Happenings of a Week Over Centre County THE PEOPLE'S POPULAR PAGE

What Has Transpired in the Various Localities—Compiled by a Corps of Alert and Able Writers—Is Your Section Represented?

Loop.

The Loop is all excitement over the capturing of the robbers at the old Foust property; it is the opinion of most of our people that Colyer and Tusseyville made a narrow escape of being visited by the same gang as they passed through here about the first of April and were heard to say, this is Colyer, C. R. Meese's store; most likely these places were in their route but by Mr. Ross close on their heels left.

Geo. R. Meise took a hand in running down the robbers. George is pluck to the back bone.

Wm. Rickert, of Tusseyville, spent Sunday with his parents.

G. D. O. and C. E. D. saw a spook on Sunday; they declare it was Jack rabbit; it was a dangerous spook.

Where is Hoy's School District? I believe he fell in the slip barrel.

CAUSES OF HAY FEVER.

Hymel the Only Cure—Gives Change of Climate in Your Own Home.

Fifty years ago hay fever had not been named, but undoubtedly people suffered then as they do now with storms of sneezing, profuse watering of the eyes, excessive running at the nose, intense smarting and itching and stuffed up feeling in the head.

The direct causes appear to be heat, dust and the pollen of flowers. Although hay fever may occur at any time of the year, it is most common and severe in August, and preventive treatment should be adopted some weeks before the time the disease is due.

Prior to the discovery of the remarkable effects following the use of Hymel, the only treatment that gave relief to hay fever sufferers, was change of climate. The use of Hymel enables any one to breathe the air at home which is like that of the Adirondacks, the White Mountains or other health resorts where healing balsams fill the air with nature's germ destroyer, ozone.

Those who are subject to hay fever should begin the use of Hymel at once, and thus prevent the disease. An ounce of prevention is worth more than a pound of cure in the treatment of hay fever.

Sidney Krumrine has seen the good effects following the use of Hymel in all cases of the respiratory organs, and willing to sell Hymel to any hay fever sufferer, with the understanding that if it does not give satisfaction, the treatment will cost nothing.

High Valley.

There will be more hay in the valley than first expected; the wet weather is bringing on the grass and everything else is a little yellow.

On last Tuesday who came to see the scribe was Wm Bower and his esteemed wife. Mr. Bower was looking up cattle pasture; he is one of the leading farmers in Haines township.

On Wednesday I was surprised to see Wm. Bower, the father of Wm Bower, helping to bring a fine lot of cattle in the valley. Wm. is not looking odd.

On Monday I saw Frank Allen and son-in-law at Coburn; both gentlemen live at Rankelstown.

It would be a fine thing if each one would mind his own business and let his neighbors mind theirs; I think it is a crime to circulate a lot of lies about good neighbors.

A letter from West Virginia, from the Eisenbuths, came to hand; they like the place and are all well; they don't say that they have commenced to work yet.

The east end lumber company is preparing the place to set the mammoth mill that will give employment to all the folks in the valley.

It seems that by all appearance when you hear some of our best democrats talk judgship, Hon. Wm. Heinle is on their lips; no doubt he is a strong man among our dutch and particularly High valley; the scribe himself could support a man like Hon. Wm. Heinle.

Plenty of pasture in the valley and Rapp hollow to pasture one thousand head of cattle; I think it is foolish of those that own the land not to let the people have the pasture, as it will not hurt the timber and is no damage to the land; some will see that they have made a mistake selling all the land to the state.

The No. 2 scribe is mistaken as there is no Vanderbilt living at west end; if there is such a family, by the name of Vanderbilt in the valley it points to the third building east toward west end as the Vanderbilts are great lovers of music, but no horseshoe pitching and fiddling on Sunday.

Fred Stover and brother called to see the scribe on Saturday.

Phillip said if man can make a meal on apples better than on potatoes.

There is but one field of corn worked in the valley and that is at east end.

No apples, no peaches, no cherries—so we must depend on black berries. The only thing that is a full crop is cockle and buckthorn, and cattle pasture; and about cabbage I cannot tell, as I did not see Andrew Vonada, the cabbage king, but no doubt, he will have a full crop.

On last Tuesday as I passed the post office, I was pleased to see Bertha Hosterman, the bell of Coburn, sitting on the porch and so glad to see that she has recovered from her sickness.

The grain and grass improved some since the rain but will not be a full crop. To tell the truth our festival was kind of a failure but then we have taken hold of the golden rule (try, try again) and will have one Saturday, June 27, and have a box social in connection with the festival; all are invited.

Olie, it is too bad that Estie and Carrie waited all evening and you did not go to the festival.
