruit,
Wormy, bitter and hard to boot,
Leaves in some cores to make us cough
And don't take half the peelings off.

Then on a cotton string they're strung
And round the sooty stove pipe hung.
To form a roost for wasps and flies,
But that won't hurt dried apple pies.

Now and then in winter time
She'll take some apples dried so prime,
Out of the poke in which they're kept
And makes a pot of "snitz and knep."

Tread on my corns and kick my shins,
And stick my body full of pins,
Then slash me square across the eyes,
But feed me on dried apple pies.
