Bridgeport, Conn., May 18 .-- The attempt made by the officials of the Connecticut, Railway, and Lighting. Company to run, their cars with nonunion men resulted in a riot, in which 32 men were injured. The sheriff says that another such outbreak will make the calling out of the state troops nevitable. During the morningists trolley cars were started out on the Barnum and State street lines. When the first car had completed, its third round trip and was directly in front of the Wheeler & Wilson factory, where a crowd of at least 1,000 persons had gathered, a bombardment of stones began. Deputy Sherins Plendrie and Plumb, who were riding on the car, plunged into the crowd to arrest a man whom they had seen throwing a stone. He was seized, and with great difficulty was dragged to the cara inThe stonethrower was a big fellow and struggled so fiercely that a policeman who was standing nearby went to the assistance of the sheriffs. Immediately Mayor Mulvihill was seen hurrying through the mob. He rushed up to the policeman and ordered him to keep his hands off the prisoner. He then told the deputy sheriffs that they had better let the man go. During the argument the stone-thrower wrenched himself free and dashed away. In the meantime stones were fiving in a shower, and one of them struck Mayor Mulvihill on the head, bruising it badly. The two sheriffs jumped builthe car and ordered the motorman to pro ceed to the car sheds, a quarter of a mile away. The bombardment did not abate, and the crowds on the street were so dense that the motorman had to go slowly. The stone throwing soon became so furious that the sheriffs drew their revolvers and fired five shots into the air. This caused the bombardment to let up a little, and the car reached the barns and was run inside. The other five cars, operated on the same streets, received exactly the same treatment as they followed the first car into the car barns.

When the last car had passed inside the doors there was a crowd of 4,000 people gathered in a vacant lot opposite, and violence once more broke loose. Brickbats stones and everything that could be thrown was hurled at the barns and anything that belonged to the company in the vicinity.

At this point Mayor Mulvihill sent for Chief Coffin, of the fire department. Engine Con

A DOUBLE TRAGEDY Albert' Palmer Killed Motfie Beck and

Himself at Bairdstown, Pa, Johnstown, Pa., May 18.- A tragedy caused by jealonsy and resulting in the loss of two lives was enacted at Bairdstown, a little village in West moreland county. The dead are: Al bert Palmer, aged 31 years; Mollie Beck, aged 30 years.

Palmer had been paying attention to the young woman for a couple of months and a number of times de manded that she marry him and that she quit keeping company with other men. Each time she refused. This was the cause of a number of bitter quarrels between them.

The mother of the woman says that Palmer and Miss Beck were on a rear porch, and that finally the quarrel in which they were engaged became so violent, that she started out to inter fere. Just as she was about to step on the back porch. Palmer drew his pistol and fired, Miss Beck falling to the floor dead. Mrs. Beck made a step toward Palmer; when he pointed the pistol at her and fired, the bullet Just grazing her head and entering the wall of the room where she stood He then left the house and went to the home of a brother, telling him of what he had done, and asking him to go along to the house of Mrs. Beck, adding that he intended to kill him-The brother paid but little atself. tention to what was told him, not even when the murderer bade him a tearful farewell and asked him to say good-bye to their parents, brothers and sisters.

Palmer then returned to the house where the girl was lying dead and dragged her body into the back room. He then laid down on the floor, placed the revolver to his breast and fired, the ball entering a point in the center of the chest and causing instant death.

FAVOR EMPLOYERS' UNION

Samuel Gompers Says It Will Prevent Conflict With Labor Organizations.

Washington, May 19. - President Samuel Gompers, of the American Federation of Labor, is an advocate of the organization of employers, as well as of workmen. Speaking on this topic. Mr. Gompers said:

"Employers will find it to their advantage to be organized, and not only this, but to deal with organized labor. The movement to form unions among the business men will tend rather to prevent conflict than to promote trouble. The better the organization on both sides the better it will be for business. Organized employers will be better able to understand the demand of organized labor and to meet these demands without friction.

"There has been much hot talk about the increasing demands of labor. My experience has taught me not to be an alarmist, and I am not alarmed over this particular situation in general. So long as human nature is as it is there will be manifestations of discontent,

both from laborers and from employ-After a short consultation the latter ers. But I believe that every day is making for better conditions. We

MILES DEFENDS SOLDIERS

Cays Privates Protested Against Cruelties In Philippines.

New York, May 16 .- The Army and Navy Journal prints a letter from General Nelson A. Miles, in which the writer says that he went to the Philippine Islands not as a tourist, but in an official character, and that the instructions addressed to him as lieutenant general, "commanding the army," came from the highest authority, viz.; the president, in which he was directed to give especial attention to the instruction, discipline and supplies of the army. In referring to his official report on the Philippines, General Miles says that "no one can have a more sacred regard for the honor of the army than myself."

Coming to the subject of cruelties in the Philippines, General Miles' letter reads as follows:

ing in the Philippines has conditions that warrant resort to mediaeval cruelty and a departure from the honorable method of conducting warfare, and that such departures as have existed should be overlooked and condoned.

"It is most gratifying that the sorious offenses have not been committed by the soldiers unless they were under the direct orders of certain officers who were responsible. Soldiers have withheld fire when ordered to shoot prisoners, protested against acts of cruelty and written to relatives at home urging them to take action to put a stop to those crimes. It will ever be one of the glories of the army that such deeds, committed by whatever authority, are abborrent to the American soldier. The officers who are responsible, using chiefly cruel Maccabebes, do not by any means constitute the American army, and there must be a very unmistakable line drawn between the great body of honorable and faithful officers and brave soldiers whose records have been com mendable, and those, of whatever sta tion, whose acts have received and should receive the earnest condemnation of all honorable men."

Even if at the next general convention an armative resolution leading to a change could be carried it would exidently be done at a sacrifice of feeling not justified by the results to be. gained, and would inevitably leave a large minority of our people aggricved and saddened." day

Verdict Set Aside

Trenton, N.J., May 19 Judge Kirkpatrick in the United States circuit court has rendered a decision setting aside the verdict of \$500 awarded Henry T. Johnson, a colored minister, in his suft against the Pullman Company. Johnson sued because he was refused a seat in a parlor car while en route from Richmond to Washington. The suit was brought under the Federal act of March, 1875, which Judge Kirkpatrick said has been declared unconstitutional. This act related to inter-state commerce.
