Spring Mills.

The path on the south side of Penns creek—it can hardly be called a walk—though greatly used, commencing at the foot bridge and continuing for a considerable distance, is in a deplorable condition, leaving at an angle of about 45 degrees and abounding in mud holes and ruts, and in wet weather as slippery as glass. There is no sense in having a trap like this, but we wait 'til an accident occurs and then hurry and fill it up—hardly before.

Dr. H. S. Braucht, for coroner. The Dr. is a very able physician, popular, a sound democrat and every inch a gentleman. He will poll a large vote.

Martha.

Our people are very much excited over the shooting affair at Port Matilda on last Friday. One of our most highly respected neighbors, George Steele, now lies in the Altoona hospital suffering on account of some one's recklessness. Mr. Steele had gone to Port Matilda on business and while there he with many others saw the attempted arrest of some gypsies by the Philadelphia authorities. One of the bullets fired by the gypsies passed through one of Mr. Steele's knees. His many friends hope for his speedy recovery.

We regret to note the very serious illness of Elwood Fisher, whose condition during the past week was such as to elicit the gravest fears and doubts of his final recovery.

VanValin, attempted to board a freight train, about half way between the station and Fisher's crossing, on Saturday afternoon and got his arm in the break wheel and his foot slipped from the stirraps causing him to break his forearm just above the wrist. Dr. Russel reduced the fracture and the boy is doing as well as can be hoped for. It is a serious and costly as well as painful lesson and we hope he, as well as other train jumpers, will profit by it.

For men of fore-sight commend me to a Filmore-ite: on Sunday, Wm. Witmer, wife and two children and John Armagast, wife and two boys, came over the mountain from the latter place. On their return home one of their horses lost a shoe, on the large bridge. W. W. took from his pocket a number of horse shoe nails, from another pocket he fished out a claw hammer and in less time than it takes to tell it, he had the shoe nailed on again. How many men prepare for such emergency when leaving home for a day's drive?

Say, Charley, do you know that Jack Great gets funny sometimes? Well he does. On Saturday, after setting up his stove in the store for the winter his clerk Charley, asked him how much coal to bring up; he replied "Take the small hod and don't bring up more than about two dollars' worth."
