bers is beginning to feel alarmed.

THERE is a rousing big fight on just now in Cambria and Somerset counties over the new county project which Johnstown is working up. Ebensburg people are kicking like mules and there is a general lining up against the county outside of Johnstown and the adjoining members of the Bar association are unfrom Somerset.

JOHN Hamilton, secretary of agriculture under Gov. Stone, has been removed by Governor Pennypacker and ex Senator Critchfield, of Somerset, appointed in his place. There is no one sorry over this change in the menu at Harrisburg excepting "farmer" John who has been trimming his sails to renew favors from whatever faction he thought would be

IS THE ANTI-WAR TRUST ENDED?

The three administration bills to meet the trust evil and to some extent curb and reform it have passed Congress by a practically unanimous vote. A more thorough measure known as the Littlefield bill has passed the House by a unanimous vote practically, but meets with less favor in the Senate, and will probably not to be reported for action. The trusts have called a halt.

It is the general expression that, while the administration bills are fair enough as far as they go, they are not sincere nor intend to accomplish practical results in the way of checking trust domination. We can well believe it. There is a scarcely disguised alliance between the trusts and Republicans of the administra tion party. Their interests are identical, being those of money and power. The trusts are a great political power. They control elections and nominations and Congress, with an approving administration in the background. There is not a great trust in the United States that is THE editor of the Republican said not in open or secret alliance with the Republican party.

2 PAPERS FOR \$1.65.

The Thrice-a-Week World was a brilliant success in the beginning and has been steadily growing ever since. Time is the test of all things, and has set its seal of approval on the Thrice-a-Week World, which is widely circulated in every State and Territory of the Union, and wherever bere are people who can read our mother tongue.

This paper for the coming winter and the year '03, will make its news service, if possible, more extensive than ever. All events of importance, no matter where they happen, are reported accurately and promptly

The subscriber, for only one dollar a year, gets three papers every week and more news and general reading than most great dailies can furnish at five or six times the price.

The Thrice-a Week World is absolutely fair in its political news. Partisan bias is never allowed to affect its news columns, and Democrat and Republican alike can obtain in its pages truthful accounts of all the great political campaigns.

In addition to all the news, the Thricea-Week World furnishes the best serialfiction, elaborate market reports and other features of interest.

The Thrice-a-Week World's regular subscription price is only \$1 oo per year and this pays for 156 papers. We offer this unequaled newspaper and Centre Democrat together one year for \$1 65. The regular subscription price of the

two papers is \$2.50.

uppermost. He "got there" under Hastings, then under Stone, but got his expectations shattered under Pennypacker.

New MEXICO passed a bill creating Quay county in honor of Senator Quay's fight for statehood. We do better than that in Pennsylvania, we call it Quaysylvania, and the old republican party goes by the name of the "Quay machine," and if Quay had not plead the limitation in a recent prosecution for rascality conmitted, he would have gone to the penitentiary and that would then been named Quas's reward. There are a score of other "things" in Pennsylvania that bear a clever swindler who claims that he is the name of "Quay."

SENATOR J. K. P. Hall, of Ridgway, will be a candidate for chairman of the democratic state committee to succeed Representative Wm T. Creasy, of Columbia, who will retire at the annual meeting at Harrisburg on April 15. This position generally goes a begging, as the democratic organization in this state for some years, has only been a name. When we had leaders like Wallace. Randall and others there was some force to the state organization. Of late it is only a mere trading post for petty politicians and monied men, who follow politics for pastime.

WHEN Garfield was assassinated by Giuteau, and years thereafter M'Kinley was assassinated by Scholgosz, the republican press was only too eager to fix these awful crimes upon the democrats, but when it turned out that Giuteau was a rampant republican and that Scholgosz voted for M'Kinley, these facts knocked the bottom out of those malicious libels against the democrats. We are led to at this office. The piece is having a these remarks by a pertinent extract large sale, which is an indication of its from an article in a recent issue of the merit. He resides at Axemann. Commoner: "How complacently many of the republican papers have taken the assassination of Governor Goebel. How little interest many of these papers have felt in the prosecution of the guilty party. If a republican official had been killed by democratic politicians the country would have rung with denunciawould have been accused of belonging town delegation here for it. to a party of law-breakers. But it is different when a democratic governor dies at the hands of republican partisans. No democrat thinks of accusing republicans generally because a few republican politicians resorted to murder. but the republican ought to resent the attempt of one of the accused to make it appear that the republican party is on trial."

Farmers should be on the look-out for organizing a "National Threshers' Protective Association." He secures the membership of many farmers by assuring them that he is forming a nationa association by which it would be impossible to raise the price of threshing. The members are required to sign a certificate which they are told entitles them to, a life membership. Later their signature turns up at the bottom of a note ranging in sums of \$5 to \$50.

THE STORE OF THE PEOPLE.

Yes, that's i's true name-" The Store of

the People." It has proved its ability, it has demonstrated its wonderful resources to meet all the people's varied wants at any and all times-the needs of everybody. The people of Centre county should be proud of this store, for it is their store truly. It was started to meet a recognized demand from them, and its wonderful success has been due entirely to their a sistance, aid, encouragem nt or patronage-call it what you will. Our success also has been due in a great measure to ju dicious criticism-sometimes even keen from the same people. But this criticism was expected-even sought, for weaknesses pointed out only gave new places to strengthen. The people have made the rapid growth of this store a possibility. They have been with us, of us and for us. Our part in this store's success has been based on very simple lines :---to sell the best merchandise at the lowest possible prices, and to frankly and honestly recommend our goods as we knew them to be.

The Fall and Winter period of selling is about overthe closing of the busiest, the most successful season this store has known. But be assured, we'll not lag behind to speak of what we've done ; rather, it acts as an incentive to stir us for better establishing this popular store in the minds of Centre county's people.

Scarcely was the new year ushered in until an extensive buying trip was made to Philadelphia and New York City where many lines of goods from these cities as well as Baltimore, Chicago and Rochester, were carefully examined and orders given to the deserving-those who gave the most intrinsic value for a dollar. Within another week we expect to have Spring's "newest" in men's and boys' wear here. In fact, all the Hats and a good portion of the Shirts are here now.

This will be a showing better than our past bests,--to make this even more "The Store of the People."
