CHARM AGAINST ASTHMA.

Breathe the Balsamic Air of Hyomei—Quick Relief for That "Choking."

Hyomei is just as valuable in the treatment of asthma, as it is in catarrhal troubles, and many letters have been received from prominent men and women who have been cured of asthma by this simple treatment.

Rev. George H. Honey of Deer Park Parsonage, Baltimore, writes: "The Hyomei came last Friday morning. Mrs. Honey had been suffering severely three weeks daily with asthma when she began using it, and after a few times of breathing it the asthma ceased, and has not returned. She has had this trouble since she was seven years old, and we have spent hundreds of dollars in search of relief. When you consider all this, I think it is a most remarkable thing, that once using Hyomei should remove the trouble entirely."

There is no disagreeable strangling inhalation with Hyomei as with ordinary asthma cures. It's aromatic, fragrant medication is breathed through an inhaler, both as a preventive of asthma and a cure for acute attacks. It gives immediate relief and prevents a recurrence of the disease.

Asthma appears in so many different forms, that there are probably some cases Hyomei will not cure; in these your druggist will refund the money, as the proprietors of this treatment write that they do not want to take anybody's money, unless perfectly satisfied with the good done by Hyomei.

Deafness Cannot be Cured.

By local applications, as they cannot reach the diseased portion of the ear. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Highvalley.

Rain and cold, too cold for corn and too wet to work potatoes.

Charley Wagner, wife and four children, of Lewisburg, called to pay Mrs. Wagner's parents a visit in Highvalley, where Mrs. Wagner was raised. Mr. Wagner could only stay for supper and breakfast, as business called him to return to Lewisburg by train on Monday morning; Mrs. Wagner and children stayed until Saturday. Mr. Wagner is the superintendent of the Culp & Co. lumber job at Lewisburg, and has been for the last ten years; that will tell that Mr. Wagner is a business manager.

J. B. Rishel beats all record in corn line, as he is sitting on the fence and is watching to see the tassels come out—he says roasting ears for harvest, sure.

The scribe was to Millheim on Saturday and had many handshakes with her old acquaintances and J. H. Reifsnnyder, Esq., made a donation to the scribe by giving a sulkey for his honorable deed; I always find honesty is the best policy.

The Unionville scribe is all right by proposing Ellis L. Orris for Judge; Highvalley will second that notion. I understand that some of our old farmers talk strongly of Heinle for the same place.

Passing Emanuel Bowers at Coburn he says the bucket is full; well, I don't doubt it, as Emanuel hadn't over full before the scribe could come in, so it did not take long to fill it up; but now we have to get a new one and then the scribe wants the first chance, as turn about is fair play.

Jess would it not be a fine thing if each one would mind his own business and let others do the same? it will not pay to tell folks about his neighbor, you know by telling too many lies it might turn to a check wiper.

By the Spring Mills writer Spring Mills must have the same kind of brutes as Highvalley, and the only way to prevent such brutal acts is to have a whipping post.

Our Honorable landlord of Coburn, asked the scribe why he is such a radical democrat; the scribe agreed to give him the answer through the Democrat; here it is: Under the republican machine rule nearly all get rich, some so poor that they become paupers, and we can read in the good book that a rich man can hardly get to heaven and we don't like to see one lost; now you read the 10th chapter of Matthew and 23rd verse, then if you love your neighbor you agree with the scribe.

The gas at Coburn is far stronger gas than Highvalley gas, as Highvalley gas only works one way and Coburn gas two ways; not long ago a rumor said that some one took a few doses of Coburn gas and on his way home the gas worked two ways and made trouble; Moyer's calf bawled, cows ran, but the danger was not heavy, only one round of home-made soap and one round of wood to make warm water; none were injured.

HIGH VALLEY NO. 2.

R. T. Eisenhut went to Spring Mills on Monday morning where he will finish sawing this week for Geo. Getzler, and by the way will move the mill to east end in the near future.

On Wednesday of last week, Vanderbilt made his appearance at east end with his bow-legged beast; his business was this: A sack of flour and he preached his farewell sermon, which as usual, was about his neighbors, but the party didn't heed to what he said, so he mounted his bow-legged gray and started for Jacob's ladder. Hurrah for west end and his profane language; some people had better think before they talk about other people's faults, when they have Gospel measure of their own.
