

VIEWS ON TRUST ISSUE

Recommendations President Roosevelt Will Make to Congress.

HE WILL SUGGEST REMEDIES

Utterances on Tariff Are Still Subject to Revision—May Urge Congress to Provide Arbitration for Strikes Involving Interstate Commerce.

Washington, D. C., Nov. 25.—Those who have been expecting that the annual message of President Roosevelt will be a dull and indecisive document will be disappointed. The message will take grounds of no uncertain nature on some of the great subjects which have attracted wide attention during the last congressional campaign.

Public interest naturally centres on what the president will say regarding trusts. In recent speeches the president has given views very freely on this subject, and his recommendations to congress are expected to follow the lines thus laid down, as well as those suggested by Attorney General Knox in his address before the Pittsburg chamber of commerce on October 14.

The evils which the president will ask congress to regulate are overcapitalization, lack of publicity, discrimination in prices to destroy competition, insufficient personal responsibility of officers and directors, tendency to monopoly and to disregard of the rights of the people.

The remedies to be suggested will embody requirements upon corporations to do business in every state and locality upon precisely the same terms and conditions; prohibition of discrimination in prices and preference in service; requirements upon public carriers to keep the avenues of commerce free and open to all upon the same terms, and a requirement upon corporations upon which the people depend for the necessities of life to conduct their business so as regularly and reasonably to supply the public needs.

All these things, the president will hold, can be accomplished within the constitution by proper amendments to the Sherman anti-trust law.

President Roosevelt will undoubtedly have something to say about the tariff, but his utterances on this are subject to revision. He will probably make no recommendations as to the altering of any schedules, although he may take the ground that there is some reason in the complaint that some schedules are too high and others have a tendency to foster monopoly.

It is understood that the president will devote a large portion of his message to relations of labor and capital. There has been long and anxious discussion between the president and his friends whether he should make recommendation for legislation. He has been urged to advise congress to pass a bill providing for arbitration of great strikes and disputes where interstate commerce may be involved.

President Roosevelt will put the finishing touches to his message today. The document is practically completed now, but it is the president's desire finally to consult several of the leaders in both branches of congress as to one or two features of the message before he commits it to the hands of the printer. Yesterday was a day of conferences at the executive offices. The president arrived in his office early and soon was besieged by callers. With several senators and representatives he had engagements and he declined to see all others.

TRAFFIC IN YOUNG GIRLS

Philadelphia Syndicate Operates on Both Sides of Atlantic.

Philadelphia, Nov. 22.—As a result of a raid conducted by the local police authorities on houses of ill repute, it is announced that evidence will be adduced which will warrant action by the United States authorities. It is charged that a syndicate having for its purpose traffic in young girls, is operating on both sides of the Atlantic, and that agents are scattered broadcast to lure girls from their homes, especially in foreign countries, to lives of depravity in this and other cities.

The investigation was principally inspired by the German consular service, and the raid resulted in the arrest of 113 girls and a number of men, some of the latter suspected of being agents in the sinister business. District Attorney Weaver has taken charge of the matter, and yesterday all of the defendants were held in ball for a further hearing, the proprietors of the houses raided being required to furnish \$1,500 bonds and the inmates \$500.

An important arrest was made yesterday in the person of Abe Fink, who, the police assert, is one of the distributing agents in the slave trade. Nathan Swartz and Louis Schoen, arrested in the raid, are said to occupy similar positions.

The investigation concerns principally the resorts where in are located German and Hebrew girls. The crime is punishable by five years or a fine of \$1,000 for each offense.

Killed by 2000 Volts of Electricity. Shamokin, Pa., Nov. 25.—Calvin Berger, aged 18 years, was instantly killed last evening in the Shamokin iron works by a long-handled skimming iron when he was carrying coming into contact with a live wire, and, forming a circuit, caused 2000 volts of electricity to course through him.

BLOODSHED IN HAVANA

Two Killed and Eighty-two Injured in Labor Riots.

Havana, Nov. 25.—As the result of conflicts of a serious nature yesterday between the police and the men on strike here two strikers are dead and 82 other persons are wounded. Five of the wounded, one a lieutenant of police, whose throat was cut by a striker, have very severe injuries. Eight other policemen are wounded. The police have the rioters well under control, but every precaution is being taken to prevent a further outbreak of disorder, and all the police and rural guards in the suburbs have been summoned to concentrate in Havana.

The situation was approaching a critical point at noon, serious disorders having taken place in front of the palace itself, in which a police officer, named Maso, and a number of policemen and strikers received injuries. President Palma sent word to the mayor that unless the city authorities could preserve order and protect the railroad company the state would intervene. The mayor then took drastic measures and issued an edict prohibiting crowds from gathering in the streets and authorizing the chief of police to kill, if such action should be necessary to preserve order.

A similar show of force early in the morning undoubtedly would have prevented the trouble, but now the strikers had become emboldened and frequent clashes between them and the police occurred in all parts of the city. The police were obliged to charge a mob of rioters at the slaughter house and several among the latter were injured. The vigorous attitude of the police now made itself felt and traffic on the car lines, which had only been suspended for a brief period, was resumed and was continued from this time forth with only occasional interruptions. Most of the injuries sustained by the strikers were caused by the policemen's clubs.

BIG MAIL WAGON ROBBERY

Chicago Thieves Secure Between \$12,000 and \$13,000 in Booty.

Chicago, Nov. 14.—Chicago's mail wagon robbery of Saturday night will cause certain New York stock brokers considerable inconvenience, as it was discovered that one of the stolen mail pouches contained several packages of stocks, bonds and similar securities, which it was intended should reach New York in time to be used when the stock exchange opened there this morning. One man, a member of the Chicago stock exchange, whose name is not made public by the postoffice authorities, is said to have mailed a paper of the face value of \$100,000, which was in one of the missing sacks. This paper is not negotiable, but its loss may cause a great amount of annoyance.

As near as can be estimated by the postoffice officials, the robbers secured between \$12,000 and \$13,000 in cash, certified checks and other negotiable paper. Of this amount \$2,900 belonged to the postoffice, the receipts of one of the sub-stations during the day. No trace of the robbers has yet been found.

MILES TO LEAVE PHILIPPINES

Lieutenant General Going to China, Japan and Russia.

Manila, Nov. 25.—Lieutenant General Miles will leave here for China, Japan and Russia at the end of the week. Discussing the Philippines yesterday, General Miles said: "I have seen 13,000 of our troops, and will inspect more of them before leaving. I found them to be in fair condition. This is a hard country for campaigning. I inspected the principal natural defenses of the islands and some of the harbors which the government may fortify. I found the people generally impoverished from the effects of the war and the pestilence which followed it, and I fear some may suffer from famine. The death of farm animals leaves the people no means of recovery."

Held Jailor While Prisoners Escaped.

Knoxville, Tenn., Nov. 24.—While one prisoner held the jailer, six other prisoners escaped from the jail at Dandridge, Tenn., yesterday afternoon. John Perry was the man who grabbed Jailer Fuller, and in the struggle was unable to escape himself, although the others successfully got away. Lant Wright, one of the men who escaped, was in jail on the charge of housebreaking with intent to commit criminal assault. Officers with bloodhounds are scouring the country for the men.

Judge Mitchell will be informed of the finding of the commission, and it is said will retire on half pay until the expiration of his term in 1910.
