EDITORIAL,

IF you bought soft coal lately you have material proof of what a dear friend Patton is. Vote for Heinle.

Now that the strike is over, let the prosecution of the coal combination, the beef trust, and the other trusts, go ahead, for their violation of the constitution and

PATT-on put-on the price of coal, when he caught the public in a pinch. Do you want him for Senator, or Mr. Heinle who never pinched a fellow man in his life?

WHO has benefited by the strike? Ask the soft coal operators of Pennsylvania, who for several weeks past have been selling coal at their mines for from \$5 to \$5 50 per ton which normally fetches from \$1.10 to \$1.40 per ton. "It's an ill wind," etc .- Phila. Record.

YES, Patton, now a machine candidate for Senator, in this district, a coal mine owner, is one of the operators who put up the price of soft coal. Patton is one of the men who made thousands by that game. Vote for Heinle, for senator.

JOHN C. Rowe is one of Philipsburg's prominent business men who has conducted a merchant tailoring establishment in that city for years. He is reliable, industrious, and of genial disposition. He would be a most obliging official as Recorder. He is worthy of your

A. G. ARCHEY has made a careful and efficient Register. That department has been carefully managed under his incumbency. He is a fine penman, has clerical ability and thoroughly comprehends the duties of the office. He is obliging and generous. He has done well and is entitled to a re-election.

WHEN E. A. Humpton began to collect taxes in Snow Shoe township that district had a poor debt of \$2,000, with a 10 mills levy and a large school debt besides. He reorganized that department so completely that today both the poor and school districts of Snow Shoe township are out of debt and only 5 mills have to be levied for poor purposes. That kind of a man will do good work in the county commissioners' office. He is a credit to himself, he is respected in his locality and would make a good accounting to the people.

THE last Republican Board of County Commissioners, Riddle and Fisher, paid during the three years they were in office \$817 80 for clerical work, which was done outside of the office. This was work divided around to political roosters over the county. When Philip Meyer was elected he called a halt on this abuse and during the last three years only \$10.80 was paid for clerical work caused by the suspension of business in the office for a few days, due to the death of Commissioner Riddle. You can go and see the records, if you doubt this statement. The politicians don't like a man like Mr. Meyer; and when you hear him abused depend on it there is always something not just right back of it all.

WE leave it to any fairminded republican if it would not have been the action of a philanthropist on the part of a millionaire like Mr. Patton, having doubled his sale of soft coal on account of the hard coal strike, if he had reduced the price of his soft coal instead of putting it up about three-fold because of the strike in the hard coal section? That would have been the deed of any rich philanthropist. And Patton could well afford to have done this in the days of the people's distress during the strike. His sale of soft coal was doubled hence his profits would have been the same, but instead of being the philanthropist, he was a ravenous pincher. Voters do you think Patton deserves your suffrage for Senator? Has not his opponent, Mr. Heinle, been the opposite, and whenever possible, befriended the people, especial-ally the poor? Patton shaved the poor along with all the rest, in the hour of their distress, the past six months.

LIBELS REFUTED.

Some machine organs and orators are fond of charging that the democrats are enemies of the country and the cause of of in absence of anything bad about the democrats, and to cover up their own page in the history of the country that a record merits approval. we are proud of, is a bright epoch in the history of the democratic party, and the Centre Democrat will here briefly sum up the truth of history to show that these fellows are as reckless in their charges as in iniquities they have been guilty of.

In the days of the Revolution the of public funds. thirteen colonies comprised only a narrow strip of land along the Atlantic coast with three million inhabitants. Now the country is one of the greatest territorially, on the globe. From the narrow strip of land we grew until our boundaries reached from the Atlantic to the Pacific, giving us all the magnificent states of the West and the golden shores tounding growth was through the policy of the democratic party, and every foot of this vast territory, whether obtained by purchase, annexation or acquisition, was bitterly fought and opposed by the opposition to the democratic party. There is no denial of this-it is history. Had these self righteous libelers succeeded in their opposition to adding this magnificent territory, the United States today would be confined to the thirteen original colonies with a narrow strip of land, and one, or perhaps more, great foreign empires would be neighbors adjoining this republic to harass it. Who played the part of enemies of this country in this bright page of our country's history? Surely not the democrats.

Then again these libelers, who can find nothing to cover up their own iniquities, charge that the democratic party is the cause of hard times. The Centre Democrat will look into that for a moment: The first great panic began in 1873; the republican party was then in power having the President and both houses of Congress, and a high tariff of their own enacting. That panic shook the country to its centre. The republican party had then been in power already twelve years. Well, the democrats can't be blamed for that mighty crash. The republicans remained in power eleven years thereafter, and under their rule came the tramps, hard times, strikes, and other evils. Alaska was the only land not purchased under the democrats, but its purchase had their

In 1884 the democrats elected a President and it caused no panic or hard times, by any policy of its own-times The second panic came in 1893 when Cleveland was President, and the republicans had been in power during the four years previous; the McKinley tariff in the to Congress repeal the McKinley law sooner. There were other measures of the republican party on the statute books, like the Sherman financial act, a good County Treasurer. and such, that failed to avoid panics and trouble, in 1893.

So that from this showing, and it can enemies of the country and the cause of desire to attend. hard times, are simply engaged in the cry of "Stop thief."

DRESSER MONEY.

During the past week stories have come to our attention that republican heelers are traveling over the county loaded with money which they are distributing freely. Some of these chaps have been known to spend over a hundred dollars in a single community buying booze and fixing up the boys. Dresser is a millionaire who said he would spend \$40,000 to get to Congress and seems to be doing it.

Money is flowing freely in some channels, and if it will continue at the present rate it will cost him more than \$40,000. The only trouble about the spending of such a sum is that only a few roosters get the pull and the rest must suck their

SATURDAY Capt. Hugh S. Taylor returned to Ashland, Pa., to take charge of Company B. Just as to when the strike will be declared settled is very uncertain and he may not be able to be be held in the said county of Centre on the home to attend the election. This gives his opponent, Henry Lowry, a clear field and he is making good use of it. Real- purpose of electing the several persons hereinizing that Capt. Taylor is out of the county, away from the scene of action, encourages Lowry so much as to be up early and out late, pulling every string possible. This is Capt. Taylor's misfortune for being a soldier.

WHY is it that the Republicans are so anxious to defeat Philip Meyer? When Wm. Allison did what was right in the legislature he was turned down. Mr. Meyer made a good commissioner and that is why they want him defeated. Repulican politicians only are against him, the people owe him a re-election because he helped to reduce their taxes.

Two years ago several hundred illegal votes were cast in Rush and Snow Shoe townships. Will democrats tole-

Some fellows don't want Meyer and Humpton elected; if you study the matter you can understand why. The farmers and tax payers want men in the commissioners' office: first, who are honest; second, men who have ability; third, men who can not be twisted around the fingers of political rooters who, like buzzards, have a keen scent for of California and the richness of the anything that is tainted and rotten, Rockies in precious metals. All this as- which may open the way for them to plunder public funds.

OUAY "CALLED DOWN."

Quay's disregard for the law has subected him to a "call down" by the president and attorney general of the United States. Quay had made an attempt to force Federal office holders in this state to contribute to the Pennypacker campaign fund, by sending them circular letters, asking for money. President Roosevelt's attention was called to the matter, who requested Attorney General Knox for an opinion. The latter official did so, and after giving a review of the manner in which Quay sent out the circulars, says that the law positively prohibits

President Roosevelt then sent a warning to all office holders, to the effect that officials must not be any way concerned in schemes to obtain money from the employes of the government. The President in his letter, reprimands Quay by

Today the miners go to work. Coal will be sold at the mines at old prices, about \$4 75, but the retail dealers in some sections talk of keeping the price up to \$15.
