Last Friday he came down on the 1:15 train, no doubt, to look after his interests in said quarries. The rumbling of the car wheels over the iron rails gently soothed him to sleep and when the train stopped at this place he was aroused out of his slumber and looking out of the window exclaimed in *solo voce*, "Hello; Milesburg already, I must change cars here," he got off and the train went on. Seeing an old friend in the person of Squire Pratt, he approached, shook hands, and after passing compliments, saw the west bound train pulling out of the switch "why?" "Oh" said the Squire, "that train is going to Tyrone." "Well, but I want to go to Bellefonte," said he. "Well there goes your train" said the Squire as the train went round the bend. Then it soaked into his mind that he was at Unionville, instead of Milesburg, but he got left beautifully.
