Our town has its share of seamstresses, the following comprise the lot: Marion Emerick, Mrs. A. L. Miller, Mayme Wolf, Kate Fehl and Lizzie Brindle; this shows not only that there is git-up-and-get-there in the men of this place, but that the opposite sex possess a fair amount of ambition.

Operations on the immense timber tract of the Walker estate, at the east part of the valley, will begin in the spring. The timber will be taken to Union county; the logs will be cut and transported by trucks to the large mill at Laurelton.

I saw in the Democrat, on 22 of January, that all those who are out of stamps should notify the office and they would be sent promptly. Please send a few to Georgetown, as the High valley scribe just sold gas and don't need any now; if you have any on hand send a few to the Coburn scribe, so I hear from him.

She succeeded in having 45 of his friends to call slyly on him at an hour he was not expecting company. He soon gained his composure, and entertained them royally until time for the repast. It was a complete success and showed the good qualities of his wife. Music was the chief feature of the latter part of the evening, and some beautiful hymns were rendered. In a recent issue of the New York Magazine of Sanitation and Hygiene, the recognized authority on all matters pertaining to health, James H. Montgomery, M. D., says editorially:

"After a careful investigation of Dr. David Kennedy's Favorite Remedy, a specific for kidney, liver and bladder troubles, rheumatism, dyspepsia and constipation with its attendant ills, we are free to confess that a more meritorious medicine has never come under the examination of the chemical and medical experts of the New York Magazine of Sanitation and Hygiene. In fact, after the most searching tests and rigid inquiry in the record of Dr. David Kennedy's Favorite Remedy, it becomes a duty to recommend its use in unequivocal terms to every reader of this journal whose complaint comes within the list of ailments which this remedy is advertised to cure. We have obtained such overwhelming proof of the efficacy of this specific—have so satisfactorily demonstrated its curative powers through personal experiments—that a care for the interests of our readers leads us to call attention to its great value."

PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children?

Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Scott's Emulsion is a mixed food; the Cod Liver Oil in it makes flesh, blood and muscle
