What has Transpired in the Various Localities—Compiled by a Corps of Alert and Able Writers—Is Your Section Represented?

Unionville.

John and Joe Resides have killed about 100 rabbits this season.

Susy Taylor has locked up her house and left for Washington, where she will spend the winter with her daughter, Mrs. A. T. Leathers.

Miss Grace Smith has gone to Pottsville to visit her sister, Mrs. Geo. W. Bullock, and expects to remain nearly all winter.

Rev. Wharton commenced a protracted revival meeting in the M. E. church on last Sunday evening. We know of no other place that is more in need of one than this place.

David Keatley moved in with Uncle Billy Iddings, James Stere moved in the house vacated by Mr. Keatley and which he purchased from the Mary Wilson estate, and Ed. Morrison will move off the Ellis Twitmore farm into one of the Leathers' house just vacated by Mr. Stere.

S. K. Euerick gets all the sales to cry in this section, and he's hard to beat.

Football has struck our town at last and the fever runs high, and now there is a fine opening for a first-class undertaker.

Daniel Taylor and Anthony Wise, of near Fillmore, are frequent visitors to our town; but, as we have only 28 widows left, I would say to them that we have none to spare.

Our local team of hunters returned from their haunts on the Alleghenies on Saturday, after a two week's hunt, very much crest fallen. They were completely "skunked," not a thing. They report having wounded a couple of fine deer but they escaped them. Paul Shipley shot a bear but didn't get him. He had some of his fur in evidence.

Sammy Holt, who works on Dent's run, sent home, by express, a very nice 60 lb. deer on Saturday.

The "Tyroner Hunting Club" returned on Saturday from a two weeks' hunt on Benner's Run with one fine 6 prong buck, that tipped the scales at 210 lbs. A Pittsburg man shot him and he refused \$100 for his head and neck.

The Misses Hoover, daughters of A. H. Hoover, of Fillmore, brightened our streets with their cheerful countenance on Saturday. They are members of Supt. C. L. Gramley's regiment of school teachers and are in the front ranks.

Our merchant friend, J. E. Griest, during the past week was sorely afflicted. He and his wife were both sick at the same time, his chief clerk, Charles Griest, is still hobbling on crutches as a result of the injuries received at the Bathurst fire, and Andrew Thompson, his reliable assistant in case of need, was also unable to be in the store, on account of illness. Charley Rowan, an ex-clerk, with the assistance of Miss Marie his accomplished daughter, they "worried through," Mr. Griest is again in the store.

John Bullock, of Altoona, and Wm. R. Miles, of Philadelphia, spent Sunday in our town the guests of "Wouldn't you like to know, my boys?"

Yarnell.

Married: At Baptist parsonage, at Milesburg, Thursday, Nov. 27, by Rev. E. C. Houck, John Heaton and Miss Rosetta Rockey, both of this place. After the ceremony, the couple drove to the bride's home where a reception was held. Best wishes for a long, happy life.

What to do Until the Doctor Arrives.

"One of my children was taken with cramp colic and suffered severely," says S. B. Elzee, of Monett, Mo. "I telephoned for a doctor, then gave a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and a few minutes later a second dose. Before the doctor came the child was relieved." For sale by Green's Pharmacy.

Spring Mills.

O. T. Corman is quite a heavy operator in all kinds of produce. His operations in apples and potatoes this season have been very extensive, shipping from a five car loads a week. He says he is very short in his orders for beef hides, and will buy all that are offered and pay 6c. per lb cash or 7c. trade.

Wm. Ruhl has now quite a neat office opposite the hotel. He has by close attention to the wants of the traveling community, built up a large hvery business.

Butchering is now in full force. As yet I have heard of no extraordinary avoidpous in porkers.

We are all waiting patiently for the \$5,000 bridge to be thrown across Sinking creek. As the iron and steel frames were cut for the bridge about the time the Commissioners countermanded the \$5,000 order there should be no further delay. There has been foolery enough in this whole business.

The nimrods of this village appear to meet with indifferent success in their hunting expeditions. A few rabbits seem to be about the only trophy.

C. P. Long's store was entered by burglars one night last week, but were disturbed, as nothing was taken. They all intended to enter the post office and had put out the light in front of the building which is kept burning all night. This was discovered by P. M. Krape whose residence is just across the lawn, when he immediately threw a light on the P. O. building and then went to investigate and give them a warm reception, but the birds had flown.

T. Calvin Kennelly, son of James Kennelly, of Spring Mills, has about completed an invention, which is certainly of a startling character, and if it performs all that is claimed for it, it will be a complete revolution in the expense attending the use of steam power. Mr. Kennelly claims that his invention will also do away with smoke, dust and the offensive odors arising from the use of coal and coke. The invention can be attached to any locomotive and stationary engine, and the same amount of steam can be produced with only a quarter of the amount of fuel as is required at the present time. Of course the saving of fuel expense would be so enormous, that it could hardly be calculated. A week or ten days since Mr. Kennelly visited Pittsburg for the purpose of adjusting some minor parts and thoroughly testing his invention in one of the large machine shops in the Smoky city. But on his arrival, unfortunately, he was suddenly taken ill, and before anything could be accomplished was obliged to return home, and has been confined to his home ever since, and the trial and testing of his invention is postponed to a later day. Mr. Kennelly does not give any details of his invention, but after thoroughly testing it will apply for patents here and in Europe.

Miss Mittie Winkleman is at Jersey Shore visiting her sister, Mrs. M. C. Doran and family.

Butchering has been all the go the last two weeks.

There have been some funny things happening through here the last week; one man killed three hogs and when he went to put his meat away there were only two back bones. Maybe some one could tell us whether the one hog had no backbone or what became of it; and at the supper on Saturday evening there was a freezer full of cream deliberately walked off the back door step, when there was no one around, but stopped very suddenly in the smokehouse.

Boalsburg.

Thanksgiving is gone, Christmas next.

Already the question of what my Christmas gift shall be, occupies many minds. Shop keepers in anticipation of generous good will which pervades the minds and hearts of people at this joyous season, are making their stores a veritable sea of supplies for Santa Claus. Even now the mantle of new fallen snow reminds us of the Christmas season, but the weather man promises us more mild days before that time.

The season of deer-hunting afforded some fine sport to our nimrods, and on the last day of the season they brought down a fine specimen of deer, and ended that day's work by killing the largest black bear ever brought to our town, weighing three hundred and ninety-three pounds.

A Druggist's Advice.

Mr. C. L. Thompson, a druggist of Danville, Ind., gives the following wholesome advice to his customers: "If you should ever need a remedy for cough or whooping cough, get Chamberlain's Cough Remedy. It absolutely has no equal for the prevention and cure of cough, and if taken in time and according to directions, it is a most excellent remedy for whooping cough and all throat and lung troubles. I would recommend that a bottle of this medicine be kept in the home at all times, especially where there are children in the family." For sale by Green's Pharmacy.

The protracted meeting that was to commence on Sunday evening was deferred on account of the snow; the old saying is, a "bad beginning a good ending;" hope they may have success.

John Snyder, a son of Jesse Snyder, of High valley, was visiting at this place over Sunday; he has some thrilling events to tell, having traveled half around the world, having been employed by a freight steamship to China; he related of having been in a terrible storm, fearing that the ship would upset any minute; he also related how people lived in China, the working class are as bad, if not worse off, than our cattle; where our people are stuck up with pride, the Chinese have no clothes to wear at all. No wonder we say, the half of this world knows not how the other half lives.

The Children's Favorite.

One of the greatest difficulties encountered when children are ill, is the objection they have to taking medicine. The remedy must be pleasant or the patience of the parent is exhausted before it is successfully administered. Mr. G. G. Wagner, of Spring Grove, P., overcomes this annoyance by using Chamberlain's Cough Remedy. He says his little boy always asks for it whenever he catches cold. This remedy has become the children's favorite, as it is pleasant to take and it always cures and cures quickly. For sale by Green's Pharmacy.

The Sons of Temperance held a peanut social in the "Black Hole of Calcutts." Thursday evening. The shell game was worked indiscriminately. The victims, however, bore a look of satisfaction for they had learned the uncertain point in a lottery prize all in a nutshell.

The little town of Snow Shoe, situated, as it were, two thousand feet above the Atlantic tide level, and noted for its beauty of scenery, and other beauty, wise and otherwise, was recently, the scene of a beautiful romance. The details are not for the public ear, but suffice it to say, that more than one victim was numbered among the participants. And while it would be out of the province of this article to mention any names, still it might be lightly suggested that these victims could be exactly counted on the fingers of your hand, and, on the whole, furnish material sufficient in volume and romantic character, for the thorough equipment of a modern dime novel or theatrical melodrama.

DON'T DELAY.

It is "Putting Off" Till Some Other Day that Causes so Many Sudden Deaths.

If its for the kidneys, liver, bladder or blood, rheumatism, dyspepsia, chronic constipation, or the weaknesses peculiar to women, the most efficient medicine known to the medical profession is Dr. David Kennedy's Favorite Remedy, and a very simple way to find out if you need it, is to put some urine in a glass tumbler and let it stand 24 hours; if it has a sediment or a milky, cloudy appearance, if it is ropy or stringy, pale or discolored, you do not need a physician to tell you that your kidneys and bladder are badly affected.

The Rev. Theodore Hunter, pastor of the Presbyterian Church, Greensburg, Ky., writes us the following:

"It gives me much pleasure to state that I have received great benefit from the use of Dr. David Kennedy's Favorite Remedy. Some time ago I had a severe attack of kidney trouble, but a few bottles of 'Favorite Remedy' have entirely removed the malady."

"Favorite Remedy" speedily cures such dangerous symptoms as pain in the back, frequent desire to urinate, especially at night, burning scalding pain in passing water, the staining of linen by your urine.

It is for sale by all druggists in the New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.
