-Last week we had an unfortunate series of incidents in our effort to get this paper out on time. We had all type up and ready to print by Wednesday afternoon and it would have reached our pocket-book containing \$53 in money readers earlier than usual, but the Ex. and some valuable papers. press comp failed to deliver our cuts of the robbers Wednesday morning. As a result we waited and waited until the last moment and then had to let the press go without some of them. When half the edition was off, the cuts arrived Mrs. Gephart. He is engaged in the in- bit of information in regard to the man and we had to tear up two pages to insert them. In the haste a cut pulled up town, and broke our press. That caused another delay. Finally we got started, but part of one column of type was mashed and we had to let it go that way. With all, the Centre Democrat got there and compliments are pouring in from all sides from pleased patrons for the completeness of our story and excellent illustrations.

-Conductor Reamer on the L. & T. road has a deserved reputation of being a kind and obliging official in all his service on his train. A few days ago a little deaf and dumb girl was sent from the Mt. Airy institution to her home at Peru, in Juniata county "yia Montandon." There being a station by the same name near Bellefonte, the little one by this misdirection came to Peru near this place in the evening, a lonesome flag station, and the conductor gently helped her off, but neither he nor the little maiden could espy any one to receive her. The conductor consequently put her on board his train and brought her on to Bellefonte where a kind gentleman took her to his home for the night and had her in readiness to be sent back via Harrisburg to the other Peru on the Juniata. Mr. Reamer placed her under proper instructions for the information of the different conductors that the girl might reach her home without any mishap, and collected \$3.45 cents from kind passengers on his train for the girl's benefit, besides which the passengers made her observance in some prominent quarters trip pleasant by little gifts of peanuts and fruit. The girls name was Devinny. The mistake was owing to carelessness at starting point by agent.

-When you wish to have best success in catching brook trout, you want to use the Parker fly, manufactured these many years at Jersey Shore by the man whose name it bears. It is admitted by all experts in the capture of specied beauties, to be the fly that has no superior. We bear testimony to the truth of this. There may be other makes, but none to equal the Parker and few that are to be compared with it. Send for a dozen and give them a trial and you will never go for trout without it.

-Bellefonte is a bedlam of fun this week in honor of the "gel-lorious Fourth" and the Declaration of Independence. The ball opened on Monday by the Carnival company and continues all week and will only close after the last fire cracker is set off by the little boy just before he is put to his bed by his mama on the night of the Fourth. The Declaration of Independence will be read on Saturday, all over the country, perhaps more than ever, while its actual is being laid upon the dump for newfangled ideas of the modern statesman who is wiser than Washington, Jefferson and the revolutionary fathers.

-Al. Garman and L. F. Stratiff, of Tyrone, came down on Tuesday to see the Street Carnival. They decided it was alright. Mr. Stratiff is an expert stealing. Recently he hired a horse gunsmith, who claims business is good from Charles Woodin, at Tyrone and had to tear himself away to get bere.

-At Williamsport the main tent of Gentry Bros' show was partially wrecked, on Tuesday, creating a panic among the spectators and causing a suspension of the performance. Several women fainted and all were soaked with water. There were several narrow escapes when the tent poles fell. The show was in Bellefonte last Saturday.

> -Monday afternoon a coal oil stove explosion took place at the home of N. B. Spangler, Esq. Miss Mabel Garbrick, living with the Spangler family, about 5 p. m., lit the coal oil stove in the kitchen and then stepped outdoors a few minutes, and on her return was amazed to find the kitchen all in flames from an explosion of the oil slove. With rare presence of mind, Miss Garbrick immediately resorted to the hydrant, and succeeded in putting out the flames by a free application of water, and thus prevented a destruction of the house. She received some severe burns in her efforts. The wall and furniture of the kitchen were badly scorched.

Eastern penitentiary.

John Pearl, of Altoona, was arrested on Saturday on the charge of horse and failed to return it. He drove the animal until it dropped over dead at a point near Philipsburg and then disposed of the harness at a mere song.

Hugo Schwatz, of Lock Haven, received a telegram from the officers at the Brooklyn navy yard stating that his son, Louis T. Schwarz, had fallen from a parapet and fractured his skull, death ensuing very soon afterwards. Louis Schwarz was a young man 23 years of age, a cigarmaker and painter by trade. Clifford, the 7-year old son of W. H. Barr, of Tyrone, last Friday night arose from his bed and jumped from the window of his room, a distance of 15 feet, to the street below. The boy in playing with his companions had been accustomed to jumping from the window of a small coal house near his home, and it is likely he was dreaming of this sport when he made the somnambulistic leap from his room window. "He sustained a broken left arm, the bone being fractured just above the wrist.

## IN THE HANDS OF THE SHERIFF.

The property of the Nittany Rod and Gun Club at Hecla is to be sold at sheriff's sale, Monday, July 6, on a writ assued at the instance of S. H. Vandegrift, of Pittsburg, for a loan of \$3000, which is long overdue and cannot be paid, because the club is financially embarrassed, a condition exisiting not because the members cannot raise the money, as many of them are millionaires but for the reason that the club has about gone to pieces.

The Nittany club was organized in 1897 at a meeting in Williamsport, with over 50 members. Twenty thousand acres of land were leased for a game preserve and six miles of Little Fishing creek were dammed and stocked for a trout stream. From 8,000 to 10,000 quail were put on the preserve and upwards of 50,000 trout in the stream. But the quail migrated and died in the rigors of the winter season and the trout died and were caught by poachers, until during the last two years, there has been neither hunting nor fishing on the preserve.

A large clubhouse was erected and handsomely furnished and this made the resort for days at a time by members from all over the state. A dissension the club had more than 100 members.
