Martha.

I always thought that it would be a proud epoch in my life if ever I should arrive at that point in literary fame, that the seekers after truth in this great world would have to come to me for advice. And now when I receive a letter, asking advice, I feel somewhat timid about brushing the cobwebs of fraud from my intellect, and reaching for the bottom word in my rusty "thinking pot," so that I Our old grain dealer, W. E. Shaffer, might be able to expresss my reply in of Mifflinburg, is doing an up-to-date such a way that it will not be offending business. He shipped two car loads of to the fairer sex.

Sugar Grove, Pa. DEAR REUBEN: -I am a poor school ma'am with a sick mother and six little brothers and sisters to support on twentyfour dollars a month, minus twelve dollars board. Can you give any advice on how to make the salary reach all our needs without straining my purse? Did you ever teach school yourself? Do you believe in corporal punishment? do not like teaching school, and would not do it but I need the money. Would you advise me to continue, or had I better get married? Please answer soon. Your Ida.

children.

This gentle appeal reached me a few days ago and I pulled off my coat and knee deep reserve, and swore I'd answer Ida through Centre Democrat or bust up my reputation and lose my politics. I hope fallen on slippery ice which caused his you will send her a marked copy free, as natural gas tank to explode, throwing a five cent strain on her fat salary might cause a panic among the school teachers of Sugar Grove county.

DEAR LITTLE IDA :- You come to the boss shops to learn economy. I have lived without an income, within an income, boarded where I wasn't welcome, been hungry enough to eat oakum, and the outcome of my income is not sufficient for me to say, "Oh, come to my bosom, Ida! come with your little income, and find a welcome oakum." I say I can't do it because my income is too small for two to live within it. I have been living within it myself—all but a few promin-ent points are within it, such as my toes and knees, and that portion which comes so handy when I take my ease, but a few blue drilling patches carefully tacked on the territory where the income fails to circulate, does well enough as long as a fellow is supple enough to make both ends-but, say, Ida, you may want money very badly, as you say, but, good lands, you don't seem to want very much of it, if you can keep such a family on your present salary. Why, Ida, I know of men whose income is more per minute than yours is per month, and yet they can ard. scarcely live, I judge so at any rate, because they don't want anybody else to now while others have to walk. come reach your needs, is to have less needs than your income amounts to.

Your pos's ript, Ida, should have been answered last, to do things up in regular rotation, but it will do here in the middle just as well. This is quite an original idea of your own, as I never be ore saw a postscript dropped down to the foot of a letter, I usually see it scrawled up along the shank of it.

Yes, geography is a good study for children. It is the science of the world's globular pattern and tells a few truths about its inhabitants. It also teaches the young scholar that he is a creature of an accident: it teaches him that if he had been born in Africa, he might have been an African; born in England he might have been Jack the Ripper; born in New Jersey, he might have been a common born in Washington, D. C., he might have been half chambermaid and half congressman; born in Iulian he might have been an aristocrat : born in Chronister county he would have been a Democrat; born at the North Pole he might have been a pole cat; and if his father had gone off to sea and been drowned he might not have been born at We are more the children of good luck than of good management any way. aint we Ida?

Did you ever teach school? Well, Ida, I shall leave this till next week to

IF YOU HAVE PAIN IN YOUR BACK

Do Not Be Deceived. You have Kidney Trouble, and You Do Not Need a Physician to Tell You So.

Pain in the back is an almost infallible sign of kidney disease; a surer sign is the condition of your urine. If you have a pain in the back, then look to the condition of your urine. It is easily done. Take a glass or tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, if it is pale or discolored, stringy or ropy. your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal. Dr. David Kennedy's Faverite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, and it will take you but a short trial to convince yourself of its wonderful curative power.

G. F. Sammer of No. 409 Tioga street, Syracuse, N. Y., in a recent letter says:

"I was afflicted for years with severe pains in my back and kidneys. I tried many doctors and many medicines, but got no relief. I bought a bottle of Dr. David Kennedy's Favorite Remedy and it has entirely cured me."

It is for sale by all druggists in the New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle-enough for trial, free by mail. Dr. David Kennedy Oorporation, Rondout, N. Y.
