The bridge over Sinking Creek erected by T. B. Jemison, is certainly a very substantial structure and is far in advance of the specifications. According to that article the logs for cross pieces, were to be a certain number of inches square, this Mr. Jemison deemed insufficient and not giving proper strength, so he used much heavier timber. In fact in building the bridge, he exercised his own judgment, and improved and substituted wherever of the specifications, regardless of the specifications. Mr. Jemison built a bridge far in advance of the specifications, and had it open for travel in less than four days from its commencement, and simply received the amount he contracted for with the supervisor, although he expended over twenty-five dollars more than his contract called for, but the Colonel was determined to have a safe and solid bridge, even if he lost time and money by the operation. Mr. Jemison is the old reliable insurance agent of our village, and of course was interested in the recent fire. I saw a check he received, payable to Mr. Musser whom he had insured, and who lost everything by the fire. Mr. Musser received his insurance in less than a week after the destruction of his place of business—not every company is that prompt.

The Journal stated last week that there was a petition out for the purpose of condemning the Youngmanstown, Aaronsburg and Old Port turnpike road; the road is certainly not kept up as a toll road should be but there was no law passed in 1901 authorizing the state to purchasing toll or any other roads. And the board of trade was not bribed when it put forth a petition asking the "state" to buy toll roads; the only law in reference to toll roads, abandoned or condemned, was gotten up by Mr. Johnson, of Union county, which authorizes the County Commissioners to take charge of and keep said roads in proper condition.

Lost in a Coal Mine.

Burket McCall, a mine boy, aged about 18 years, has been lost in the abandoned workings of the old Powellton mines since last Tuesday night and no trace of him has yet been found. Over a hundred miners, who are familiar with the old workings, are searching for him. The Powellton has many hundred acres of abandoned works and it is here that he is supposed to be lost. Every able-bodied man in the village has joined in the search, and it is hoped that McCall will soon be found.

Is It Coal?

Boalsburg is excited on account of prospecting for coal near that place. A shaft is on the Reitz farm, another party has found rocks west of that place on the surface that apparently contain coal, or at least inflammable matter.

Mother

"My mother was troubled with consumption for many years. At last she was given up to die. Then she tried Ayer's Cherry Pectoral, and was speedily cured."

D. P. Jolly, Avoca, N. Y.

No matter how hard your cough or how long you have had it, Ayer's Cherry Pectoral is the best thing you can take.

It's too risky to wait until you have consumption. If you are coughing today, get a bottle of Cherry Pectoral at once.
