COMPROMISE MAY FALL Shelton, Conn., Was Flooden and

Democratic Senators Will Not Accept Substitute Statehood Bill.

TO MAKE NO MORE CONCESSIONS

While Efforts Towards Compromise Continue, Few Senators Expect an Adjustment to be Reached - Will Make Counter-Proposition.

Washington, Feb. 24. - Statehood compromise was talked of yesterday. It was generally understood that what was generally known as the Spooner compromise, being the two-state bill drawn by the Wisconsin senator, would be satisfactory to the Democrats. The compromise bill provides that before Arizona can be set off as a separate state the population of Montezuma must be 700,000, of which 300,-000 should be in Arizona. The Democrats, while talking in a conciliatory spirit, said that they had little hope that the Republican proposition would be acceptable to them. It is quite likely that when this proposition is submitted the Democrats will have a conference. Probably a counter proposition then will be made providing that when Arizona has a population which is the average for a representative in congress it shall be admitted as a state; also that a census shall be taken every year. The Democrats say they want a provision fixing a date which shall bring Arizona into the Union. This would not be satisfactory to the Republineans. While the efforts toward a compromise continue, there are only a few senators who expect an adjustment to be reached, and the prospects of statehood legislation are still remote.

There was an earnest conference in the senate chamber after adjournment yesterday, participated in by Senators Aldrich, Quay, Hanna, Foraker, Mc-Comas, Beveridge and Kean, when it was definitely decided that the proposition for a compromise on two states should be submitted to the Democrats. Senator Quay presented a memorandum of the important features of the compromise to Senator Bate, who presented it to a conference of Democrats today. It is expected that the Republican proposition will be rejected and a counter proposition made. Democratic leaders say that they cannot accept the compromise suggested, and the Republicans say that no further concessions will be made.

PUBLIC BUILDING BILL PASSED

Omnibus Measure Adopted by the Sen ate-Postoffice Bill Considered.

Washington, Feb. 24.-A large crowd was attracted to the senate yesterday. most of them visiting Daughters of the American Revolution. Washington's Farewell Address was read by Mr. Dubois, of Idaho. The omnibus public building bill was passed, and the postoffice appropriation bill was considered | had openings far above the prisoners' without final action.

By the public building bill passed except the oaken doors. the amounts of various buildings are It is known that Ethan Allen, the

J., \$150. 000; Marblehead, Mass., \$70,000; Amosbury, Mass., \$55,000; Municipal Building. Washington, \$2,000,000.

Additions and increase, Richmond, Va., to a total of \$591,628.

JUNIOR MECHANICS' BREAK

Lancaster's 2300 Revolt and May Disrupt the Order.

Lancaster, Pa., Feb. 23.-The representatives of the 17 Lancaster county councils of the Jr. O. U. A. M., representing 2300 members, have unanimously decided to refuse further payment of the per capita tax to the State Council of the Loyalist faction, headed by State Secretary E. S. Deemer and Stephen Collins.

It means a total breaking away from the Loyalist faction, and it is more than probable that this action will have important bearing on the anti-Loyal factions throughout the United States.

Two Killed By Explosion.

Connellsville, Pa., Feb. 24.-Two Italians were killed, two fatally injured and a number of others slightly hurt by an explosion of dynamite on the Baltimore and Ohlo Railroad double tracking operations, near Rockwood. Pa. The men were thawing dynamite when it exploded, scattering death and destruction in all directions. The two Italians killed were hurled into the Castleman river, a distance of 100 feet, and their bodies were horribly mutilated. The names of the killed and injured will not be learned. as they are known only by their working numbers.

Girl Burned Alive.

Connellsville, Pa., Feb. 23. - Mary Kohland, aged 11 years, met a horrible death last night by being burned alive n a coke oven. The little girl in running down the hill above the ovens, fell and rolled into one of the hot ovens. Men at work nearby broke into the oven and secured the body, but it was burned to a crisp, hardly the semblance of a human form being left.

Gov. Longino's Caughter Fatally Hurt. Jackson, Miss., Feb. 24 .- Annie, the ave-year-old daughter of Governor Longino, yesterday fell from a secondstory stairway in the executive mansion and suffered injuries which probably will prove fatal. Governor Longino, who is attending the Mardi Gras selebration in Natchez, was summoned home by telephone.

Much Damage Done.

Derby, Conn., Feb. 23 .- The breaking of three reservoirs in the town of Shelton early yesterday caused damage estimated at \$100,000 and there were geveral narrow escapes from death. There are three reservoirs in the town, situated on a hill in the western part of the town. In some unknown manner, a hole was broken in the largest reservoir. The rush of water soon increased the hole to immense proportions, and the water flowed down to the reservoirs below. These were unable to withstand the pressure, and their walls gave way, giving the water a free path to town.

The torrent tore a great gully 110 feet long and 30 feet wide through Howe avenue. Logs, trees and huge cakes of ice were carried along and crashed into several buildings.

The house of Walter Nichols was struck by the flood. Nichols was away and his wife was aroused by the ice crashing against the door. A few moments later the water commenced to flow into the bedrooms, where six children were sleeping. Mrs. Nichols hurried to the door and held it while her children escaped to an upper floor. A few moments later she escaped just before the water and ice forced in the door and flooded the rooms. The family remained prisoners in the upper part of the house until the water receded.

Warren Wilber was awakened by a cake of ice crashing through his door. He ran into the street, where the water was waist high, and hurried to the nearest point of safety. Several times he was hit by ice and fallen trees and painfully injured. Ten minutes later the side of the building was swept away, and the bed in which he had been sleeping was carried along in the

OLD DUNGEONS UNCOVERED Prison Built by British 147 Years Ago in New York.

New York, Feb. 24.-Workmen, tearing down the old Hall of Records in City Hall Park yesterday, uncovered six gloomy vaults, which had not seen a ray of light in nearly a century. With pick-axe and crowbar the laborers tore out a huge slab of marble in January 21. what was the first floor of the old ! building giving access to the dungeons, used in revolutionary times for confining American patriots, until New York ceased to be a British town. The doorways connecting the half-dozen gloomy cells have disappeared, but the huge oak lintels on which they swung remain firmly embedded in the massive partition walls. The old dungeons were built 147 years ago by the British as part of a prison on what was then the northernmost limits of the city. The stone was hauled from Haddam, Conn. Beneath the marble floors of the prison structure proper were the dungeons, separated by walls three feet thick. Four of these cells heads, but two were without opening

hero of Ticonderoga, was an occupant of one of the cells, and it is I elieved that Nathan Hale was here confined from the time of his capture until his execution nearby. The building was refitted in 1830, and since has been used for municipal offices.

CURE FOR NERVOUS DISEASES Chicago Professor Advocates Use of

Calcium Salts.

Chicago, Feb. 23.-Dr. Jacques Loeb has discovered that muscular and nervous diseases, such as St. Vitus dance, paralysis agitans, locomotor ataxia and sleeplessness can be cured by aiministering calcium salts, that is, such salts as are found in well water and many foods.

Announcement of this discovery in scientific research by the former head of the department of physiology at the University of Chicago has just been made. In one of the decennial publications just issued by the University of Chicago Press, Dr. Loeb tells of his experiment on lower forms of life and the conclusions suggested in regard to human beings.

Simply stated, the conclusion is that the presence of calcium salts in the muscles is what prevents their twitching; that practically all nervous diseases are caused by the absence of the calcium, and that, therefore, to restore normal conditions and effect a cure, the cure is to dose with calcium salts.

Searching For Missing Collier. Washington, Feb. 24. - Secretary Moody yesterday had word that all three of the relief ships sent out to search for the missing collier Alexander had started on their mission, the Prairie from Galveston, the Topeka from Kingston, Jamaica, and the Hannibal from Norfolk. The three vessels will act in conjunction with the Lebanon, already under way in making the search, and by following a system of converging lines it is expected that they will soon discover the drifting

Died From Drinking Wood Alcohol Schenectady, N. Y., Feb. 23.-Mrs. George Stave, aged 52, and her daughter, Mrs. Lemuel David, aged 27, died yesterday from drinking wood alcohol. They had been accustomed to drink small quantities of hot diluted grain alcohol to relieve illness, and during Saturday night, neither one being well, they prepared by mistake wood alcohol and drank it. They survived several hours and died within an hour of each other.

President Signs Elkins Bill. Washington, Feb. 21.—The president late yesterday afternoon signed the Elkins rebate bill. With the signing of this measure the administration antitrust program for this session of congress is completed.

A WEEK'S NEWS CONDENSED.
