Suffering from a contused head, the result of being struck on the poll with a lead pencil in the hands of an irate editor, because I was too inquisitive, thus affecting my memory, I forgot to mail the U. P.'s last week, after having them fully prepared. So I soaked them in alcohol and life water and you will find them fully as fresh as most articles clipped from other newspapers by the editors with their long shears and reprinted as "the latest."

There has been a general cleaning up of our streets and alleys by order of the town council and we are glad to note that the order has been cheerfully complied with by our citizens. No doubt the imperative command of our high constable, Wm. Keatley, had the desired effect.

On the morning of May 1st, about 7 o'clock, W. E. Comley's house, on Plank road street, caught fire near the flue on the roof and a hole 3 or 4 feet in diameter was burned, but by the prompt arrival of the bucket brigade the fire was put out. Had the house burned down it would no doubt have destroyed the M. E. church, which is a valuable property.

A few days ago Wm. A. Alexander and his boys saw three fine deer gamboling in his meadow. They were within gun shot range but the meek eyed denizens of the woods seemed to be quite tame and looked at the boys as much as to say, "ah ha; you dare not shoot us as it is out of season."

There has been considerable excitement in Beech Creek township the past week due to the young man who had the smallpox appearing in the public road, school house and other places frequented by the public. The family in question were at once placed under quarantine. Only one case has existed in the township thus far but precautionary measures are necessary. The family of Daniel Ocker was placed in quarantine Friday, they having been exposed to the case.

Everything is quiet at Monument. Many persons are leaving the place to work elsewhere, until the strike is settled. By the Berwind White company acquiring several thousand acres of coal land in Somerset recently, about all the mineral rights of the county have been assigned to the big companies engaged in mining coal. If the present rate is maintained, it is figured that operations in the Somerset field will continue on a large scale for the next seventy-five years.

Rev. E. H. Wallace, of the Montoursville Methodist church, has introduced a novelty in his church, young women ushers. They dress in white costumes of a similar pattern, and do their duty to the satisfaction of the congregation. And yet there are timid men in the world who would rather face a hostile battery than one of these white-robed ushers.

John Mills, of Houtzdale, accompanied by his brother, S. H. Mills, of Windber, sailed last Thursday for England to complete the evidence of their claim to a portion of an estate valued at over \$150,000,000 left by a childless old banker, of whose sister the mother of the Mills brother is a descendant. The brothers expect to be able to prove their claims to the estate now held in chancery.

In a gizzard of an 18 months old rooster which was killed and dressed for dinner Mrs. Rebecca Spangler, of Carlisle, found three pennies, a silver dime, a nickel, an old fashioned Spanish silver coin and several buttons. Now, why not give the entire assets? The Centre Democrat knows that several little sawlogs, a set of harness, a little nigger and two ladies' hats were among the contents of this chicken's maw.

On Saturday Sheriff McCullough and three deputies left Clearfield with eight prisoners, who had been sentenced by Judge Gordon for various crimes, to serve terms in the Western penitentiary. Among the prisoners was the man "Turner," who was sent over from DuBois for a series of robberies. Schwab and wife, with a number of other people will arrive at Williamsburg, in Blair county on May 19, where the corner stone of the new paper mill will be laid on that day by C. M. Schwab. It will be a spread eagle day for the old Blair county town commemoration of Mr. Schwab's goodness to his old home. There will be a speech from him on the occasion, as well as from other eminent men who have been invited and signified their willingness to be present on the occasion. All the orders, as well as school children, will join in a big parade. Two bands will enliven the occasion.

Hills and Mountains Ablaze for Miles.

The thin forests and dry grass and leaves, as well as stumps and fallen trees, on the hills from above Beech Creek to Munson, along the Beech Creek railroad, are on fire and a number of houses occupied by Italians and others along the road were in danger of being destroyed. In a number of places the fires were burning along the railroad ties in the rorbred, and the smoke at times was so dense that the passengers on the train breathed a sigh of relief when clear air was reached. Heavy rains are earnestly hoped for, not only to quench the fires, but to moisten the parched earth.

GOES UP IN SMOKE.

About \$8,000 Worth of Gold Dust Burned at Shamokin.

Some time ago a wreck occurred not far from Shamokin. One of the hands rumaging through the wreckage came to a broken barrel in which was a quantity of dirt, or rather apparently so to the workmen.

Thinking it to be soap-powder or something similar, the boss of the crew ordered it dumped on the fire. The men did so and the scene that followed was one never to be forgotten. Flames of every known hue leaped high while the seething mass of wreckage emitted green and blue smoke, the likes of which the employes had never seen before. The barrel contained gold dust and sweepings from a large jewelry and manufacturing company and was being shipped to Philadelphia to be smelted; The barrel was valued at from \$7000 to \$8000.

A Double Wedding.

A double Hungarian wedding took place in St. Johns Catholic church Wednesday morning. The parties reside at the Stevens quarries in the Buffalo Run Valley. The mass was said in Latin and the marriage ceremony in Hungarian by Victor Zarek, the Polish priest of Clarence, Pa. The parties were Lucia Drozdzian and Max Kerinic and Michael Krepsian and Teresa Smakovic. Each couple was attended by bridesmaid and groomsmen, and all were arrayed in gala attire of profuse colors and the floral display was lavish.

The first bride was attired in white satin with tulle veil and carried a bouquet of red roses. Bride No. 2 wore a black wrapper, cecese trimmings, with green satin skirt and white veil. One of the bridesmaids wore a black satin waist with green satin skirt while the other was more subdued in her choice of colors being attired in brown. In the afternoon a big reception was given in their honor at their home.

PRESIDENT AT BIG TREE GROVE

Gives People an Object Lesson On Evils of Vandalism.

San Jose, Cal., May 12.—President Roosevelt gave the people of this county an object lesson on the evils of vandalism. While at Santa Cruz he was taken to the Big Tree Grove. Almost the first sight that greeted his eyes as he entered the park was one of the huge trees with thousands of business and personal cards tacked on it. Tourists for years have been placing their cards upon this tree, and it began to look more like a receptacle for bits of paper than it did one of the wonders of nature. The president instantly expressed his disapproval of such a procedure, and a little while later, when asked to make a speech, called attention to the defacement of the trees, and said he hoped the people of California would see to it that such vandalism was stopped. He also intimated that he would like to see the cards taken down. Later, when the president went for a walk through the park, the members of his party, together with members of the reception committee, tore down the cards. The committee has named one of the trees after him. The president left this morning for Palo Alto.

PLOT TO BLOW UP SHIP

Infernal Machine Found On Umbria's Pier at Sailing Hour.

New York, May 11.—An infernal machine connected with a hundred pounds of dynamite was found in a box on the Cunard pier. According to the expert opinion of the superintendent of the bureau of combustibles, the box was found and put into the river just in the nick of time to prevent it exploding and demolishing the pier and the Umbria, which was alongside and about to sail. The box was left at the pier in an apparent attempt to have it placed aboard with the baggage of the passengers. The Umbria sailed a few minutes after the box was discovered and all on board were in ignorance of the attempt to place an infernal machine aboard the vessel.

The discovery of the box was due to the following letter received at police headquarters, addressed to Commissioner Greene, telling of the box being left there, and saying it was the work of the Mafia.
