Land is being leased in the vicinity of Howard with the view of drilling for gas and oil. A number of farms have already been leased and as sufficient territory is secured a test well will be drilled.

All through Nittany valley the wheat fields look fine. In Miles township the grain fields never looked more promising and the same may be said of those in Pennsvalley with some few exceptions.

The editor of the Howard Hustler is urging the people in that vicinity to organize a company to prospect for oil. Since oil was found near Lock Haven there is good reason to believe that it extends throughout this section.

Many farmers report that their corn has begun to mould and much of it will not be fit for use. The condition of the weather caused it to remain soft. The early frost came before it had matured and the warm weather does not season it.

A. J. Casanova and his wife, who have been making an extended stay with their relatives in Philipsburg, left for Havana, Cuba, recently. Mr. Casanova has recently received an appointment on the board of claims in the State department at Havana.

Michael Shagarts, a well known farmer of Walker township, near Huntingdon, died Tuesday morning, 18th, a victim of small-pox. The disease developed about ten days previously. The disease probably carried from the home of a neighboring farmer, where small-pox existed, by cats or dogs.

On the morning of October 29th, a bald-faced sorrel mare, hitched to a buggy, was found tied to the fence at the Bald Eagle furnace school house, and up to a few days back no one has put in a claim for the property, and the mystery in that section is, who drove the rig there and to whom does it belong?

Samuel Gramley, one of Miles township's venerated citizens and who has spent his years in usefulness, is quite ill. He has been in declining health for at least two years, and several times of late we have received reports of his continued growing more frail. His trouble is acute Bright's disease which has touched his heart. His condition is such that his friends have no hope for his recovery. About fifteen years ago he was a member of the board of county commissioners, and filled the place with great credit. He served a long term of years as justice of the peace of Miles township, and also filled that position to the satisfaction of his constituents. He was ardent and useful in church work, and has led the life of a christian from his youth up.

The W. C. Moore family, who reside on the road between Mill Hill and Salona, are sadly afflicted. The father and four children are seriously ill with typhoid fever. Yesterday morning about 3 o'clock, Mrs. Moore, the wife and mother died of the disease. She is survived by her husband and nine children.

John H. Bare, of Tusseyville, is one of the most successful turkey raisers in this county—he seems to know the secret of it. His birds are always choice A No. 1. His flock this year numbers several hundred, and many of them go on the best Thanksgiving tables today. John is an all-round clever fellow, and there would be no harm if the world had many more like him.

Simon King, proprietor of the hotel at Coburn, has rented the Musser house at Millheim and will take possession on April 1st. The present proprietor W. S. Musser succeeded his father, former sheriff Musser, in the management of the hotel and has been continuously in the business for twenty-six years. Mr. King is a genial landlord and will be sure to make a success of this established hostelry.

Tuesday, 18th, Frank and Nicholas Confer set up their steam thrasher at Henry Thompson's 4 miles from Howard. The governor belt on the engine broke the speed of the machine thus becoming so great as to tear the machine to pieces throwing the different parts in every direction. Each man was at his post when the crash came, except Nicholas Confer (the feeder) who saw what was going to happen and ran out of the barn just in time to save himself. It was a miraculous escape, for which all are very thankful.

While examining Ernest Rupert, of Beech Creek, for an insurance policy, Dr. McGhee made the startling discovery that the boy's heart is on his right side, in a position corresponding to the normal location on the left side. Dr. McGhee had the young man before the Clinton County Medical society, none of whom had ever seen a similar case. Statistics show that the number of such cases reported throughout the world is remarkably small. The examination revealed the fact that the heart, lungs and liver are very close together and the latter organ is believed to be on the left side.

The boy is 16 years old and the son of Barney Rupert of Beech Creek borough, a strong healthy man. Earnest works every day at the Pennsylvania fire brick works and has always been regarded as a healthy lad, being of good size for his age.

"Sniffles" Takes Place of "Grip."

An epidemic which physicians call the "sniffles" and which they say is likely to produce much more serious results unless promptly treated, is prevalent in Philadelphia. It is likely that we will hear very little about the "grip" this year now since "sniffles" has been added to the medical vocabulary.

It is well to remember that hell is paved with good intentions and not abestos.
