Lemont.

The ladies aid society of the U. Ev. church will hold a social this Friday evening at the home of Wm. Houtz. All are cordially invited to attend.

Prof. Gramley held his teachers' local examination at this place last Monday.

Rev. Campbell, of Sprace Creek, will preach in the Presbyterian church Sunday morning. In refutation to nothing, I will kindly call your attention to the little article which was in the "Centre Furnace Squirt" last week. It contained so many misspelled words that it was hard to make out, as for instance the simple little word beaux, which of course would be a strange sight for the writer of this stuff to see. but nevertheless it is absurd to have a word like beaus to enter a sound person's vocabu lary. I suppose everybody will be wondering who this new correspondent was. Well she calls herself a he, and for my part I believe all she says in regard to this statement. Glancing at the next article, we might say that "Squire" is all right. My particular aim of this week is to introduce to the public the latest song of Co. B, composed by Capt. Hobson, E. E. F. Rs, as follows, it may run:

Yi, yi, phi, dom Ci

Dunern veters, Hard scrabble, Well now, I beg your pardon, for not describ ing the appearance of the leader of this company, but in order to avoid any haziness in your mind, I shall proceed, providing I can get some one to stop me before I say too much. As comes after you'll notice,

What love lit eyes! 1 win beacons rare! What landscape cheeks! What wavy hair! Her mouth-a sort of inland sea : Her smile-a whole geography.

She is the bonniest, best rigged lass. From Puddintown to Snodgrass; And when she laughs her open face Looks like a sea-side watering place.

And yet one seems to need a chart. To find a post from which to start : Her mouth is like Long Island sound It takes a week to get 'way round.

I'd sing like a saw-mill, but oh! Pickles, I must bid you adleu, so as I dress for supper, I'll still be thinking About "Nothing."

Colyer.

Some time ago the Colyer scribe advocated rural free delivery ; we have not changed out mind yet. On May ist we got our first service from the R. F. D. and thus far it has been satisfactory, it is true not every man can have his box right at his door, but even those who have to go from 40 to 100 rods to their box, find that it does not as long to go that distance as it will to a mile or more; the mail we got before beween 6 and 7 o'clock in the evening we now get at noon the same day.

Five o'clock on Sunday morning the dweiling house of Mrs. Francis Colyer was discovered to be on fire, an alarm was made but it was found that the fire had taken entire control of the fine building ; the house and all its contents was soon in ashes, with no insurance. Her loss will probably reach upwards of \$1000. Some strong attraction in Fruit-town for

During last week our valley was clouded with

smoke from the mountain fires. Fruit was damaged by the heavy frosts and evere cold the latter part of last week.

Wm. Taylor's are moving to near Linden Hall this week. The appearance of our community is greatly

improved by the shining mail boxes. Say, Culbison are you going to Washington to fight them on the free rural delivery? hang

In Georges valley on Memorial day, the evening services in the church will be interesting. The address will be delivered by Col. T. H. Nicewanger, of Altoona. The phono graph will enliven the occasion with the well known song "Tenting on the Old Camp Ground" and other appropriate and attractive pleces.

Wm. Pealer has his new store and residence ready for the steel roofing. The carpenters will commence in the interior this week. Renna Shires has resigned her position in

the post office, Boyd Auman now occupies the position. The rural delivery system went into effect here Friday last. All the carriers start ed on their respective routes in high glee and so far have made schedule time.

Anna Corman met with a serious accident on Thursday evening last, which may result in the loss of an eye. In endeavoring to obtain an article from an upper shelf in the store, her arm came in contact with a hanging tin sign of about a foot square, knocking it down, a cor ner of which penetrated her eye, since the un fortunate occurrence she has suffered exces sive pain. Her physician thinks however, that possibly the sight has not been destroyed.

The sudden cyclonic storm of Thursday evening last, with its immense volumes of smoke and dust, was rather startling. No damage however, has been reported in this neighborhood.

Magnus Alaman and Flora Duck returned home Friday from Hopewell, N. J., where they attended the funeral of their brother in law James H Philips.

John Heckman had his fence removed last week and it adds greatly to the appearance of his property. Elizabeth Barr, of Snow Shoe, was the guest of Bertha and Flora Duck last week.

We see that the Legislature has passed sev. eral bills and now we would like to know what they have done for the farmer, as we are still left in the old rut, but the farmer is still at the front of all kinds of business; the farmer is in the old rut so deep he cannot get out ; produce is so low he cannot pay wages enough to get men to help him in his work, so the time has

Is like Playing with a loaded Gun. If you have Kidney Trouble attend to it at once.

It is easy to tell whether your Kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like sub-stance—after standing a day and night, if it is pale or discolored, ropy or stringy, there is something wrong with the Kid-neys. Other sure signs of disease are a desire to urinate often pain in the back desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Bap-tist Church, Spartenburg, S. C., writes:

"For years I suffered with Kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Physicians pre-scribed for me and I took different medicines, but none of them did me any good. But Dr. David Kennedy's Favorite Remedy cured me in about two weeks."

It is for sale by all druggists in the New 50 Oent Size and the regular \$1.00 size bottles-less than a cent a dose. Sample bottle-enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N.Y.

Amon Gramley, had 150 bushels of corn in a

crib at his hog pen and he observed that it was disappearing very fast, and his wife had lots of corn cobs for kindling; at last he concluded he would move the corn, having 18 bushels left. About a week later he put a small pig in one of the cribs and one night later on, rats ate the pig all but the head, and about a week later he carried a bushel of corn into the box in his hog pen and the next morning it was all eaten. Thinking it was time to do something else, he sent to Mr. Shank and got a wire trap and went te trapping and in seven days caught 167 rats, and says there are enough at his hog pen yet to play bar down and tennis ball and don't need to interfere with either game; so if you have any, call at Mr. Shank's and get one of his wire traps.

Forest fires were raging on the mountain north of here last week. The storm and smoke on Thursday eve causd quite an excitement here. Rural mail delivery is one of the latest ad ommodations through here; everybody is

keeping an eye on the flag. Last Sunday Geo. Sheesley had a fine dinner for the family and children, from a distance; of course the scribe had an invitation too. Messrs. Weaver & Fiedler are finishing thei

sawing on Brush mountain for H. B. Herring, after which they will move their mill over to Illinois where they have a large tract to cut out. Rain again over Sunday ; if you want to know

about it ask the girls that went to Brush valey and forgot their rubbers. Last Sunday one of our boys took a trip on

his wheel to Woodward but was caught in the rain coming home; he says he can ride as fast in mud without a tire as walk.

What's become of the Julian scribe? are they leeping or just resting?

People Who Can't Sleep.

Many people go to bed-not to sleep, but to think-to tumble and toss-to get up, walk about until tired Nature gives way and a few fitful hours of sleep are obtained just before dawn-a sleep that does dot rest-a sleep from which one wakes weary and tired, wholly un fitted to take up the daily rountine of household, shop or office duties. That this condition goes on uncared for is almost criminal, when the well-known, time-tried and tested powers of Dr. A. W. Chase's Nerve Pills to give restful natural sleep have been so fully proven in such cases.

cases. Joseph R. Cox. of 1346 Pennsylvania Ave., Tyrone, Pa., Says: "Last fail I got a box of Dr. A. W. Chase's Nerve Fills and both myself and wife used them with spiendid results. It was no time before I rested finely at night and found complete relief from the distressing headaches that had so pensistently troubled me before.
