The attractions this season are above the average. —Company B, 5th Regiment, arrived home on Tuesday evening at about 11 o'clock on a special. It is a decided relief for them to get back home and enjoy the comforts of life. —Space in this issue is devoted to political matter, as it is the most interesting topic of the season. After the election, political matter will be relegated to the rear as readers enjoy a change in bill of fare. —When you vote on Tuesday don't let petty spite and revenge rankle in your heart and sway your judgement. Thanks to Mr. Lyman, he always wears a smile, and may be never have occasion to change it to a frown. —An Interesting Ancient Medal. Our friend, R. G. Bartley, of this place, left an interesting find at the Democrat office. It is a copper medal, stamped in 1805, in commemoration of that illustrious American patriot and statesman, Benjamin Rush, M. D. The medal is one and two-third inches in diameter and one-sixth inch in thickness. Mr. Bartley found this relic while assisting in tearing down an old building at Mill Hall in 1897. Stamped thereon, in relief, on the one side, is a bust of Dr. Rush. In a circle around the bust, close to the edge, is the inscription, "Benjamin Rush M. D. of Philadelphia." On the reverse side is stamped a river scene, possibly on the Delaware, and on the shore an old tree, leaning against it a book resting upon a tablet on which are stamped the three words, READ, THINK, OBSERVE. At the bottom is stamped the date, "A. MDCCCXVIII." Near the centre in small letters is stamped "Sydenham," and at the foot of the rim, "M. Furst" which may stand for the manufacturer of the medal. Benjamin Rush was born Dec. 1745, was eminent as a physician, was a signer of the Declaration of Independence, and a great champion for the cause of the Colonies, and rendered it great service. Dr. Rush died in 1813. —GRANGERS, don't be misled by "false prophets" sent out among you to get you to vote a part of the corporation and trust ticket, on which is your bitterest enemy, "Oleo" Brown. These fellows are in the pay of the machine to work against Heinle, Kepler and Wetzel, in order to help Penrose to a re-election to the U. S. Senate. Penrose is the tool of the corporations and Trusts, and "Oleo" Brown voted with the oleo gang against grange interests. Grangers, do not allow merchantable members of your order to deceive you, your order is just but there are crooked sticks in it that are secretly working for the machine ticket and Quayism, hired and paid out of the trust fund. —WHEN Abraham Miller went over the county attending to business as a Commissioner his personal expenses were over \$2 per day; for the same service Philip Meyer got along for \$1.25 per day. Here is an example of extravagance and economy. —See that your neighbor gets to the polls on Tuesday.

IN ADJOINING COUNTIES.

There are now thirty-five well developed cases of the dread disease. —George Emerick, of Afolke, Stephenson county, Illinois, died Thursday of last week at the age of 76 years. The extensions of the Beech Creek and the construction of the River line are also given prominent mention. —The stable in Beech Creek, owned by Mrs. Jennie MacKenzie, was destroyed by fire last Friday night. In the building was wood, hay and other articles, all of which were burned. The losses are covered by \$600 insurance. The building is supposed to have been set on fire by tramps. —October the 12th, Rev. R. B. Wolf announced his resignation to his congregation at Eureka, Kansas, to take effect November 1st. He will go to Kansas City, Kansas, where he will organize a new church. Mr. Wolf has been pastor at that place for over eight years. Rev. Wolf is a native of Centre Hall and a graduate of Gettysburg college and seminary. —The Pennsylvania Railroad Company has decided to repair the dam across the Susquehanna river at Lock Haven. The contract has been awarded to Sims & Co. The dam provides back-water for the purpose of rafting timber, an industry that would languish if the destruction of the breast-works in last spring's ice floods was not repaired. The dam is one of the oldest on the river, having been constructed in 1834. —PATTON'S POSITION. The Review, Curwensville, Pa., is known as Alex. E. Patton's paper, as it is practically owned by him and voices his sentiments. In the great coal strike, a battle between muscle and boodle, or over 150,000 human beings contending with corporate wealth, it is well to note where public men stand. For that reason we make the following clipping from the past issue of candidate Alex. E. Patton's paper: "THE MEN OF THE HOUR," "In saying that the appointment of the commission under whose auspices the coal strike is to end marks the public's escape from danger of extreme gravity we have no thought of the personal suffering and industrial disturbance caused by a famine in coal. A far worse disaster than that was at one time so imminent as apparently to be unavoidable. Under these circumstances the credit for preventing it is, very great, and it is proper to call public attention to those to whom that credit is due." "At no time has a more vital issue been at stake in the country, and we have no hesitation in naming the men who, against obstacles of unprecedented weight, have upheld the right, the men, that is, who have resolutely stood for fair play and the American idea. They are: John Pierpont Morgan and the presidents of the coal companies, to wit: Geo. F. Baer, E. B. Thomas, W. H. Truesdale, T. P. Fowler, R. M. Olyphant and Alfred Walters." "That shows exactly what has been contended all along, that the interests of this millionaire candidate, Patton, is with corporations and combined wealth. In the above he lauds Pierpont Morgan and Geo. F. Baer as the ones who 'have stood for fair play.' His sympathies are with these men, not with the masses. Be careful how you vote on Tuesday. —FOR County Auditors, J. H. Beck and W. H. Tibbens, having proved so faithful and efficient in the past three years in scanning the expenditures of the county, a demand arose for their re-nomination. This is an important office for the tax-payers, as Auditors can halt and arrest the sanctioning of anything that is fraudulent and overcharged in the county expenditures. Messrs. Beck and Tibbens have scrutinized every bill closely so that the tax-payers may not be imposed upon. They have done their duty faithfully and deserve a re-election. Vote for them next Tuesday. —THE republicans have hired several would-be democrats, also a disgruntled office seeker, to travel over the county for the purpose of accomplishing the defeat of Philip H. Meyer. Whenever these chaps come along, find out all you can from them, then give them such an effectual calling down that they will chase their guilty faces out of your presence. Don't trifle with a political Judas Iscariot, bought with republican boodle. Have no time for a Democratic traitor who, like Benedict Arnold, has betrayed his people. —CAPTAIN TAYLOR began the struggle in life as a laborer in the ore mines. He has advanced in life by his own hard work and manfully faced every adversity. He is a noble, manly fellow, worthy of any man's support. He is a poor man but is not playing the poverty racket. He is industrious, never knew an idle moment in his life. Such it is a privilege to support.
